HIGH RENTS BOOMERANG

"Higher rents and larger families are underlying reasons for at least 60 per cent of new home buying," declared Malcolm G. Dunnan, Boston real estate executive. Even 10 per cent rent increases have caused tenants to look for houses to purchase. Oftentimes only a minor stimulus is necessary to change a family from a tenant to a home owner.

CONTRACTS AWARDED WITHOUT ADVERTISING

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

Tape Perforators

The Mayor, on July 9, approved the award of a contract, without advertising, based on the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Printing Section for the immediate need of four (4), Model 7780, tape perforators, as manufactured by Addressograph-Multigraph Corporation. At present, these machines are on a rental basis in the Printing Section.

Addressograph-Multigraph Corporation has submitted a written quotation. Their price is \$1,505 each machine with an allowance of \$63.96 each machine per month, for three months' rental.

Inasmuch as this company is the manufacturer of these machines, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Addressograph-Multigraph Corporation for four (4), Model 7780, tape perforators at \$1,505 each, less \$63.96 each machine per month, for three months' rental allowance, or a total allowance of \$767.52.

Approximate total amount of contract will be \$5,252.48, net.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

Dump Truck

The Mayor, on July 10, approved the award of a contract, without advertising, based on the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Fire Department for one 1½-ton Ford dump truck and four ½-ton Ford pickup trucks. These vehicles are needed for immediate use by the Fire Department and will not admit of delay until a public advertisement can be processed and awards made.

Formal written quotations have been solicited and received from several Ford dealers. The lowest bidders are Bowers Motor Sales, Inc., and Eliot Motor Company, Inc. Authority is therefore requested to dispense with publicly advertising for prices and award contracts, without public advertisement, as follows:

Bowers Motor Sales, Inc.—Four only F-100 Ford 1956 pickup trucks as per contract specifications at \$1,895 each (all excise taxes excluded). Total \$7,580, less 2 per cent discount, ten days.

Eliot Motor Company, Inc.—One only F-500 Ford with 2-yard dump body as per contract specifications, \$3,322, less federal excise tax, \$165—\$3,157, less allowance on used truck, \$75—\$3,082, less 2 per cent discount, ten days.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

Automobile

The Mayor, on July 17, approved the award of a contract, without advertising, based on the following communication from the Purchasing Agent:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Mayor's Office for the

immediate delivery of a 1956 Buick, Model 71, as per specifications. Dickson Buick, Inc., has submitted an informal written quotation and has assured this office that a vehicle is available for immediate delivery.

Inasmuch as time is of the essence and since Dickson Buick, Inc., has submitted an acceptable price, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to this company. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be as follows:

1956 Buick, Model 71, \$3,910, less federal tax, \$235—\$3,675 plus extra equipment, \$382.70—\$4,057.70, less trade-in allowance on used unit, as is, \$450—\$3,607.70, net.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

FIRE DEPARTMENT.

Fireboat Repairs

The Mayor, on July 17, approved the award of a contract, without advertising, based on the following communication from the Fire Commissioner:

DEAR SIR:

Your Honor's approval is hereby requested to execute a contract, without public advertising, for bids, with the Bethlehem Steel Company, 256 Marginal street, East Boston, for dry-docking and making repairs to fireboat, Engine 31, for a sum not to exceed \$4,000. The fireboat is now giving only partial service, due to a defective propeller, which must be removed and replaced by a new propeller.

It will be necessary to remove and renew approximately 500 lineal feet of oak hull sheathing. The bottom must be cleaned and painted, eleven sea strainers must be removed, cleaned, and replaced, and all sea valves must be opened, cleaned, ground, and repacked.

The boat should be returned to service as quickly as possible for the proper protection of the water front inasmuch as we have only one other boat available for service.

The Bethlehem Steel Company is the only shipbuilding company which can perform the work within a short period of time.

This is emergency work and, in my opinion, no advantage would be gained by the city in publicly advertising the repairs, and the price quoted by the Bethlehem Steel Company is reasonable. It is also my opinion that no lower price could be obtained by the Fire Department for doing this work with efficiency and dispatch.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

LIBRARY DEPARTMENT.

Architectural Services

The Mayor, on July 12, approved the awarding of extra work under a contract, without public advertising, for architectural services in connection with a new roof on the Central Library building. Approval was based on the following communication from the Trustees:

DEAR MR. MAYOR:

On December 29, 1955, your Honor approved a contract, without public adver-

tising, between the Trustees of the Public Library of the City of Boston, acting for the city, and Gilbert Small & Co., Inc., 10 State street, Boston, for engineering and architectural services in connection with the completion of the roof of the Central Library building.

Over and above the regular engineering and architectural services required for the work the contract required, in addition, that the engineer provide twenty hours per week of supervision by a clerk of the works, at a cost of \$4,000. The total fee to be paid to the engineer was to be in the amount of \$10,000.

In the light of subsequent developments the Trustees of the Library have determined that it is desirable that the engineer now be requested to provide an additional twenty hours per week of supervision. The cost of this additional service will be in the amount of \$4,000.

Further, when the engineer's contract was originally negotiated, it was not certain that the appropriation available for the entire roofing job would be sufficient to permit doing other than the necessary work upon the main portion of the Central Library building, though it was desirable that, if possible, the job should include also the necessary work on the annex portion of the roof of the Central Library as well. However, when the plans and specifications were being prepared subsequently for public bidding, it was decided to include provisions for the work upon the annex portion of the roof, with a view toward obtaining bids for the work upon both portions of the roof, with the possibility of awarding the contract for the combination of the two in the event that the bids should fall within the amount of the appropriation. The Library therefore requested the engineer to do the additional work of preparing the plans and specifications to include the annex portion of the roof as well.

Also, inasmuch as it finally became necessary to obtain three sets of bids, the last two being by public advertising instead of by invitation as in the first instance, the engineer was called upon to make numerous revisions in the form of proposals and specifications to meet the full requirements of the public bidding procedure. The engineer was obliged, however, to furnish some forty additional copies of the plans and specifications instead of the fifteen sets stipulated in the original instance.

The cost of the additional work set forth in the two immediately preceding paragraphs was in the amount of \$975.

In view of the foregoing, and in the availability of funds, the Trustees of the Library have taken the following action for the amendment of the contract with Gilbert Small & Co., Inc.:

"Voted, That the contract with Gilbert Small & Co., Inc., 10 State street, Boston, for engineering and architectural services in connection with the completion of the roof of the Central Library building, be amended to include engineering and architectural services in connection with the repairs to the annex roof as well as additional supervisory services relating to the completion of the roof of the Central Library building, and that the said contract be further amended in the amount of four thousand dollars (\$4,000), thereby making the new contract cost an amount not to exceed fourteen thousand dollars (\$14,000); and further

"Voted, That the aforesaid contract be amended to specifically include within its scope an obligation on the part of the engineer to prepare, in connection with public advertising of the twofold project, bid, proposal, and contract forms; to redraft the specifications as necessary; and to provide for a payment to the engineer in the amount of nine hundred and seventy-five dollars (\$975) as reimbursement for this extra work, thereby making the total contract cost an amount not to exceed fourteen thousand and nine hundred and seventy-five dollars (\$14,975)."

The permission of your Honor is hereby requested to amend the contract with Gilbert Small & Co., Inc., accordingly.

Respectfully,

THE TRUSTEES OF THE "PUBLIC LIBRARY
OF THE CITY OF BOSTON

MILTON E. LORD, *Director*.

PUBLIC WORKS DEPARTMENT.

Borings for Incinerator

The Mayor, on July 10, approved the award of a contract, without advertising, based on the following communication from the Public Works Commissioner:

DEAR SIR:

Invitation bids were opened in this office today for taking approximately 1,100 linear feet of wash borings and approximately 40 linear feet of rock cores at the site of the proposed South Bay incinerator which is to be constructed on South Bay avenue. These borings were requested by our consulting engineer, Metcalf & Eddy, and are necessitated in order to determine the type of subsurface material to be encountered, as this information will be necessary before completing the design of the foundations.

Bids were received from the following contracting firms and in the amounts as indicated below:

Total Bid.—Raymond Concrete Pile Company, \$2,324; Carr Construction Corporation, \$2,745.80; Allstate Drilling Company, \$3,015; American Drilling Company, Inc., \$3,048.20; Carr Dee Test Boring and Construction Corporation, \$3,775; Charles A. Leary Company, \$4,018.

Wash Borings, 1,100 Linear Feet.—Raymond Concrete Pile Company, \$1.84; Carr Construction Corporation, \$2.31; Allstate Drilling Company, \$2.45; American Drilling Company, Inc., \$2.35; Carr Dee Test Boring and Construction Corporation, \$2.85; Charles A. Leary Company, \$2.98.

Rock Core, 40 Linear Feet.—Raymond Concrete Pile Company, \$7.50; Carr Construction Corporation, \$5.12; Allstate Drilling Company, \$8; American Drilling Company, Inc., \$11.58; Carr Dee Test Boring and Construction Corporation, \$16; Charles A. Leary Company, \$18.50.

All of the above firms are qualified and experienced on boring work, and the low bidder, the Raymond Concrete Pile Company, is eminently qualified on this type of work. In order to expedite matters, we decided to invite proposals rather than publicly advertise for them. In addition, no advantage would be gained by publicly advertising for bids as we invited proposals from all recognized firms in this area who specialize in this type of work.

I respectfully request, therefore, your authority to dispense with advertising and to award a contract in the estimated amount of \$2,324 to the Raymond Concrete Pile Company of 304 Park

Square Building, Boston, for taking wash borings and rock cores in the site of the proposed South Bay incinerator adjacent to South Bay avenue in the Roxbury district. As it is most difficult to determine the precise depth to which the borings will have to be taken, I also request your authority to increase the above contract sum by 25 per cent. The latter-referenced per cent is included in practically all of our advertised contracts where bids are taken on an item basis such as in the subject contract.

Respectfully,

GEORGE G. HYLAND,
Commissioner of Public Works.

EXTENSION OF CONTRACTS.

CITY PLANNING BOARD.

On Tuesday, June 26, 1956, at a meeting of the City Planning Board, the following vote was taken:

"That the term of the contract executed on February 2, 1956, between Adams, Howard & Greeley, City Planning Consultants, and the City of Boston, acting through the Planning Board, to furnish services, guidance, and assistance as consultant to the Board in its rezoning study, be extended for three months to October 15, 1956; such extension to require no additional appropriation, and further, that the chairman be authorized to sign and execute such extension on behalf of the Board."

DEPARTMENT OF SCHOOL BUILDINGS.

L. J. Banda Company, for fire repairs, etc., at the William Blackstone School, from June 30, 1956, to July 31, 1956. Reason: Delay in painting subcontractor obtaining proper material for bleaching out walls.

HOSPITAL DEPARTMENT.

Sanatorium Division.

Contract for alterations and renovations to plumbing and steam systems in various buildings at the Sanatorium Division, with Parkman Construction Company, Inc., to August 23.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved an extension of time for the completion of several contracts as follows:

Roslindale Contracting Company, 34 Averton street, Roslindale, for laying water pipes in Emelia terrace, Ward 20; Garth Road Extension, Ward 20; Anselm terrace, Ward 22, and such additional locations, if any, in Wards 20 and 22, as may be designated by the Commissioner of Public Works. Reason: Two additional streets added to contract (Dow road, Ward 20, and Cutter road, Ward 20). Extension requested to July 15, 1956.

Baker & Co., 3475 Washington street, Jamaica Plain, for bituminous concrete pavement in Austin street, Fairmount avenue, etc., from June 30, 1956, to July 14, 1956. Reason: The contractor was delayed by inclement weather during the spring months.

Baker & Co., 3475 Washington street, Jamaica Plain, for bituminous concrete pavement in Albany street, Bristol street, etc., from June 30, 1956, to August 31, 1956. Reason: The contractor was delayed by inclement weather during the spring months.

Baker & Co., 3475 Washington street, Jamaica Plain, for bituminous concrete pavement in Dorchester avenue, Melcher street, etc., from June 30, 1956, to August 31, 1956. Reason: The contractor was delayed by inclement weather during the spring months.

Baker & Co., 3475 Washington street, Jamaica Plain, for bituminous concrete pavement in Bancroft street, Boynton street, Hall street, etc., from June 30, 1956, to August 31, 1956. Reason: The contractor was delayed by inclement weather during the spring months.

R. A. Buccella & Sons, Inc., for sewerage works in Business street and Barry street, Hyde Park, from July 1, 1956, to July 21, 1956. Reason: Contractor was delayed due to unusual ground conditions and the many utilities crossing his trench.

Joseph Amara & Son, 706 Hyde Park avenue, Roslindale, for sidewalk narrowing and roadway work in Mildred avenue, Ward 18, from Babson street to Norfolk Street Playground, from June 30, 1956, to September 30, 1956. Reason: The utility companies will not have their poles moved back until the end of June, 1956.

Suffolk Electric Company, 413 Harrison avenue, for electrical work at 624 Albany street, from June 30, 1956, to August 15, 1956. Reason: The contractor was delayed due to weather conditions which prevented completion of the contract.

Rufu Construction Company, 1 Allen road, Brighton, for bituminous concrete pavement in Cambridge, Charles, etc., streets, from June 30, 1956, to August 31, 1956. Reason: The contractor was delayed due to the inclement weather.

REAL PROPERTY DEPARTMENT.

Maher & Fall Wrecking Company, 23 Jenkins street, South Boston, has been granted an extension of time for the completion of the contract for the demolition and removal of buildings located at 558-570 Washington street; 12, 16-20, 24, 28 and 34 Hayward place; 24-28 Harrison Avenue Extension, to August 1, 1956. Reason: Failure of tenants to vacate premises on time and precautionary measures which had to be taken because of steam pipe which runs the length of Hayward place, the contractor was unable to complete the work on time.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 9, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p.m., President McCORMACK in the chair, and all the members present.

The Reverend William R. Coen, of St. Patrick's Roman Catholic Church, Roxbury, was escorted to the rostrum.

INVOCATION BY REV. WILLIAM R. COEN.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

We humbly beseech Thee, O Almighty God, to look with favor on these men of the Boston City Council whose privileged duty it is to lead and guide the citizens of Boston in noble and honest living.

May they be wise in their decisions, prudent in their plans, steadfast and courageous in their obligations. We ask you, dear Lord, to bless and protect them from all dangers—physical and spiritual—so that with a sound body, clear mind, and virtuous conduct they may give strong leadership and good example to their people.

Finally, we ask Thee, O Lord, to direct all their actions by Thy holy inspiration, and carry them on by Thy gracious assistance, that every prayer and work of theirs may begin always from Thee and through Thee be happily ended. Through Christ our Lord. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

FIRE LOSSES FOR LAST FIVE YEARS.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1956.
To the City Council.

Gentlemen:
I transmit herewith further communication from the Fire Commissioner relative to your order of June 11, 1956, concerning the losses caused by fire each year in the City of Boston for the past five years.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Fire Department, July 3, 1956.
Hon. John B. Hynes,
Mayor of Boston.

Sir:

Under date of June 22, 1956, I advised you that I was writing to the State Fire Marshal in order to obtain the information requested by the City Council in their order of June 11, 1956.

Please be advised that I have received the following information from Robert M. Tappin, State Fire Marshal:

NOTE.—The above figures are for losses over \$100.

Very truly yours,
FRANCIS X. COTTER,
Fire Commissioner.

Placed on file.

ABANDONMENT OF EASEMENT IN PRESTON COURT, DORCHESTER.

The following was received:

City of Boston,
Office of the Mayor, July 2, 1956.
To the City Council.

Gentlemen:
I transmit herewith a communication from George G. Hyland, Commissioner of Public Works, relative to the abandonment of certain rights to lay water pipes acquired December 2, 1896, and I recommend the adoption of the accompanying order authorizing the abandonment of the easements as requested by the commissioner.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 2, 1956.
Mayor John B. Hynes and City Council.

Gentlemen:
By an instrument dated December 2, 1896, and recorded with Suffolk Registry of Deeds, Book 2417, page 306, the City of Boston acquired the right to lay water pipes in Preston court, Dorchester district of the City of Boston.

No damages have been paid as a result of this acquisition, and, in fact, there has been no con-

struction pursuant to this acquisition. Due to changes in the proposed development of the area in question, it is my opinion that a portion of the easements acquired as aforesaid is no longer required for public purposes; and I therefore recommend that the City of Boston abandon its right to lay water pipes in that portion of Preston court lying northerly of Christopher street, being the area measuring 24 feet by 60 feet shown as Preston court on Land Court Plan No. 5275C, filed with the Land Registration Office for Suffolk County with Certificate of Title No. 22043; also being the area shown as Preston court on Land Court Plan No. 5416A, filed in said Land Registration Office with Certificate of Title No. 6846.

Respectfully,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, By an instrument dated December 2, 1896, recorded with Suffolk Registry of Deeds, Book 2417, page 306, the City of Boston acquired the right to lay water pipes in Preston court, Dorchester district of the City of Boston; and

Whereas, No water pipes have ever been laid in that portion of Preston court lying northerly of Christopher street; and

Whereas, The Commissioner of Public Works of the City of Boston has determined that the right to lay water pipes in that portion of Preston court lying northerly of Christopher street is no longer needed for public purposes; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized in the name and behalf of the City of Boston to execute and cause to be recorded with Suffolk Registry of Deeds, Registered Land Division, a declaration that the right of the City of Boston to lay water pipes in that portion of Preston court lying northerly of Christopher street, being the area measuring 24 feet by 60 feet shown as Preston court on Land Court Plan No. 5275C, filed with the Land Registration Office for Suffolk County with Certificate of Title No. 22043; also being the area shown as Preston court on Land Court Plan No. 5416A, filed in said Land Registration Office with Certificate of Title No. 6846, be abandoned.

Referred to the Committee on Public Lands.

TRANSFER OF LAND FROM PUBLIC WORKS COMMISSIONER TO FIRE COMMISSIONER.

The following was received:

City of Boston,
Office of the Mayor, June 11, 1956.
To the City Council.

Gentlemen:
Under the provisions of chapter 86 of the Acts of 1956, the City of Boston was authorized to establish, develop, and maintain on Moon Island in Boston Harbor a school for instructing its fire fighters in the techniques of extinguishing fires and of protecting life and property in case of fire.

The Fire Commissioner has requested that a parcel of land on Moon Island containing approximately 300,000 square feet be transferred to his department for the purpose of carrying out the provisions of chapter 86 of the Acts of 1956. The Public Works Commissioner has determined that this particular parcel of land is not required for the purposes of his department.

I transmit herewith an order transferring a parcel of land on Moon Island from the care, custody, control, and management of the Public Works Commissioner to the care, custody, control, and management of the Fire Commissioner to be used for the purposes set forth in chapter 86.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
June 11, 1956.

Hon. John B. Hynes and City Council.

Gentlemen:
The Fire Commissioner of the City of Boston has requested from this department the use of approximately 300,000 square feet of land on Moon Island for the purpose of constructing thereon a school for the instruction of fire fighters.

It is my determination that the 300,000 square feet of land requested by the Fire Commissioner for this purpose is no longer required for sewerage purposes.

Respectfully,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, The City of Boston is the owner in fee of Moon Island in Boston Harbor held by said city for sewerage purposes; and

Whereas, By St. 1956, c. 86, the City of Boston is authorized to transfer a portion of Moon Island to the Fire Department; and

Whereas, The Public Works Commissioner has determined that a portion of Moon Island, hereinafter described, is no longer required for sewerage purposes; now, therefore, it is hereby

Ordered, That the following parcel of land be, and the same hereby is, transferred from the care, custody, control, and management of the Public Works Commissioner to the care, custody, control, and management of the Fire Commissioner for the purposes set forth in St. 1956, c. 86: Three hundred

thousand (300,000) square feet of land situated on Moon Island, Boston Harbor, shown on a plan marked "Plan of Land in Quincy, Massachusetts, Belonging to the City of Boston, Transferred to Fire Department, under Chapter 86, Acts of 1956, dated June 4, 1956."

Referred to the Committee on Public Lands.

SALE OF PIGS BY PENAL INSTITUTIONS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, July 9, 1956.
To the City Council.

Gentlemen:
The House of Correction, at Deer Island, has a surplus of 100 pigs. These pigs weigh a total of about 12,500 pounds. In order that these surplus pigs may be sold at the present market price of approximately \$1.875, it is necessary that the City Council give its approval to the sale.

I therefore submit to you herewith an order for the sale of the surplus pigs and recommend its passage by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Penal Institutions Department,
July 2, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

This department has a surplus of one hundred (100) pigs at the House of Correction, Deer Island, which we would like to sell in order to avoid the expense of purchasing feed for them. These pigs weigh about one hundred and twenty-five (125) pounds each, a total of about twelve thousand five hundred (12,500) pounds.

At the present market price, the City of Boston should receive approximately one thousand eight hundred and seventy-five dollars (\$1,875) from this sale. If approved, it is our intention to advertise this sale in the "City Record" and sell to the highest bidder with a representative of the Sealer of Weights and Measures Department to supervise the weighing.

Authority by the City Council and your Honor's approval of this public sale is respectfully requested.

Very truly yours,
ALBERT E. DESAULNIERS,
Deputy Commissioner.

Ordered, That the Penal Institutions Commissioner is hereby authorized to sell to the highest bidder 100 surplus pigs at the House of Correction, Deer Island.

Referred to the Executive Committee.

3. Report on message of the Mayor and order (referred June 11) for loan of \$10,000,000 for off-street parking facilities—submitting the following report:

CONCERNING THE PROPOSED TEN-MILLION-DOLLAR LOAN FOR OFF-STREET PARKING FACILITIES.

Your committee held further hearings on this subject on July 5, 1956, and on July 6, 1956.

The principal witness heard by your committee on both dates was Chairman Herman Carp of the Real Property Board.

Your committee amassed a wealth of statistics at these two hearings and classified them into three categories, namely:

1. Money spent from the first ten million dollars.
2. Money firmly committed out of the first ten million dollars.
3. Moneys allocated to various sites.

The figures have also been corrected by deducting from the moneys expended an amount representing that sum returned to the fund and again available. The detailed figures will be furnished later.

Generally the figures are money expended to the end of June, 1956

Moneys firmly committed to end of June, 1956.....	\$5,165,370 82
.....	1,641,281 00
Total.....	\$7,106,651 82
Moneys returned to fund and again available.....	\$149,414 37
Net of moneys expended from fund or firmly obligated.....	\$3,957,237 45
Allocated from the fund by the Real Property Board:	
Haywood structure.....	\$1,400,000 00
Central and Kilby, land and structure.....	1,619,000 00
Fort Hill structure.....	1,400,000 00
Essex and Lincoln, remodeling....	450,000 00
Total	\$1,869,000 00

It is to be noted that when the allocated moneys are added to the net amount of moneys spent or allocated a deficit of \$1,826,237.45 appears.

One million four hundred thousand dollars of this allocated money represents money set aside for the construction of the Hayward Place garage. It is to be hoped that private capital will be attracted to build this garage on a 40-year lease basis.

In making a recommendation for a specific sum, your committee finds it difficult to reconcile the Real Estate Board's policy on allocation with reasonably close surveillance by the Council of the operation of the off-street parking program.

Your committee therefore, recommends that the Real Property Board prepare a schedule of proposed activity for the next twelve months, setting forth thereon: (1) the date which the adopted policy of the Real Property Board concerning allocation would require that money be available for each site; and (2) setting forth the latest date legally which money would have to be available to accomplish the proposed program.

Your committee recommends, because of the time factor involved, rejection without prejudice of the Mayor's order and the initiation of a similar order by the Council at this meeting.

Coun. PIEMONTE, a member of the Committee on Appropriations and Finance, submitted a minority report as follows:

MINORITY REPORT OF COUNCILLOR PIEMONTE RE \$10,000,000 FOR OFF-STREET PARKING.

Coun. PIEMONTE.—Mr. President, I would like to offer a minority report, if you please. I believe the Council have sufficient data on which to take action on the Mayor's order for an additional \$10,000,000 for off-street parking. The city has available recommendations of the City Planning Board on a number of off-street parking sites. The need for additional sites has been agreed upon by all the Boston civic and business organizations.

While it is true it may not be necessary to expend all the \$10,000,000 already allocated, and there is a probability that lessees may build on proposed sites, thus releasing for future expenditures that portion of the money for other sites, yet it is good business to have the allocated money and the authorization for that proportion necessary to build the structures on sites in the event private enterprise does not itself elect to build.

The question resolves itself, do we want additional off-street parking spaces, and how fast do we want them built? While the program originated in 1946, the record indicates that from 1946 to 1950, only two off-street parking sites were built. Since 1950 there have been built four off-street parking sites, or they are in the process of being built, and there are two others on which land takings have been commenced.

Too much emphasis is placed on the Chairman of the Board. It is well to bear in mind the Board is made up of the Chairman of the Board, and the vice-presidents of two of our leading banks who, in their respective positions, are in charge of real estate, and the Chairman of the City Planning Board. The legislation whereby the city ordinances provide the machinery whereby, if free from outside influence, the city might avail itself of off-street parking spaces necessary to alleviate the needs of the merchants and shoppers.

This hearing has afforded the Council an opportunity again to note the great need of better public relations for the entire City of Boston. I have taken in detail the cost of the various items and it is refreshing to note the cooperation that the City of Boston has received from its real estate owners, and especially from its old trusts. On one piece of property on which the assessed valuation was \$300,000-odd, and this took place within the past several months, the trustees agreed on a figure of \$790,000. It is significant to note that with the exception of St. James avenue the cost of land takings to the city under the present Real Estate Board is much less than the assessed valuation. On St. James avenue, and I have not had the opportunity as yet to make a detailed study of it, the question of severance damages came into the picture.

It is also refreshing to note on such items as advertising under the first two off-street parking sites which were built in the City of Boston under this program, and not under the present Real Estate Board, there was marked under the item such sums as \$3,121.18. The largest expenditure since for the same item is \$349.67, and in some instances has been as low as \$185. These facts, among others, which were brought out in the hearing, indicate that what Boston needs more than anything else is a better public relations program.

The foregoing report of the committee was accepted, and the order for loan of \$10,000,000 as submitted by the Mayor was rejected without prejudice.

Coun. AHEARN in the chair.

President McCORMACK in the chair.

ORDER FOR LOAN OF \$10,000,000 FOR ESTABLISHMENT OF OFF-STREET PARKING FACILITIES.

Coun. FOLEY offered the following:

Ordered, That under the authority contained in chapter 450 of the Acts of 1955, the sum of ten million dollars (\$10,000,000) be, and hereby is appropriated, to be expended under the direction of

the Real Property Board, for the establishment of off-street parking facilities, and that the Collector-Treasurer be authorized, with the approval of the Mayor, to issue from time to time, bonds or certificates of indebtedness of the city to said amount, said issues to be outside the limit of indebtedness of the city.

Referred to the Committee on Appropriations and Finance.

STUDY OF RECOMMENDATIONS CONCERNING FIXING OF FEES, LICENSES, etc.

Coun. AHEARN offered the following:

Ordered, That the Boston City Council give serious study to the recommendations concerning the Fixing of Fees for Licenses and Permits and the Charges for Certain Services which were contained in an ordinance submitted by the Mayor on May 14, 1956, and which was this day rejected without prejudice by the City Council. Referred to the Committee on Ordinances.

DISPLAY OF STATUE OF JOHN BARRY, "FATHER OF THE AMERICAN NAVY."

Coun. McCORMACK offered the following:

Ordered, That his Honor the Mayor and the Director of Public Celebrations make proper arrangements for display and recognition of the statue of John Barry, "Father of the American Navy," which will soon depart from Boston for erection in Ireland as a permanent memorial to this great Irish American patriot who fought so gallantly in the cause of American independence. Passed under suspension of the rules.

INCREASE IN COMPENSATION TO POLICE COMMISSIONER.

Coun. FOLEY, McCORMACK, KERRIGAN, and McDONOUGH offered the following:

Ordered, That the provisions of chapter 510 of the Acts of 1956 providing for an increase in compensation to the Police Commissioner of the City of Boston be, and hereby is, accepted. Passed under suspension of the rules.

Adjourned at 7.48 P.M., on motion of Councillor Collins, to meet on Monday, July 16, 1956.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

FACILITIES PLENTIFUL

Massachusetts is one of 22 states that exceed minimum basic health requirements, a *Look* magazine survey reports.

The current issue of the magazine places all the New England states in the "exceeding the minimum" category.

Fourteen states are in the "below par" category, and 11 are in the "at par, or slightly above."

The magazine set the basic requirements at 143 physicians, 222 nurses, and 500 hospital beds for every 100,000 population.

The article says, however, that health authorities tend to disagree on what are minimum needs.

RACKETEERING IN HOME REPAIRS

This home repair program is growing rapidly, in fact it is growing so rapidly that it is attracting the attention of racketeers who think they see a chance to high-pressure an unwary householder into buying inferior roofing or siding or some other material. Their aim is usually to get in and get out fast.

There are so many perfectly reliable concerns in the business of selling home repairs, and there are so many banks willing to lend the money for these repairs where they are done by reputable firms, it is a shame that the racketeers can even get a foothold here and there.

EXTRA WORK UNDER CONTRACT

R. A. Buccella & Sons, Inc., have been directed to perform the following extra work under their contract for sewerage works in Business street and Barry street, Hyde Park, dated October 19, 1955:

Furnish and install one 24-inch diameter Celco tide gate in new manhole near Station O + O, at agreed price of \$200.

Manning Construction Company, Inc., have been directed to perform the following extra work under their contract for bituminous concrete pavement in Ayles road, Edwardson Street Extension, Ellard road, Frazer street, and Lewiston street, dated June 1, 1956:

In Frazer street construct two new catch basins, including all incidental work, according to Sewer Division specifications, including minor drain connections and all excavation, except rock, for the sum of \$500 each, at an estimated cost of \$1,000.

FUTURE SCHOOL NEEDS

We note that several New England communities, at recent town meetings, projected their school building programs far into the future, even, in some cases, going so far as to purchase sites for future school buildings. The wisdom of such planning is obvious.

Population trends are now closely defined. They are an all-important factor. Also residential, industrial, and commercial developments are, to a large degree, indicated by the availability of vacant land, most of which is bought by developers in large tracts. Future school needs are forecast by a great many of these plans, and the importance of obtaining suitable sites for future school buildings is obvious.

"GOD MUST LIKE CROWDS"

New York City's Transit Authority public relations department has scattered posters through the subway system advertising that New Yorkers like crowds. Captioned "Our Own Home Town," the posters declare that "God must like crowds, he makes so many of 'em," and "No crowds in Podunk—but who wants to live in Podunk?"

BREAK FOR THE OLD FOLKS

In Detroit, an experimental plan to allow a 10-cent bus fare with free transfers for older citizens has been approved. Those 65 years old or older will ride at the reduced rate on weekdays, from 9.30 A.M. to 2 P.M., from 7 P.M. to midnight, on Saturdays, from 7 P.M. to midnight, and all day on Sundays.

JUVENILE CURFEW

A 30-day test of a midnight curfew has brought successful results, according to Police Chief Herbert Jenkins of Atlanta, Georgia. The curfew banned persons under 18 years of age from the streets after midnight. In the 30-day test, offenses involving juveniles dropped about 18 per cent under the previous 30 days and juvenile arrests decreased about 30 per cent. Auto larcenies during the test period decreased 50 per cent as compared to the same period a year ago.

BRIDGE DEMOLITION.

Proposals for Removing and Disposing of the Superstructure and Drawtender's House of the Chelsea Bridge South, Over the South Channel of the Mystic River.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for removing and disposing of the superstructure and drawtender's house of the Chelsea Bridge South, over the South Channel of the Mystic River. A performance bond and also a labor and materials bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the amount of \$50,000, will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Removing and Disposing of the Superstructure and Drawtender's House of the Chelsea Bridge South, Over the South Channel of the Mystic River," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, AUGUST 2, 1956, with a certified check for TWENTY-FIVE HUNDRED (2,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

REAL PROPERTY BOARD.

INVITATION FOR PROPOSALS FOR ERECTING AND COMPLETING AN OFF-STREET PARKING STRUCTURE ON HAYWARD PLACE, BOSTON, MASS.

NOTICE TO CONTRACTORS.

The Real Property Board, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for erecting and completing an off-street parking structure on Hayward place, Boston, Mass.

Proposals will be received until 12 o'clock noon, E.D.S.T., August 23, 1956, at the office of the Awarding Authority, eighth floor, Room 809, City Hall, 26 School street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed, and plainly marked with the description of the work to be done. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$72,500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority. Any and all subbids not filed on the proposal form prepared by and obtainable from the Awarding Authority will be rejected.

All subbidders' proposals filed with the Awarding Authority shall be submitted in sealed envelopes, plainly marked with the title of the work for which bid is submitted, subcontractor's name, and subcontractor's business address. All such bids shall be in the possession of the Awarding Authority and delivered or mailed to the general contractor no later than 12 o'clock noon, E.D.S.T., Tuesday, August 21, 1956.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subbid items of work as listed below, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority:

Waterproofing, dampproofing and caulking	\$300
Miscellaneous metal, light iron, and structural steel	4,000

WILLIAM ZECKENDORF HAS A PLAN FOR BOSTON TO CREATE LARGEST BUILDING BOOM IN OUR CITY'S RECENT HISTORY

William Zeckendorf, developer of the United Nations site in New York City, and one of the leading real estate investors in the United States, told Mayor John B. Hynes this week that he is keenly interested in large-scale investment of real estate capital in Boston. He told the Mayor he intends to bid for the 22-acre New York Streets urban redevelopment clearing in the South End. He is submitting his offer for the land in writing. He said he wants to expand this area all the way to the South Station.

Just two months ago, in a talk at the Massachusetts Institute of Technology on "Risk Capital in Urban Renewal," Mr. Zeckendorf severely criticized Boston. His remarks prompted Mayor Hynes to write him a letter suggesting that he had some wrong impressions about our city and inviting him to thoroughly investigate Boston's real possibilities. Mr. Zeckendorf did just that. He has had a considerable amount of correspondence and personal conversation with the Mayor. Both met in Boston as recently as last week. Exact details of Mr. Zeckendorf's proposal are, however, not known at this time.

Concerning Mr. Zeckendorf's change of opinion about Boston, Mayor Hynes said: "He is now willing to do things for and in the city that no individual has ever offered to do in my time."

Mayor Hynes said he feels confident that Mr. Zeckendorf will come to Boston and "he won't be content until he leaves something behind as a monument to his genius and capacity to get things done in a big way." The Mayor added: "If he were interested in any Boston venture, even in a small one, this could be the spark to start a conflagration of building." Mr. Zeckendorf, according to the Mayor, "never had a clear picture of the Boston situation." The Mayor acquainted him with the new spirit now alive in the city. He outlined what is happening here in respect to urban redevelopment and renewal, new private construction, and the new Central Artery possibilities in the downtown area.

This nationally known real estate developer "now considers Boston a challenge to meet if he gets the co-operation of the city, state, and federal agencies where they enter the picture," the Mayor said.

With respect to the New York Streets-South Station area, Mr. Zeckendorf is reportedly ready to bid for it without any exceptional federal, state, or city subsidies. He is further reported to be interested in having the state's East-West Toll Highway come all the way into the South Station, connecting with the Central Artery there.

Up to the present time, the thinking in Boston with respect to the New York Streets area, now being cleared, is its adaptability for light industry. Mr. Zeckendorf is said to see the area as ideal for "a string of office buildings."

If the Boston & Albany tracks are used for the route of the toll highway into Boston, a plan now under serious consideration by the Massachusetts Turnpike Authority, some Boston & Albany commuter trains would be routed to North Station. This would make track area at South Station available for construction, possibly, for the \$20,000,000 Prudential Life Insurance Company office building tentatively planned for the Boston & Albany yards in the Back Bay.

The plan for reconstruction of the New York Streets-South Station area is so expansive that if suggested by someone with less prestige than Mr. Zeckendorf, it would be given little consideration by Boston officials.

Obviously convinced by Mayor Hynes that "Boston is ripe for revitalization" and that a "wonderful opportunity exists to come into this city and help with improvements," Mr. Zeckendorf is now maintaining constant communication with the Mayor, with the heads of the New Haven and Boston & Albany Railroads and other parties whose interests coincide with his plans.

If the New York Streets-South Station plan goes through, it would be the biggest building boom in the city's recent history.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

SEMINAR IDEA REACHES DOWN TO EVERY-DAY PROBLEMS

ADMINISTRATIVE SERVICES DIRECTOR PLANS PANEL SESSIONS FOR KEY CITY EMPLOYEES

The first meeting of a proposed conference series on municipal administration within the framework of the Boston City Government, to be conducted under the direction of John A. Breen, Director of Administrative Services, was held Wednesday, June 27, in the City Council Chambers, at 10 A.M.

The meeting was attended by more than eighty key personnel in the various agencies of city government designated by their department heads: Lawrence W. Costello, Administrative Secretary, Department of Administrative Services, submits herewith the following report of the meeting:

Permanent Seminar Planned

The Director of Administrative Services, John A. Breen, opened the meeting by giving a brief outline of a plan to hold conferences on municipal administration, either on an annual or biennial basis, to be sponsored by the city for the purpose of effecting tangible improvements in the over-all operations of administrative staffs throughout the city government. It was the Director's contention that conferences of this character would more than justify the effort and expense involved, and he maintained that it would fill a genuine need by many administrators, a need which is not being met by existing devices and arrangements.

He visualized a series of general meetings or sessions for presentation of major topics of interest to the whole official family, plus a series of small working panels for particular topics of interest to special groups. There would be panel discussion leaders, open question and answer periods, exhibits, and demonstrations. Of interest would be exhibits prepared by vendors of equipment, supplies, and services for city use. Prominent experts from public and private life could also be invited to speak.

Conferences would be very different in nature and in purpose from the Boston College Seminars.

They would be for practical administrators and would deal with practical daily problems.

They would attract state-wide and nationwide attention to Boston as a city in which the science of municipal administration was raised above the level of ordinary municipal practices.

They would stimulate and encourage the administrative staffs.

They would help all of us in city government to do a better job.

He suggested that the first conference be held in October at a time and place to be decided upon in the next two months.

Proposes Two-Day Sessions

The Director then introduced Francis X. Maloney, Assistant to the Director of the Boston Public Library, in Charge of Business Operations, who forwarded to his Honor, the Mayor, under date of April 16, a proposed plan for the first Boston Conference on Public Administration. Mr. Maloney gave a most interesting and enlightening talk on the ideas he had in mind for making our October conference a top-notch affair that would create local and national interest, and would direct public attention to the importance of the profession of public administration. He believed that the conference should consume a period of at least two days and should be held at some downtown hotel such as the Hotel Statler or the Parker House, or possibly Boston University or Boston College.

The program would include general sessions, luncheon and/or dinner meetings (to be decided by the Mayor), group sessions, exhibits, demonstrations, and inspection tours. Participants would consist of top administrators and other key personnel of city departments, Boston School Department, Boston Housing Authority, and other civic and county agencies; chairmen, members, and executive officers of municipal boards and commissions; professional, legal, medical, engineering, fiscal, and other experts attached to the municipal services; representatives of Boston area universities and technical schools; and executives and specialists from the

fields of private industry, commerce, and finance.

Some Topics

The Director then submitted some of the topics which he believed should be given immediate consideration, including:

Office Management — reducing paper work.

Personnel Classification and Compensation—relations with employee organizations.

Simplified Methods in the Centralization of Purchasing.

Forms Study and Standardization.

Organizational Charts and Procedural Manuals.

Performance Budgeting—Capital Budget Developments and Administration.

Inventory Controls.

Building Maintenance—problem of security in public buildings.

Improvement in the Departmental Annual Report—and the feasibility of issuing one annual report covering all departments.

Civil Defense and Disaster Organization.

Improved Methods in Accounting Procedures.

Traffic and Off-Street Parking Problems.

Winning Public Cooperation for Departmental Functions.

Panel Advisors

The Director then pointed out that he believed the following subjects should be given immediate consideration and, in this connection, nominated the following as temporary panel advisors:

Lawrence W. Costello, Administrative Services Department—Organizational Charts and Procedural Manuals.

Frank McDonough, Administrative Services Department—Personnel Classification and Compensation.

Arthur O'Keefe, Park Department—Inventory Controls.

Eugene Welsh, Purchasing Division—Simplified Methods in the Centralization of Purchasing.

Frank Maloney, Library Department—Better Public Relations, or Winning Public Cooperation for Departmental Functions.

Joseph Kennedy, Printing Section—Forms Study and Standardization.

Suggestions from Floor

The Director welcomed suggestions from the floor as to any other subjects that might be considered, and stated emphatically that the names mentioned were only tentative assignments and anyone present was at liberty to volunteer for service on a particular panel, and that it would be the duty of each panel to nominate its own chairman.

Daniel Cronin of the Welfare Department offered the suggestion that we consider a study of inter-governmental relations in so far as the Welfare and Hospital Departments are concerned, particularly in the legislative field where state grants and federal funds are important factors.

The subject of removal of litter from the streets was then brought up by Frank Maloney, and Timothy O'Leary of the Sanitary Division of the Public Works Department stated that he would be glad to serve on a panel covering this phase of municipal service.

Standard Forms Needed

Miss Daly of the Sanatorium Division of the Hospital Department offered the suggestion that we consider setting up standard printed specifications for contracts for the use of her department and other departments throughout the city. It was the chairman's belief that this subject could be taken up at the October meeting, provided that a member of the Law Department served on the panel to be set up for simplifying methods in the centralization of purchasing.

James Haley, Chief Engineer of the Survey Division of the Public Works Department, claimed that he was faced with quite a problem in procuring competent personnel in the Engineering Division because of the salary incentives in private industry.

The Director believed all of these suggestions were worthy of study and consideration, and it was his intention to initiate such studies as soon as we ascertained how the October conference would work out.

T. V. Possibilities

William T. Doyle, Executive Secretary of the Traffic Commission, desired to know whether or not the proposed panel discussions would be public. The chairman replied that he would rather have the discussions among ourselves for the time being, as we would not

achieve the objectives we have in mind if they were made public at the first conference. However, if a subject has sufficient importance from a public viewpoint, we could arrange to televise such a discussion over Channel 2, which would not be as costly as the other channels.

The Procedural Manual

The chairman then introduced Mr. Costello, the Administrative Secretary to the Administrative Services Board, who was in charge of the preparation and compilation of a procedural manual and organizational charts for the Administrative Services Department. Prior to the meeting, copies of this document were distributed to everyone present, and, subsequent to the meeting, each individual received an instruction sheet on the preparation of manuals for individual departments. Mr. Costello gave a brief outline of instructions on the preparation of the manuals and hoped that copies would be finished by October 1. He pointed out that, in the preparation of the manual, it would be advisable for the administrative officer supervising the work of his department to first sit in with his department head and discuss frankly the various phases of departmental functions and to be assured that each copy, before being submitted to the Administrative Services Department, has the blessing of the department head in each instance. He requested the cooperation of all present in the preparation of their particular manuals and welcomed constructive criticism or suggestions, in order that we might make the city-wide manual one of the better, if not the best, in the country.

The Director closed the meeting by requesting panel supervisors to seek volunteers, or name individuals, whom they would like to have work with them on their particular panels. He informed the personnel present that the Administrative Services Department was only interested in securing their cooperation and assistance for the benefit of all city departments, employees, and the public generally.

We had the pleasure of having with us four distinguished visitors from other sections of the world, who have spent considerable time in Washington studying and observing various fiscal functions in

federal agencies. They were present today to observe similar operations within our own city government, and, while this organizational meeting had little or nothing to do with financial operations, nevertheless they were pleased to accept our invitation to attend this meeting and observe first-hand how a meeting of this character would be conducted, in order to organize and formulate plans for future conferences. They are:

The Supervisor, Accounting Department, Office of the Comptroller-General, Panama—Mrs. Helena Garcia.

The Administrative Assistant, Fiscal Section, United States Operations Mission, Paraguay—Mr. Aristobulo Redes Caceres.

Fiscal Analyst, Bureau of the Budget, Ministry of Finance, Korea—Mr. Chong Ha Lee.

The Chief, Overseas Research Section, Research Department, Bank of Korea—Mr. Seung Doo Yoon.

Meeting adjourned at 11:50.

Collins Acting Chief

The Mayor, on July 17, approved the following:

DEAR SIR:

Your Honor's permission is hereby requested to have Assistant Fire Chief Patrick E. Collins sign the payrolls of the Fire Department while Chief of Department Edward N. Montgomery is on vacation from July 16 to August 6, 1956.

It is necessary for me to be absent from the Headquarters office on department business from time to time during each week, and the payrolls of the department should be signed as soon as they are completed in order that issuance of pay checks to members will not be delayed.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

THE MAN-MADE FENS

Thousands have enjoyed the informal, rustic beauty of the Fens, and have marveled that circumstance should have saved such a charming location from the encroachment of the city. Few realize that this seemingly natural display of beauty is man-made; born of an engineering project.

Hardly more than sixty years ago, what is now known as the Fenway was nothing more than flats. Stony Brook was turned into a beautiful retreat for anyone from the city atmosphere. Two broad basins were provided to hold the overflow of Stony Brook and the flats were filled in. To avoid giving the park an artificial look, the landscape experts created a scene that simulated the characteristic salt-marsh scenery of the New England coast.

The Fenway is but one of five sections that make up the five-mile Parkway, from Charles River, near Harvard Bridge, to Franklin Park. The first section is the Charlesgate which lies between the Fenway and Charles River. This irregular waterway with its steep banks, derived its name from a water-gate connecting the overflow channel of Stony Brook with the Charles River.

The Riverway, which connects with the other side of the Fenway, also originated from a sanitary problem. Muddy River, forming the boundary between Boston and Brookline, threatened the neighborhood with deterioration by the pollution of its waters. The two cities cooperated to eliminate the problem and created the present park.

Jamaciaway and Arborway make up the last two sections of the Parkway, connecting and traversing Leverett Park, Jamaica Park, Arnold Arboretum, and Franklin Park.

BUILDING COLLAPSE SPURS MAYOR TO DRASTIC ACTION AGAINST ABANDONED STRUCTURES

Spurred on by the collapse of the abandoned four-story brick apartment dwelling at 56-58 Cabot street, Roxbury, on Wednesday night, July 25, to the danger of families in the adjoining house at 54 Cabot street, Mayor John B. Hynes took drastic steps to bring about an immediate widespread demolition of all abandoned structures that are even remotely in danger of collapse or are fire menaces. A number of such structures have been fired either by incendiaries or accidentally during the past several months despite the daily inspection of the Fire Department.

The Mayor's first act to cure the condition was to instruct Building Commissioner Charles A. Callanan to push forward vigorously and to remove all abandoned structures that are even remotely in danger of collapse and to request Fire Commissioner Francis X. Cotter to provide the Building Department immediately with a complete report of all abandoned houses that are fire hazards with a view toward having them condemned by the Building Department and removed. The Fire Department has no authority under the law to condemn properties, and they can only be removed by the Building Department if they are structurally unsound.

Abandoned houses have long been a constant source of worry to the Mayor. Only a month ago he met with the presidents of most of the savings and co-operative banks and urged them to make their best efforts to persuade the owners of all abandoned properties whose mortgages they hold to either rehabilitate their properties or tear them down. At the meeting a committee of five leading bank executives was named to study the abandoned house situation. The committee, headed by Robert M. Morgan, vice president of the Boston Five Cents Savings Bank, made an immediate survey of all of the older sections of the city, where most of the deserted structures are located, and has already made an informal report to the Mayor. Its formal report and recommendations are expected within a few days.

Cooperating also with the Mayor in his efforts to either rehabilitate or remove all abandoned structures is the Boston Board of Fire Underwriters, which has requested its member companies to cancel the fire insurance on all abandoned houses.

The Mayor again requests the owners of all abandoned structures to either fix them up or tear them

down. This is the second time within three months that he has made such a request. If immediate action is not taken by them to honor his request, it is known that he plans to take whatever legal action may be necessary to force their compliance. "We can no longer compromise with a hazard that may lead to the loss of life," he says.

IMPROVEMENTS VOTED

The Public Improvement Commission has voted, and the Mayor has approved, the following:

Hospital Project

That permission be granted to New England Deaconess Hospital to place and maintain an underground conduit with two steam pipes, one 4-inch and one 8-inch with one expansion chamber, from a point approximately 80 feet northeast of Deaconess road running northwest on Joslin road for a distance of 300 feet to a point approximately 80 feet northeast of Deaconess road, substantially as shown on a plan marked "Service Conduit to New England Deaconess Hospital from Harvard Medical School Power House, December 9, 1955."

The Commissioner of Public Works is hereby authorized to issue permits for opening and occupying the street for placing and maintaining said pipes, under the conditions set forth in the City Ordinances, and such other terms and conditions as the said commissioner may deem proper.

Clarification of Contract

The Mayor, on July 20, approved the following:

DEAR MR. MAYOR:

On June 25, 1956, your Honor authorized the awarding of a contract to Orrin B. Maxwell, doing business as Maxwell Equipment Company, for furnishing one Hydro Sky-Worker tree working unit, Model 4152, at a cost of \$17,960, less 2 per cent discount, time of payment. The cash discount should have read one half of 1 per cent, 10 days, net, 30 days, which is the cash discount submitted by this company on the publicly opened bid of June 15, 1956.

Your permission is requested to amend the letter of award insofar as it applies to Orrin B. Maxwell, doing business as Maxwell Equipment Company, by deleting the discount of 2 per cent, time of payment, and inserting in place thereof the discount of one half of 1 per cent for payment in 10 days, net, 30 days.

Approximate total amount of contract for Orrin B. Maxwell, doing business as Maxwell Equipment Company, will then read \$17,960, less one half of 1 per cent, for payment in 10 days, net, 30 days.

Respectfully yours,

EUGENE K. WELSH.
Acting Purchasing Agent.

CONTRACTS AWARDED WITHOUT ADVERTISING

FIRE DEPARTMENT.

Professional Survey

The Mayor, on July 20, approved the award of a contract, without advertising, based on the following communication:

DEAR SIR:

Your Honor's permission is requested to dispense with public advertising and to engage the services of Mr. L. E. Lowry, 1235 Ridge avenue, Evanston, Illinois, to make a survey of the fire alarm system of the Boston Fire Department for the sum not to exceed \$1,250.

Mr. Lowry will perform the following services:

Furnish Service for: Survey of fire alarm operations and procedures. Survey of equipment used in the transmission and receipt of alarms and dispatch of apparatus. Survey manpower both in adequacy and operation. Survey any other factors pertinent to the efficient operation, equipping, and manning of fire alarm service.

Submit Recommendations: Relative to equipment, including use of wired signals, voice communications, radio dispatching, and central station. Relative to dispatching and procedure. Relative to manpower and its use. Relative to any changes that may give better and more efficient operation.

In view of the nature of the professional services involved, no benefit would be gained by publicly advertising for bids.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

HOSPITAL DEPARTMENT.

Sanatorium Division.

Boiler Repairs

The Mayor, on July 24, approved the award of a contract, without advertising, based on the following communication:

YOUR HONOR:

On July 2, 1956, your Honor approved a \$3,445 contract, with D. Antonellis, Inc., 15 Sparhawk street, Brighton, Mass., to perform certain repairs to brick work

on No. 1 boiler in the Power House at the Sanatorium Division. This contractor was the lowest bidder for the work following public advertising for proposals.

At the very beginning of the repair work it was discovered that the inner course of brick had become fused with the outer brick course with the result that in attempting to remove the outer layer of brick the entire brick work came down. The aforementioned occurrence necessitated more work than was originally contemplated or could be foreseen by the department at the time the original specifications were drafted. The cost of the additional work outlined above is \$370.

The aforementioned firm, D. Antonellis, Inc., was the low bidder at the outset and they are entirely capable of performing this work and, in the interest of expediting its completion, your Honor's authorization is hereby requested to dispense with publicly advertising and to amend the principal contract to include the extra work within its scope and to increase the contract sum in the amount of \$370 to cover the cost of same, thereby making a new contract cost of \$3,815.

Very truly yours,

RICHARD J. CONDON,
President, Board of Trustees.

Washroom Alterations

The Mayor, on July 19, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

I respectfully request your permission to award a contract, without publicly advertising for bids, to James M. McCusker Associates for engineering services in planning the proposed alterations to the washrooms and toilets in the Nichols Building and the washrooms and toilets in the men's dormitory at Long Island Hospital.

The estimated cost of the proposed work is \$20,000. The engineer will be paid a fee equal to 10 per cent of the actual total cost of this work.

In view of the professional nature of the services involved, it is felt that nothing would be gained by publicly advertising for bids.

Respectfully,

THOMAS J. GIBLIN, D.M.D.,
Acting President, Board of Trustees.

Engineering Services

The Mayor, on July 20, approved the award of a contract, without advertising, for engineering consultant services at Boston City Hospital, based on the following communication:

DEAR MR. MAYOR:

The Trustees of Boston City Hospital requested funds for an architectural and engineering survey of the future needs of Boston City Hospital in the 1955 budget request. The trustees' request for the sum of \$25,000 for an architectural survey was included in the 1956 budget as recommended by your Honor and voted by the City Council.

There is immediate and urgent need for skilled consultant services to evaluate the present patient care facilities and the present status of the hospital plant. Present and alternative hospital locations must be evaluated. Present and estimated future patient population and care needs must be studied. Present and

future equipment needs require study. All available data must be reviewed and recommendations must be made concerning a major program of new construction or a more conservative program of modernization of existing facilities.

The trustees have voted to request your Honor's permission to award a contract for such a survey to the architectural firm of Shepley, Bulfinch, Richardson & Abbott, 1 Court street, Boston. This firm is widely experienced in hospital work and is eminently qualified to undertake such services.

Respectfully,

THOMAS J. GIBLIN, D.M.D.,
Acting President, Board of Trustees.

Engineering Services

The Mayor, on July 24, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

Funds have been allocated for several urgently needed additions, alterations and repairs in various areas at Boston City Hospital. Preliminary discussions have been held and schedules for this work have been arranged.

These projects include a central oxygen system with services to various buildings (estimated cost \$120,000). Installation of modern circulating hot and cold water system in various buildings, including central system and loop (estimated \$200,000) and installation of central suction system with services to Children's, Medical and Surgical Buildings (estimated \$80,000).

These projects have been carefully considered while other major engineering and architectural studies continue. These projects are needed immediately to comply with safety inspection and building code requirements and for patient welfare and safety.

The trustees have voted to request your Honor's permission to award a contract, without public advertising, to J. M. McCusker Associates, engineers, 17 Chestnut avenue, Jamaica Plain, for engineering services for this work at a fee of 10 per cent (10%). The approximate total amount of the contract or contracts is estimated to be \$400,000.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

PARKS AND RECREATION DEPARTMENT.

Tree Trimming

The Mayor, on July 24, approved the award of a contract, for trimming of trees in all sections of the park system, to Fred Ralston & Co., Inc., at the rate of \$15.35 per hour, the amount not to exceed \$11,000.

The other bidders were:

Superior Tree Service, Inc., \$15.35 per hour; Blueview Nursery, \$25.50 per hour.

We have hundreds of trees throughout the city that require immediate attention and must be trimmed at once. In order to expedite the work, and because of the number of trees that must be cared for throughout all sections of the city on city streets, parks, and playgrounds, I request your permission to divide the work between the two low bidders without publicly advertising for bids. The bids received are from concerns that have done considerable tree

work for us in the past. They have the proper personnel as well as the equipment to do the work in a satisfactory manner and we feel that nothing would be gained by advertising.

I therefore request your authorization to dispense with public advertising for bids and to enter into a contract with Fred Ralston & Co., Inc., 47 Braintree street, Allston, for the services mentioned above, at the rate of \$15.35 per hour, the total amount of the contract not to exceed \$11,000, to be charged to Parks and Recreation Department budget appropriation 1-11-41 (29-5).

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

PUBLIC WORKS DEPARTMENT.

Engineering Services

The Mayor, on July 20, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

Under date of June 27, 1956, your approval was granted to enter into an agreement with the engineering firm of Metcalf & Eddy to abrogate a contract between said engineer and the City of Boston, said contract having been executed on December 6, 1951, and provided for the design and supervision of the construction of a 750-ton incinerator.

Under the terms of the aforementioned contract, the engineer prepared and submitted a report containing preliminary estimates and recommendations relating to the design of the proposed plant and equipment, and submitted a written statement containing the basic ideas to be incorporated in the incinerator design. I accepted the engineer's preliminary report and, after consultation, also approved his statement of basic ideas. As so approved, the aforementioned statement provided that the engineers should design a 750-ton incinerator utilizing only part of the waste-heat of incineration for the generation of steam.

Further study, subsequent to the approval of the above-referenced statement, led me to decide that it would better serve the city's interest to increase the daily capacity of the plant to 900 tons, and to provide for the complete conversion to steam of all the waste-heat of incineration.

Consequently, after discussion with an attorney on the staff of the Law Department, it was decided that the most satisfactory procedure to follow would be to cancel the then current contract and to prepare a new contract with the firm of Metcalf & Eddy for the design of an incinerator having a 900-ton capacity with full waste-heat utilization. Incidentally, Metcalf & Eddy has not received any payment for the services performed as the contract specified that no payment shall be made until the commissioner had approved in writing the preliminary drawing and outline specifications of the plant. No such approval was ever granted by me.

In view of the circumstances, it is my unqualified opinion that immediate steps should be taken to award a new contract to the consulting engineering firm of Metcalf & Eddy, 20 Providence street, Boston, for the complete design of the proposed South Bay incinerator. The

latter-referenced firm has an international reputation and is exceptionally qualified and expert on the design of incinerators, and is particularly well equipped to prepare the designs for this incinerator due to the amount of time and work that they have already expended on the preliminary studies, reports, and equipment specifications. I have made arrangements with the consulting engineer, whereby the complete design, including preparation of construction plans and specifications, supervision of construction, and the checking of shop and working drawings during construction, as well as related activities, will be undertaken on a basis of 5.7 per cent of the construction costs, with the understanding that, in no event, will the fee for the above-referenced services exceed \$228,000, regardless of the actual cost of construction of the complete facility. Incidentally, the old contract which was executed on December 6, 1951, provided for a fee, computed on the basis of 6 per cent of the cost of construction.

In my opinion, no advantage would accrue to the city by publicly advertising for proposals for the consulting engineering services, as a contract of this kind is one of the few that should not be subject to competitive bidding. While cost is a factor, the integrity of the firm selected and the experience of the particular firm are of far more importance to a municipality than the amount of the fee. In this particular case I have selected the firm of Metcalf & Eddy because it is a firm of high integrity, long experience in the design of incinerators, and is probably one of the best qualified firms of consulting engineers in this country. In addition, the fee for which the engineer has agreed to do the work is reasonable and, in my opinion, compares favorably with the fees charged for comparable services to other municipalities in this area.

I respectfully request, therefore, your approval to the award of a contract, without publicly advertising for proposals, to the engineering firm of Metcalf & Eddy of 20 Providence street, Boston, for the design of a 900-ton per 24-hour refuse incinerator, in accordance with the provisions of the contract document that has been prepared in connection with the award of this contract, and with the express understanding that the fee for services will be computed on the basis of 5.7 per cent of the total cost of construction and with the provision that the total fee will not be in excess of \$228,000, exclusive of the cost of additional services furnished or extra work that the engineer might be required to do in accordance with the provisions of Article IX of the contract.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Sumner Tunnel Work

The Mayor, on July 20, approved the award of a contract, without advertising, based on the following communication:

DEAR SIR:

An appropriation of approximately \$23,000 was provided in the current budget of the Sumner Tunnel to provide for the renewal of approximately 4,300 linear feet of control cable. The new cable has been ordered by the Purchas-

ing Agent, and it is expected that deliveries will be made in the near future.

There is only one spare duct available in the Sumner Tunnel for the new cable, and it is necessary to clear and rod this duct line in order to make certain that it is free of all obstructions. The rodding of duct lines constitutes work of a specialized nature, and this type of work is done by only a few contractors in this area. The contracting firms most familiar with this type of work are Hugh Nawn, Inc., and the Coughlan Construction Company, as the latter-referenced firms do most of the duct line work for the Telephone and Edison Companies.

We therefore invited these firms to submit proposals, and the lowest estimate was submitted by Hugh Nawn, Inc. The latter-referenced has agreed to undertake to rod the existing spare duct line in the tunnel and free it of all obstructions on a cost-plus basis as this is the only practical way of paying for this work. It cannot be done on a unit-price or lump-sum basis as it is difficult to determine the conditions that will be encountered or the time that will be required to do the necessary work. In addition, the working hours are restricted as the work can be performed only from Monday through Friday, from 1.30 A.M. to 5.30 A.M. Therefore, it is most impractical, in our opinion, to attempt to rod and free the existing duct of all obstructions except on a cost-plus basis.

The Hugh Nawn Company has agreed to undertake this work at a price of \$40 per hour which will provide for the furnishing of a crew consisting of a foreman, four men, and a truck, for a period of approximately twenty days. The crew will work approximately four hours each day, or a total of eighty hours, at an estimated maximum cost of \$3,200.

The Coughlan Construction Company submitted a bid in the amount of \$74.50 per hour for approximately fifteen days for a total bid of \$4,470.

I respectfully request your authority to dispense with advertising and to award a contract to Hugh Nawn, Inc., of 194 Freepoint street, Dorchester, in an amount not to exceed \$3,200, for cleaning and rodding a duct line located in the Sumner Tunnel and for doing related work at an agreed rate of \$40 per hour for the furnishing of a crew, consisting of a foreman, four men, and a truck.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

IV. APPRECIATION.

The Fire Commissioner is pleased to publish the following letter which was received from Hon. John B. Hynes, Mayor of the City of Boston:

July 12, 1956.

Commissioner Francis X. Cotter, 115 Southampton Street, Boston, Mass.

DEAR FRANK:

I want to thank you and your entire department for your help in making our Mayor's Charity Field Day so great a success.

As you know, the money raised annually by the Field Day is used to help underprivileged and deserving persons, and to assist worthy charities.

One of my most gratifying experiences as Mayor is to be able to use the fund to extend a helping hand to persons in dire need of it.

The reports I have received thus far indicate that the fund realized from this year's Field Day will be the biggest in history. I am sure that will give you great satisfaction, as it does me. Please accept my sincere appreciation for the part you played in making that possible.

With best wishes, I am,

Sincerely yours,

J. B. HYNES, Mayor.

V. FIRE ALARM BOXES INSTALLED.

The following fire alarm boxes which were established in General Order No. 39, dated June 25, 1956, have been installed and connected in circuit No. 59:

3858, Prescott and Stanbro streets.

3859, Colchester street and Millstone road.

Company commanders will add the above boxes to circuit card 59.

VI. FIRE ALARM BOX ESTABLISHED.

In the near future, the following fire alarm box will be installed:

12-5131, Washington Allston School, 396 Cambridge street.

Company commanders will add the above box to assignment card for Box 5131.

The circuit number for this box will be announced when the box is installed.

VII. FIRE ALARM BOX DISCONTINUED.

The following fire alarm box has been discontinued and removed from service permanently:

13-2241, A. J. Tower Company, 18 Simmons street.

Company commanders will delete Box 13-2241 from assignment card for Box 2241 and, also, delete Box 13-2241 from circuit card 20.

By order of Fire Commissioner FRANCIS X. COTTER.

PATRICK E. COLLINS,
Acting Chief of Department.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT. (BRIDGE DIVISION.)

BRIDGE MASONRY REPAIRS

Proposals for Repairing Masonry Piers and Abutments, Northern Avenue Bridge, Over Fort Point Channel.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing masonry piers and abutments, Northern Avenue Bridge, over Fort Point Channel. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Repairing Masonry Piers and Abutments, Northern Avenue Bridge, over Fort Point Channel", and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, AUGUST 9, 1956, with a certified check for ONE HUNDRED FIFTY (150) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(July 28.) Commissioner of Public Works.

TAX RATE BOOST OF \$8.90 POINTS UP URGENT NEED FOR NEW REVENUE SOURCES TO RELIEVE REAL ESTATE INCREASE HERE CONSISTENT WITH OTHER BAY STATE CITIES

Announcing, on August 1, the tax rate for 1956, Mayor John B. Hynes stated as follows:

The tax rate for 1956 will be \$78.70 per thousand dollars of valuation. This is an increase of \$8.90 over the tax rate of 1955. It is the lowest possible rate that could be achieved consistent with sound municipal financing. It has been approved by the State Tax Commission.

It must be obvious that a tax rate of \$78.70 places a further burden on the owners of real property, for it is real estate that carries the major share of municipal requirements. It must be equally obvious that the cost of maintaining and operating city departments, the School Department, and county departments, and the cost of meeting other obligations of the municipal government should not be borne to the present extent by the owners of real estate. These costs must be more equitably shared. If they are not, the economic position of the city will deteriorate to a point where municipal services of all kinds will be affected. To avoid a situation of this sort, which necessarily would have its influence not only on its citizens generally, but on its employees specifically, the city should have available a substantial new source of income. I shall submit to the next session of the Legislature a bill for such a source of income, without which many of the cities and towns in this Commonwealth, including Boston, face a difficult financial future.

Government on every level has been forced to meet greater costs during recent years. Wages, salaries, pensions are higher; supplies, equipment, materials are higher; contractual services have followed the upward scale of labor costs. While municipal costs have risen, the total valuations of the city have been decreasing. This year, the valuations are \$24,000,000 less than in 1955. There is no present means of offsetting both increased costs and lessening income other than by raising the tax rate. Surely, there is a limit to the height to which the tax rate should go. We have, in Boston, reached or passed that limit. A

sensible solution to a forbiddingly high tax rate is a new source of income which spreads the cost of municipal government over a wider area. I hope I will have general support for such a new tax measure when it is submitted later this year.

There has been no increase in the tax rate since 1953. In that year the rate was \$70.70. From 1953 to 1956 general appropriations have increased close to twelve million dollars. The following factual information is illustrative of what has happened to cause the first tax rate increase since 1953:

Appropriations	1953	1956	Increase
For Pension Purposes.....	\$1,976,820	\$2,766,835	\$790,015
For County Purposes.....	6,512,053	7,732,786	1,220,733
For School Purposes.....	27,043,530	29,583,865	2,540,335
For Other City Purposes.....	94,408,338	101,687,628	7,279,240
	\$129,904,741	\$141,687,114	\$11,830,373

Of this total increase \$6,362,541 is in the 1956 budget alone, and by far the greater part is for personnel.

For twenty years Boston has been plagued with an annual overlay reserve not adapted to its assessment policies, with the result that each year there has been an overlay deficit required by law to be raised by taxation. In 1953, because of a mitigating statute, the overlay deficit required to be included in the tax rate was only \$4,663,996. In 1956, because that statute has ceased to be available, the overlay deficit so required to be included is \$7,575,435, which is \$2,911,439 more than in 1953. If Boston is not to be similarly plagued in years to come, the current overlay reserve must be more realistic, and current valuations must reflect the results of recently litigated abatement proceedings. The 1956 tax rate makes a substantial attack on both of these matters. The resultant cost is of necessity equally substantial.

In 1953 the overlay reserve included in the tax rate was but \$3,238,937. The 1956 tax rate includes an overlay reserve of \$4,790,789, which represents an increase of \$1,551,852 over 1953.

Mayor's Tax Rate Statement

(Continued from page 969.)

Because of the eminent domain takings for public improvements (particularly the Central Artery and the so-called New York Streets Project) and, further, because of adopting valuations fixed for 1954 or 1955 by recently litigated abatement proceedings, the assessed valuation of taxable property, which in 1953 was \$1,565,666,000, is in 1956 but \$1,517,808,000. At a \$78.70 tax rate, this decrease in valuation means a loss in revenue of \$3,766,424.

Fortunately, the full impact of this substantial loss of revenue and the above-mentioned great increase in costs can be cushioned in the current year because the State Tax Commission has approved for use as an estimated receipt in the current year the \$7,919,380 to be received from the Massachusetts Port Authority for the general funds of the city upon the sale of the Sumner Tunnel. This is a non-recurring item which, since it represents an accrual over many years, in good conscience must be applied towards achieving a greater objective than the reduction of a single year's tax rate. On January 1, 1956, in addition to the \$7,575,435 overlay deficit required to be raised in 1956 as stated above, there was an overlay deficit of \$3,670,763 attributable to taxes assessed before 1950 and required to be raised \$2,000,000 in 1956 and \$1,670,763 in 1959. Of the Port Authority payment \$3,670,763 is being used to anticipate the satisfaction of such deficit and thereby lighten the 1958 and 1959 tax burdens. The remaining \$4,248,617 is being included in this year's tax rate as a current receipt, offsetting in part the \$7,575,435 overlay deficit required by law to be raised therein. The proceeds of the sale of the Sumner Tunnel are thus being wholly used to keep out of the current or future tax rates so much of the deficits of past years as those proceeds are sufficient to satisfy.

To summarize the above, the increase in expenses as compared with 1953 when the tax rate was last raised are these:

Costs	\$11,830,373
Overlay Deficit	2,911,439
Overlay Reserve	1,551,852
Loss in Valuations	3,766,424
Total	\$20,060,088

Crediting the \$4,248,617 available from the proceeds of the sale of the Sumner Tunnel leaves a net increase in expenses of \$15,811,471, which, because of the lack of any

new source of revenue, makes a tax rate increase to \$78.70 unavoidable.

The increase is consistent with the increase in the tax rate of other Massachusetts cities as shown by the following table:

APPROVE ¼-MILE MORE OF STONY BROOK CONDUIT

On July 26 Mayor Hynes approved the action of the Public Improvement Commission in ordering the construction of 1,320 feet of 9-foot reinforced concrete conduit as part of the Canterbury branch of the Stony Brook Conduit in the West Roxbury section. The estimated cost of the project is \$212,000. It will be constructed from the terminus of the existing conduit northeasterly to a point approximately 130 feet northeasterly of Canterbury.

BACK BAY WAS A SMALL QUODDY

The famous Quoddy tidewater harnessing project, in Maine, instituted in the early days of the administration of the late President Franklin D. Roosevelt, may have seemed like a new idea at the time.

Fact is that the Back Bay, between the years 1821 and 1857, was itself a rather successful Quoddy tidewater project on a small scale.

Boston's early residents harnessed the waters of the old Back Bay, beyond Charles street, by a dam from the then westerly end of Beacon street to Sewall's Point, so called, in Brookline. With Boston neck on the east, this dam formed a tidewater basin to create water power to operate a number of mills, foundries, and manufactories.

The facilities were used right up until the time the Back Bay was filled in after 1856.

MAYOR ORDERS DEMOLITION OF 200 ABANDONED HOUSES IN DRIVE TO CURB SERIOUS HAZARDS

Mayor John B. Hynes, on August 1, instructed Building Commissioner Charles A. Callanan to start the demolition of approximately 200 abandoned houses as a first step toward ridding the city of upwards of 600 dilapidated wooden and brick structures, many of which are fire menaces and many of which are in a state of near collapse. It is estimated that the cost of the razing of such buildings will vary from \$1,000 to \$1,500 per house.

The Mayor's decision to order the wholesale demolition of these structures, all of which are located in the older sections of the city, came at a conference between him and Robert M. Morgan, vice-president of the Boston Five Cents Savings Bank and chairman of the bankers' committee recently appointed to study the abandoned house problem.

Morgan in his formal report to the Mayor stated that it is the unanimous opinion of his committee that steps should be taken immediately to demolish all abandoned and dilapidated properties that are unfit for human occupancy. Such action, he stated, is needed not only to protect the community against fire hazards and other public dangers, but to wipe out the major impediment to the Mayor's city-wide rehabilitation and conservation program.

Most of the properties scheduled to be razed are more than seventy-five years of age. They vary in size from one-story single-family houses to "three-deckers" with six and eight apartments. Many of them are but one of blocks of deserted homes.

All of the structures to be demolished will be formally condemned by the Building Department before being removed. In each case the owner will be legally notified to either remove or rehabilitate the building immediately. If he fails to act, the Building Department will promptly employ a contractor to tear it down. The city will then place a lien on the property sufficient to reimburse it for costs.

Abandoned houses have long been a source of concern to the Mayor and the Building, Police, and Fire Departments. The owners have been requested time and time again by city officials to either rehabilitate them or tear them down. Many of them have been compelled from time to time to se-

cure them against fire and vandals. But many of them have signified their intentions of abandoning them by failing to pay taxes on the properties for several years.

Although the Police and Fire Departments have inspected all of these properties daily for the past several years, there is hardly a week goes by that one or more of them are not fired or undermined by vandals. Only last week an abandoned brick structure on Cabot street, Roxbury, collapsed, to the danger of the occupants of an adjacent house. As a result the Building Department is now engaged in having removed all of the houses that were dependent upon the structure for lateral support.

Abandoned houses have been a continuing problem for the city housekeeping services, particularly the Building, Law, and Fire departments, for years. During the past ten years the city has been obliged through the Building Department to condemn and raze 287 of them. It has also been obliged to shore or repair 193 abandoned structures that had become a menace to public safety.

In addition to the untold cost of protecting these properties against fires and vandalism, the city has been obliged to spend during the period from 1946 to date a total of \$349,188.31 to raze, shore, and repair abandoned structures. Much of this money has been recovered through placing liens on the properties for costs, but the balance will never be collected because of the city's inability to locate assets of the former owners.

As all abandoned properties are nothing but a liability and hazard to the city in some form or other, the Mayor is determined to make his best efforts during the next year to have them either repaired or removed. There will be no further compromise with the problem, he says. "Abandoned houses will be either rehabilitated or torn down."

REPORT NOTES 17% BOOST IN HUB BUILDING OPERATIONS DURING FIRST HALF OF 1956

A 17 per cent increase in new construction, additions, and alterations of buildings in Boston over the first half of last year was noted in a report of the Building Department released July 27 covering the six-month period, January through June of this year.

Although the total amount of investment represented in building activity in the city since the first of the year, a decrease of 20 per cent in the number of building or alteration permits issued was noted in the report.

There was a 13 per cent increase in the total investment involved in plumbing, gasfitting, and appliance installations for which city permits were granted since January 1, although a decrease of 7 per cent in the actual number of such permits was noted.

In June of this year there was a decrease of 13 per cent in building operations under June of last year.

Following is a summary showing the total building operations in Boston between January 1 and June 30, 1956:

BANK DEBITS UP 11.8 PER CENT

Bank checks paid in eleven important centers of Massachusetts during May totaled 11.8 per cent more than in May last year, as reported by the Federal Reserve Bank of Boston. Pittsfield showed an increase of 24 per cent; Lynn, 15.9 per cent; Worcester, Brockton, and the Lawrence-Andover-Methuen area each, 15.7 per cent; New Bedford, 13.3 per cent; Holyoke, 12.3 per cent; Boston, 11.4 per cent; Lowell, 11.2 per cent; Fall River, 10.7 per cent, and Springfield, 9.5 per cent.

FIRST REGIONAL PLANNING DISTRICT

The first agreement for area planning, under the new law passed in 1955, was recently completed by the communities of Dartmouth, Dighton, Fall River, Mansfield, Norton, Seekonk, Somerset, and Swansea, and approved by the Massachusetts Department of Commerce as the Bristol County Regional Planning District. The district is now able to apply to the Housing and Home Finance Agency of the federal government for financial assistance in conducting its planning program. Such assistance may equal one half of the total cost.

QUITE A BIT OF NEEDHAM IN THE OLD BACK BAY

There's quite a bit of the town of Needham in the old Back Bay—a whole Needham hill in fact, or a good portion of it. When the contractors charged with the filling in of Back Bay in 1858—or thereabouts—when shipping for vast quantities of clean gravel to fill in this potentially valuable part of Boston, they found it in Needham. They excavated by steam-driven machinery thousands of tons of gravel from a hill in that town and transported it by a railroad which they had specially constructed, into the Back Bay.

The dry land in the old Back Bay, therefore is Needham land.

—Back Bay Ledger.

OFF SEASON FOR CROPS

Early crop estimates for Massachusetts indicate an increase of 10 per cent in production of potatoes; 9 per cent in carrots; 6 per cent in cabbage; 4 per cent in snap beans; and 2 per cent in tobacco, but a drop of 53 per cent in apples, and 6 per cent each in tomatoes and sweet corn, compared with crops last year, as reported by the United States Department of Agriculture. Daily milk production in June was 4 per cent over that of a year ago.

—Mass. Dept. of Commerce.

MEDIAN RISE IN LOCAL TAX RATES ABOUT 10 PER CENT

As of August 1 property tax rates for 1956 were reported by 342 of the 351 cities and towns in Massachusetts, showing a median average increase of about 10 per cent over the rates of a year ago. The changes range from an increase of 42.6 per cent in Rowe, 40.4 per cent in Dunstable, and 40 per cent in Conway, to a drop of 45.8 per cent in Merrimack. Of the 342 places reported, 24 show a reduction, 19 show no change, and 299 an increase. General cause of the higher local tax rates is the need for new school buildings.—Mass. Dept. of Commerce.

"NEW YORK STREETS" ARE OFFICIALLY DISCONTINUED

The Public Improvement Commission, with the approval of the Mayor, has officially eliminated from the records of the city the so-called "New York" streets in the South End which have been cleared of buildings in connection with the 22-acre urban redevelopment project.

THE ABC STREETS

Boston has always been famous for crooked streets, named with no intention of aiding the stranger. In the districts that have been gained by annexation, some streets were systematically named; and in laying out the Back Bay district the nomenclature of streets did receive proper consideration, west of the Public Garden they are named alphabetically: Arlington, Gloucester, etc. Not only are the streets named in the order of the alphabet but a name of three syllables always follows one of the two syllables.

—Back Bay Ledger.

GREENHOUSE TOMATOES

A project by the Waltham Field Station of Massachusetts University has stimulated a million-dollar business in the Commonwealth in raising greenhouse tomatoes. A small group of growers centering largely in Middlesex County are now devoting nearly a million and a half square feet in greenhouse space for growing tomatoes off season, resulting in fruit far superior to the artificially ripened ones otherwise available.

DEPARTMENT OF SCHOOL BUILDINGS.

School Work

The Mayor, on July 25, approved the award of a contract for exterior grille work at the Michael J. Perkins School, to B. Feneno Company, in the amount of \$1,820.

The other bids were:

Industrial Welding Company, \$1,898; Providence Wire Works, \$3,041.

Air Conditioning

The Mayor, on July 25, approved the award of a contract for furnishing and delivering air-conditioning equipment to the Administration Building, 15 Beacon

street, to Marshall & Co., Inc., in the amount of \$2,750.

The other bids were:

Metropolitan Service, Inc., \$3,785; J. W. Praught Company, \$5,400.

EXTENSION OF CONTRACT

PUBLIC WORKS DEPARTMENT.

The Mayor has approved an extension of time for the completion of the contract with Dooley Brothers, Inc., 39 George street, Roxbury, for bituminous concrete pavement in Grampian Way, etc., from June 30, 1956, to July 31, 1956, because the contractor was delayed by Boston Edison Company trench work in Victory road.

DECREASE OF CONTRACT

PUBLIC WORKS DEPARTMENT.

Builders Iron Works, Somerville, has been directed to make the following change in its contract for reconstruction of Charlestown Bridge, over the Charles River, dated August 10, 1955. Under the "Change Order" issued on April 13, 1956, relative to motors and limit switches, cancel that portion of order pertaining to limit switches.

Estimated decrease in cost to city, \$1,416.

CONTRACTS AWARDED WITHOUT ADVERTISING

BUILDING DEPARTMENT.

Razing of Building

The Mayor, on July 30, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

Because of the collapse of the buildings numbered 56 and 58 Cabot street, Ward 9, the Building Commissioner, with your Honor's approval, has entered the premises and has determined that the buildings numbered 44 to 64 Cabot street are in an unsafe and dangerous condition and must be removed at once.

Bids have been obtained from the following building wrecking companies:

John J. Duane Company, \$9,900; Central Building Wrecking Company, \$15,444; City Building Wrecking Company, \$15,445; American Building Wrecking Company, \$15,675; E. Polcari & Son, \$17,300; New York Building Wrecking Company, \$19,800.

While the street has been roped off and a police detail has been stationed at both ends of the block, it is obvious that immediate action is required to prevent further collapse.

The public safety so requiring, therefore, the department will enter the premises and remove the block beginning with No. 44, and including No. 64. In view of the emergency nature of this work, your Honor's permission is requested for the awarding of this bid, without advertising, as required in the City Charter, to John J. Duane Company, in the amount of \$9,900.

Very truly yours,

CHARLES A. CALLANAN,
Building Commissioner.

HOSPITAL DEPARTMENT.

Extension of Contract

The Mayor, on July 25, approved the extension of a contract for power and steam plant repairs at Boston City Hospital to cover unforeseen emergencies. Approval was based on the following communication:

DEAR MR. MAYOR:

On September 7, 1955, your Honor approved a contract with the P. J. Riley Company, 295 Highland street, Roxbury,

in the sum of \$137,000, entitled "Repairs and Replacement to the Power Plant and Steam Distribution System at Boston City Hospital," which contract was extended on May 4, 1956.

It now appears that the money assigned for that contract has been very nearly entirely expended.

We have had a continuously recurrent series of leaks in steam and return pipes in the pipe space below one of the tunnels resulting in repeated service orders to make repairs and maintain service. There is no method of determining in advance the amount of pipe that is about to leak or should be replaced. At the present time there is a bad leak requiring the replacement of considerable pipe and an expansion joint which should be repaired at once to prevent loss of steam to several buildings.

In short, in view of the foregoing, it would be exceedingly difficult, and in fact probably impossible to draft specifications which would be adequate to permit open public competition for this work by publicly inviting proposals therefor. Furthermore, time is of the

essence and it is imperative to have this work performed at once.

The P. J. Riley Company has performed the work covered by the present contract up to this date in a highly satisfactory manner. In view of the foregoing, and in order to perform the additional repairs as expeditiously as possible, your permission is respectfully requested to dispense with public advertising and to increase the scope of the principal contract to include the added work, and to increase the contract cost in the amount of \$25,000 to cover the cost, making a new total contract cost of \$162,000. Further, it is proposed that the method of payment shall be the same as that of the principal contract.

At a meeting of the Board of Trustees held at Boston City Hospital on July 13, 1956, it was voted to request your Honor's permission to arrange for this additional work as stated above.

Respectfully yours,

THOMAS J. GIBLIN, D.M.D.,
Acting President, Board of Trustees.

PARKS AND RECREATION DEPARTMENT. Tree Trimming

The Mayor, on July 24, approved the award of contracts, without advertising, for trimming of trees in all sections of the city's park system.

Invitation bids were requested from three companies. The contractors were requested to submit prices on a lump sum per hour basis for the furnishing of tree climbers, a 1½-ton truck, without driver, a 2½-ton truck, without driver, a power saw, and a crane truck with winch.

Two bids of the same amounts were submitted, Fred Ralston Company, of Allston, \$15.34 an hour, and Superior Tree Service, Inc., Arlington, \$15.34 an hour. The other bid, of \$25.50 an hour, was submitted by Blueview Nursery, Roxbury.

In requesting the Mayor's approval to make the award to the two low bidders for work which shall not exceed \$11,000 in total, Park Commissioner Frank Kelley wrote as follows:

We have hundreds of trees throughout the city that require immediate attention and must be trimmed at once. In order to expedite the work, and because of the number of trees that must be cared for throughout all sections of the city on city streets, parks, and playgrounds, I request your permission to divide the work between the two low bidders, without publicly advertising for bids. The bids received are from concerns that have done considerable tree work for us in the past. They have the proper personnel as well as the equipment to do the work in a satisfactory manner and we feel that nothing would be gained by advertising.

EXTRA WORK UNDER CONTRACT

PUBLIC WORKS DEPARTMENT.

Charles Todesca has been directed to perform the following extra work under his contract for bituminous concrete pavement in Balfour street, Davern avenue, Everton street, Homes avenue, Juliette street, Mt. Ida road, Peacevale road, Peverell street, Templeton street, Torrey street, Wilmington avenue, and Woodcliff street, dated August 1, 1955:

Items ordered: In Mt. Ida road, furnish a tack coat of RC1 asphalt, applied at the rate of one tenth gallon per square yard. Approximately 280 gallons will be required and the price to be paid is 17 cents per gallon.

In Woodcliff street, reset one Bradley Head catch basin, for the sum of \$20.

Estimated cost of extra work, \$67.60.

LONG DIVIDEND RECORDS

Five Massachusetts manufacturing concerns are included in the list of 29 nationally-known companies compiled by the American Stock Exchange as having paid dividends without interruption for 50 years or more. Pepperell Manufacturing Company is listed as having paid consistently for 104 years; New England Telephone & Telegraph Company, 70 years; United Elastic Corporation, 60 years; Draper Corporation, 59 years, and United Shoe Machinery Corporation, 51 years.

\$5 MILLION GARAGE LOAN APPROVED BY COUNCIL

The City Council on July 30 gave final approval to a \$5 million loan order to carry forward the city's off-street parking garage program.

The measure, which will provide funds for the creation of five or six garages, was given initial approval two weeks ago by the Council.

The Real Property Board meanwhile voted not to take land in Fields Corner and Allston for municipal off-street parking lots. The Board also deferred action on a proposed land taking at Codman square.

The takings in Fields Corner and Allston were rejected, the Board said, as a result of opposition voiced at public hearings.

The Board held up the Codman Square project pending engineering studies to see if one of the houses scheduled for demolition can be saved.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 16, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCORMACK in the chair, and all the members present.

The Reverend Salvatore Benedictis, O.F.M., of St. Leonard of Port Maurice Roman Catholic Church, was escorted to the rostrum.

INVOCATION BY REV. SALVATORE BENEDICTIS.

In the name of the Father, and of the Son, and of the Holy Ghost, Amen.

Almighty and most just God, who knowest the weakness of our nature, listen to the supplications of Thy servants. Give us strength to ward off all evils from human society. Make all our labors and energies do Thy holy will of God.

May we always stand united with the will to fight this good and peaceful battle of Christ. May we always, according to our talents, powers and position, contribute something to the Christian reconstruction of human society. May we become instruments of peace, love and faith that God may always be present with us and in us to life eternal. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost, Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Weigher of coal for the term ending April 30, 1957, Fritjof O. Torgersen, 65 Courtland Circle, Milton.

Referred to the Committee on Confirmations.

STATUS OF REZONING STUDY.

The following was received:

City of Boston,
Office of the Mayor, July 16, 1956.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the City Planning Board in regard to your motion of June 11, 1956, relative to submitting a partial report on the Rezoning Study.

Respectfully,
JOHN B. HYNES, Mayor.

City Planning Board,
July 5, 1956.

Hon. John B. Hynes,
Mayor of Boston,

Dear Mr. Mayor:
In answer to your request for consideration and report on Councillor Piemonte's motion of June 11, 1956, suggesting that the Planning Board consider the advisability of submitting a partial report on the Rezoning Study, I am replying as follows:

At its meeting on June 26 the Board gave due consideration to the councillor's motion, and also to the Board's letter of June 5 explaining the status of the Rezoning Study. As stated in that letter, a preliminary or partial report on the Rezoning Study is in progress and as soon as it is ready a copy of it will be sent to him.

Very truly yours,
THOMAS F. McDONOUGH, Chairman.

Coun. AHEARN in the chair.

The message of the Mayor submitted June 11, 1956, and the foregoing message were referred to the Executive Committee.

HEAVY TRUCKS ON GALLIVAN BOULEVARD.

The following was received:

City of Boston,
Office of the Mayor, July 16, 1956.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of July 2, 1956, in regard to immediate steps being taken to alleviate the use of Gallivan Boulevard in Dorchester by heavy trucks.

Respectfully,
JOHN B. HYNES, Mayor.

Boston Traffic Commission,

July 11, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

With reference to the City Council order of July 2, 1956, requesting that the Traffic Commission take immediate steps to alleviate the use of Gallivan Boulevard in Dorchester by heavy trucks, I submit the following information:

All of the streets in the Neponset area and approaching streets are being subjected to unusually heavy truck traffic due to the major construction work which is taking place at Neponset Circle and in connection with the Southeast Expressway. This condition is likely to continue for a period of more than a year.

While it has been possible to detour heavy trucks from some residential streets, a numbered route or a main highway cannot be so designated because, obviously, such roadways were designed for and intended to accommodate vehicular traffic of all types. To bar heavy trucks from Gallivan Boulevard would mean that trucks in both directions would have to use residential streets.

In order to alleviate conditions on Gallivan Boulevard the contractors, the state, and M.D.C. engineers, and the people of the district have been most cooperative. Several conferences have been held with all parties represented and at the present time the best conditions which can be achieved are in being. The contractor is prosecuting the work as quickly as possible and, by putting up with inconvenience at the present time the job is being shortened so that the whole situation will clear up much more quickly. If impediments and obstacles are to be placed in the way of the construction work a long delay will result with continued disturbance to neighbors in the area.

Such conditions are faced wherever a major highway is being constructed and most persons have resigned themselves to the fact that temporary inconvenience is worth the ultimate benefit which will accrue. This work had to begin some time—it was long overdue, as a matter of fact—but at least it is already pretty well along and it is more likely that conditions will gradually improve rather than get worse.

I assure you that the city authorities have been diligent in attending to this matter of traffic in the area in question and at the moment there does not appear to be any specific regulation which may be enacted which will further improve the unpleasantness now being borne by residents of the Neponset and Gallivan Boulevard area.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.
Placed on file.

Severally referred to the Committee on Claims.

HEARING BEFORE METROPOLITAN DISTRICT COMMISSION.

Notice was received of hearing before the Metropolitan District Commission to be held on July 26, 1956, at 2 P.M., on petition of Boston Edison Company and New England Telephone & Telegraph Company for pole locations on land in control of Metropolitan District Commission, off Bernice street, Dorchester.

Placed on file.

APPROVAL OF STATE HOUSING BOARD.

Notice was received from the State Housing Board of approval of sale of excess land at Newacre road and Washington street, Hyde Park, under section 6 of chapter 372 of the Acts of 1946.

Referred to the Committee on Public Lands.

APPROVAL OF CONSTABLE'S BOND.

The constable's bond of James J. Concannon, having been duly approved by the Collector-Treasurer, was received and approved.

COMPENSATION FOR LAND TAKINGS BY COMMONWEALTH.

The following was received:

City of Boston,
Law Department, July 10, 1956.
To the Honorable the City Council.
Gentlemen:

On April 30, 1956, the City Clerk presented to you a notice he had received from the State Department of Public Works stating that by an order dated February 28, 1956, with entry made March 16, 1956, that department had taken in Parcel 6-D-9 shown on a certain plan an easement for the purpose of constructing, maintaining, and using drainage structures and in Parcels 5-TE-1, 5-TE-2, and 5-TE-4 shown on the same plan a temporary easement for the purpose of spreading fill in the process of effecting soil stabilizing.

zation and to construct drainage facilities. By an order passed by your Honorable Body on May 21, 1956, and transmitted to me by the office of the City Clerk on May 24, 1956, you requested that I seek adequate compensation for the taking of these easements in land belonging to the city.

Investigation has disclosed that these takings were made under St. 1954, c. 403, which expressly provides in section 6 that no damages shall be paid for public lands or parks, parkways or reservations. In my opinion, the term "public lands," as used in this statutory provision, means lands already appropriated to a public use. It follows that in my opinion no damages can be recovered for the taking of Parcel No. 5-TE-2, which at the time of the taking had already been appropriated to public school purposes, nor for Parcel No. 5-D-9 and Parcel No. 5-TE-4, which at such time had already been appropriated to public park purposes. However, chapter 693 of the Acts of 1955 provides that notwithstanding any provisions of law authorizing the taking by eminent domain or otherwise of certain public lands for highway improvements without the payment of damages therefor, the State Department of Public Works is authorized and directed to pay the city or town in possession thereof an amount to be mutually agreed on. Pursuant to your order, I have written the State Department of Public Works requesting a conference for the purpose of fixing at an early date the amount to be paid under the statute just mentioned.

Parcel No. 5-TE-1 was held by the city through tax title foreclosure and, in my opinion, cannot fairly be said to be land appropriated to a public use within the sense of that phrase as used in St. 1954, c. 403, s. 6. Damages for the taking of the aforesaid easement in Parcel No. 5-TE-1 have accordingly been sought in a petition for damages filed this day in the Superior Court.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

Referred to the Committee on Public Lands.

REPORT OF COMMITTEE ON ORDINANCES.

Coun. AHEARN, for the Committee on Ordinances, submitted the following:

Report on message of the Mayor and ordinance (referred May 21) further providing against the littering of streets—recommending the ordinance be rejected without prejudice.

The report was accepted, and the ordinance as submitted by the Mayor was rejected without prejudice.

TEMPORARY APPOINTMENT OF CECILIA WALKOWSKI.

Coun. McCORMACK offered the following:

Ordered, That effective July 11, 1956, Cecilia Walkowski be, and she hereby is, appointed in the service of the Clerk of Committees Department to the position of Temporary Stenographer-Clerk until the third Wednesday of August, 1956, at a salary of \$73 per week, to fill the vacancy caused by the resignation of Edward T. Kelley.

Passed under suspension of the rules.

RECESS.

On motion of Councillor Kerrigan, the Council voted at 2:43 P.M., to take a recess, subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President McCORMACK at 5:31 P.M.

EXECUTIVE COMMITTEE REPORT.

Coun. WHITE, for the Executive Committee, submitted the following:

1. Report on order (referred June 25) approving provisions on transfer of Sumner Tunnel to Massachusetts Port Authority for \$15,000,000—recommending no further action is necessary.

2. Report on order (referred June 25) concerning determination of value of Sumner Tunnel—recommending no further action is necessary.

The reports were accepted.

3. Report on message of the Mayor submitted June 11, 1956, and the message of the Mayor of today (referred today) concerning submission of partial report on Rezoning Study—recommending that both messages be placed on file. The report was accepted, and both messages of the Mayor were placed on file.

4. Report on message of the Mayor and order (referred July 9) for sale of surplus pigs by Penal Institutions Department—recommending that the order ought to pass.

The report was accepted, and the order was passed.

REPORT OF COMMITTEE ON APPROPRIATIONS AND FINANCE.

Coun. FOLEY, for the Committee on Appropriations and Finance, submitted the following:

Report on order (referred July 9) for loan of \$10,000,000 for off-street parking facilities—recommending passage of the order in the following new draft:

Ordered, That under the authority contained in chapter 450 of the Acts of 1955, the sum of five million dollars (\$5,000,000) be, and hereby is, appropriated, to be expended under the direction of the Real Property Board, for the establishment of off-street parking facilities, and that the Collector-Treasurer be authorized, with the approval of the Mayor, to issue from time to time, bonds or certificates of indebtedness of the city to said amount, said issues to be outside the limit of indebtedness of the city.

The report was accepted and the order in the new draft for loan of \$5,000,000 for off-street parking facilities was read once and passed, yeas 9.

The order was assigned for 14 days for final action.

OPPOSING CONSTRUCTION OF OFF-STREET PARKING FACILITY AT SCOLLAY SQUARE, PEMBERTON SQUARE, AND HOWARD STREET.

Coun. McLAUGHLIN offered the following:

Whereas, On March 28, 1955, the Boston City Council passed a resolution in connection with a \$5,000,000 loan order for off-street parking, said resolution recommending that none of those funds be used to acquire land and/or to construct a garage on a site known as Scollay square, and bounded by Scollay square, Pemberton square, and Howard street; and

Whereas, There has been passed on a first reading today by the Boston City Council a loan order in the amount of \$5,000,000 for the further construction of off-street parking facilities within the City of Boston; and

Whereas, There has been a recommendation for a garage in the Scollay Square-Court Street area; and

Whereas, The loan order just passed includes sufficient funds for the construction of an off-street parking facility in Court square, on the site of a present parking area; and

Whereas, There has been no justification given for an off-street parking garage on the site known as Scollay square, as bounded by Scollay square, Pemberton square, and Howard street; and

Whereas, In fact, the Planning Board in its most recent letter on this subject dated May 9, 1956, indicates but a need of a maximum of 150 car spaces in that area and indicates that no such facility should be built there at this time; now therefore be it

Resolved, That the Boston City Council reaffirms its position as expressed in the resolution of March 28, 1955, and recommends again that none of the funds to be borrowed under the loan order which just received its first reading, be used for acquisition or clearance of this site nor for the construction of an off-street parking garage thereon at this time; and be it further.

Resolved, That any objections to any other specific sites as set forth in the resolution dated March 28, 1955, are hereby withdrawn.

The resolution was adopted under suspension of the rules.

OPPOSITION TO SINGLE TRACK SYSTEM ON BOSTON & ALBANY RAILROAD. BETWEEN FRAMINGHAM, MASSACHUSETTS, AND SCHODACK JUNCTION, NEW YORK.

Coun. McCORMACK offered the following:

Whereas, The Boston & Albany Railroad have petitioned the Interstate Commerce Commission for the right to install traffic control system on one of the two main tracks, between Framingham, Mass., and Schodack Junction, New York, and discontinue the automatic block signal system on the second main track between these points, subsequently removing or converting the second track to a side track; and

Whereas, The installation of a single track system will seriously reduce the traffic capacity of this line which is so vital to the progress and prosperity of the Port of Boston; and

Whereas, The granting of this petition will seriously hamper any effort by the newly-formed Massachusetts Port Authority to in-

crease shipping from the Port of Boston, and will be in direct opposition to the recently enacted legislation designed to increase the amount of freight and passenger traffic coming into and going from the Commonwealth of Massachusetts and our principal port cities; and

Whereas, A single track system, particularly over this route with such mountainous territory between Chester and Pittsfield, Mass., with severe grades and sharp turns will greatly increase the accident potential due to human error; therefore be it

Resolved, That the Boston City Council go on record as opposed to the granting of the petition of the Boston & Albany Railroad for a single track system between Framingham and Schodack Junction, New York, and favor the continuance of the present system; and be it further

Resolved, That copies of this resolution be forwarded to the hearing officer of the Interstate Commerce Commission, the Interstate Commerce Commission in Washington, D. C., to the Massachusetts Port Authority, and the Boston & Albany Railroad.

The resolution was adopted under suspension of the rules.

BRINGING THE SITUATION IN POLAND BEFORE THE UNITED NATIONS, AND PROCLAIMING JULY 28, 1956, "POZNAN MEMORIAL DAY."

Coun. McCORMACK offered the following:

Whereas, After World War I the United States, recognizing the gratitude of the people of the United States to the patriotic Polish citizens who assisted in the attainment of American independence, and the long-continued friendship between the peoples of the two nations, strongly endorsed and vigorously sustained the independence of Poland; and

Whereas, During World War II the people of Poland fought steadfastly as allies of the United States; and

Whereas, After World War II, against the will and the continued effort of the people of the United States and in violation of the solemn agreement previously entered into by the Government of the Union of Soviet Socialist Republics, the Polish people were deprived of their right to elect a national government of their own choice and deprived of their independence as a nation; and

Whereas, The communist dictatorship which has been imposed on the people of Poland has ruthlessly trampled upon the rights and liberties of the Polish people and has subjected them to continue physical hardship and suffering; and

Whereas, The Boston City Council is deeply moved by the brutal action of the Soviet dictatorship in suppressing the spontaneous uprising at Poznan; and

Whereas, The cry for freedom and bread of the people of Poznan gave evidence to the people of the world of the ruthless exploitation of Polish labor and the suffering of the Polish people in striking contradiction of the recent claim of Soviet leaders that people behind the Iron Curtain enjoy liberty and plenty; and

Whereas, The Boston City Council feels the deepest sympathy for the loved ones of those who have given their lives in the struggle for liberty and views with the utmost anxiety and the deepest concern the reports of mass reprisals being inaugurated by the Communist authorities in order to reestablish the subjugation of the Polish people; therefore be it

Resolved, That his Honor the Mayor ask the President of the United States and the Secretary of State in view of its urgency, to give immediate consideration to the advisability of bringing the situation in Poland before the United Nations, and to take all possible diplomatic measures to prevent mass reprisal against the people of Poznan and elsewhere in Poland, and to implement the offer of food from the United States which has already been made; and be it further

Resolved, That it is the sense of the members of the Boston City Council that until the people of Poland and the other captive nations of the world have restored to them the full rights of freedom and self-government, which they have been deprived, the peace of the world will be threatened and the security of the United States endangered; and be it further

Resolved, That his Honor the Mayor proclaim Saturday, July 28, 1956, to be "Poznan Memorial Day."

The resolution was adopted under suspension of the rules.

THE NEXT MEETING.

On motion of Councillor McLaughlin, the Council voted that when it adjourned it should be to meet on Monday, July 30, 1956, at 2 P.M.

ORDINANCE RE LITTER ON STREETS.

Coun. AHEARN offered the following:
City of Boston.

In the Year Nineteen Hundred and Fifty-six.
An Ordinance Providing Further Against the
Littering of Streets.

Be it ordained by the City Council of Boston,
as follows:

Chapter 40 of the Revised Ordinances of
1947 is hereby amended by striking out section
39 and inserting in place thereof the following
six sections:

Section 39. No person in any public way,
public alley or other public place under the
charge of the commissioner of public works
shall, whether in or upon a vehicle or on foot,
deposit, drop or throw upon such way, alley
or place or any roadway or walk thereof, and
suffer to remain there, any filth, rubbish or
other substance unless it is deposited, dropped
or thrown into a receptacle provided for the
purpose by the public works department.

Section 39A. No driver of any vehicle upon
any public way, public alley or other public
place under the charge of the commissioner of
public works shall permit to drop or fall from
such vehicle onto such way, alley or place or
any roadway or walk thereof, and suffer to
remain there, any substance except in the main-
tenance or repair of such way, alley or place.

Section 39B. No person shall sweep, throw
or otherwise remove into any public way,
public alley or other public place under the
charge of the commissioner of public works,
or into any roadway or walk of any of them,
from any building or structure or from any
land not constituting a part of such way, alley
or place, any filth, rubbish or other substance
and suffer the same to remain there; provided,
that filth, rubbish or other substance which
by law or by arrangement is to be collected
and removed by the public works department
(whether through employees in its service or
through an independent contractor acting for
it) or by a person having a permit under
section fourteen of this chapter or section 31A
of chapter 111 of the General Laws, may,
after five o'clock in the afternoon of the day
preceding the scheduled time of such collec-
tion, be placed by the owner or occupant of
an estate upon the sidewalk of any such way
or alley abutting such estate in a covered metal
receptacle or, if no garbage or putrescible
matter or substance is included, in a securely
tied bundle or in a receptacle with its contents
so arranged that any light matter or substance
is not likely to be scattered or blown about.
No person placing a receptacle upon the side-
walk of any way or alley as aforesaid shall
suffer the same to remain upon such way or
alley or any roadway or walk thereof more
than twelve hours after such collection.

Section 39C. No person shall in any public
way, public alley or other public place under
the charge of the commissioner of public works
or upon any roadway or walk thereof rum-
mage in or through rubbish or refuse of any
kind or interfere with any bundle of rubbish
or refuse or any receptacle containing rubbish
or refuse.

Section 39D. No person shall deposit, drop
or throw any filth, rubbish or other substance
into a drum or other barrel with a diameter
of more than twenty inches or a height of
more than twenty-eight inches if by law or by
arrangement such filth, rubbish or other sub-
stance is to be collected therefrom by the
public works department (whether through
employees in its service or through an in-
dependent contractor acting for it) or by a
person having a permit under section fourteen
of this chapter or section 31A of chapter 111
of the General Laws.

Section 39E. No person shall deposit, drop
or throw into a drum or other barrel with a
diameter of twenty inches or less and a height
of twenty-eight inches or less any filth, rubbish
or other substance which by law or by arrange-
ment is to be collected therefrom by the public
works department (whether through employees
in its service or through an independent con-
tractor for it) or by a person having a permit
under section fourteen of this chapter or sec-
tion 31A of chapter 111 of the General Laws
if such drum or barrel will thereby be filled so
high that such filth, rubbish or other substance
or any part thereof is likely to drop or fall
from such receptacle while it is being moved
in the process of such collection.

Referred to the Committee on Ordinances.

Adjourned at 5.57 P.M., on motion of Coun-
cillor McLaughlin, to meet on Monday, July
30, 1956, at 2 P.M.

Note: All debate of City Council eliminated
from proceedings in accordance with Chapter
447, Acts of 1947.

ment of \$123.80.

PROCEEDINGS OF SCHOOL COMMITTEE.

Mar. 22, 1956.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 10 P. M., the Chairman presiding.

Present: Messrs. Carr, Hurley, Lee, McInerney, and McMorow.

SECRETARY PRO TEMPORE

In the absence of the Secretary, the Committee proceeded to the election of a Secretary pro tempore.

A roll call was ordered and the members as their names were called stated that they voted as follows:

For MARY L. O'BRIEN — Messrs. Carr, Hurley, Lee, McInerney and McMorow.

The Chairman declared Mary L. O'Brien elected Secretary pro tempore.

TRIBUTE TO FRED ALLEN

Mr. McMorow presented the following:

Americans of all walks of life were saddened by the sudden death of Fred Allen, whose career in the world of entertainment gained for him universal respect and admiration.

In the affections of Bostonians and members of the School Department, Mr. Allen held a special place, for he lived and worked in this city and attended our public schools. A graduate of the Boston High School of Commerce in the class of 1911, he was a faithful alumnus and a major contributor to the scholarship fund down through the years. In 1948, it is gratifying to recall that he was the recipient of the Downey Medal, awarded annually by the Alumni Association of the High School of Commerce to an outstanding alumnus.

In his steady advance to national prominence as a master comedian, Fred Allen drew on his youthful experiences here for many of his best beloved characterizations and dramatizations. His life was rich in friendship and in accomplishment; and his humor was the humor of a clean heart, a keen mind, and a kindly soul that looked out on the passing scene through eyes bright with understanding and affection for his fellowman. He will be truly missed and long remembered.

The foregoing statement was ordered spread upon the public records of this meeting as an expression of sympathy of this School Committee, and the Secretary was directed to send a copy to the bereaved family of the late Fred Allen.

APPROVAL OF APPOINTMENTS

The Chairman stated the question was on approving the appointments of teachers, as reported by the Superintendent at the meeting of Mar. 5, 1956, and laid over.

On roll call the appointments were approved by the following vote:

BOND ISSUE

The following communication was presented:

City of Boston
Department of School Buildings
26 Norman Street

February 24, 1956

Dr. Dennis C. Haley
Superintendent of Public Schools
15 Beacon Street,
Boston, Massachusetts

SUBJECT: Addition to Solomon Lewenberg School Addition—Gymnasium.

Dear Dr. Haley:

Under date of February 23, 1956, publicly opened proposals for the construction of the addition to the Solomon Lewenberg School building — Gymnasium, were recorded as follows:

Michael Racioppi	\$330,942.00
A. Piotti	342,995.00
M. Solimando	345,631.00
Mozzicato Const. Co.	352,256.00
John Bowen Co.	363,100.00

As can be seen, there is an overrun for construction costs of \$113,942.00, which in part can be accounted for by the fact that the architect was obliged to incorporate in the design two connecting corridors to the existing building rather than one as originally contemplated, provide two additional egresses from the gymnasium, and also incorporate approximately \$18,000.00 worth of alterations in the existing buildings to satisfy the requirements of the Department of Public Safety.

Other facilities added, and not originally contemplated, are an independent pneumatic water system, necessitated by the low pressure in City mains, a new boiler room, and a meeting room.

The proposal of \$330,942.00 construction cost does include the cost of the facilities above mentioned, and in addition contains the materials and installation costs for folding bleachers, metal lockers, and six backward fold basketball back boards, which normally would be considered as furnishings.

Under date of May 3, 1955, I wrote you recording the fact that revised drawings would, in my opinion, require an increase in appropriation for construction work of \$65,000.00, making a total of \$282,000.00, which did not cover all of the facilities

above mentioned, so it is reasonable to assume that the overrun is approximately \$48,942.00.

I have studied the drawings, basis of proposals, and find that there is very little, if any, way the design could be modified and still contain the desired facilities without materially affecting the design, particularly as it relates to the use of the gymnasium for neighborhood activities.

Consequently I suggest that you submit to the School Committee a request for an additional appropriation of \$120,000.00 to cover the increased cost of construction, architect's fees, contingencies, and the facilities as incorporated in the plans and specifications.

You no doubt realize that time is an essential factor concerning the award of contract due to the statutory limit of thirty days in which to accept the bid of the lowest responsible bidder.

Very truly yours,

(Signed) James H. Mooney

Miss Agnes E. Reynolds,
Secretary, Boston School
Committee,
15 Beacon Street,
Boston 8, Massachusetts

Dear Miss Reynolds:—

Under date of March 14, 1956, you forwarded the following order of amendment to the Board of Commissioners of School Buildings:—

ORDERED, That the order of November 23, 1954, allocating out of the 1954 bond issue the sum of \$250,000.00 for an addition to the Solomon Lewenberg School in the Edmund P. Tileston District, Mattapan, is hereby amended to read as follows:—

ORDERED, That out of the sum appropriated by the City Council of the City of Boston by order passed first on September 7, 1954, and again on September 27, 1954, and approved by the Mayor on September 28, 1954, to be expended for the purpose of acquiring land for, and constructing, public schoolhouses in the City of Boston, including originally equipping and furnishing such schoolhouses, the sum of \$370,000.00 be, and the same hereby is, allocated for plans, construction and furnishing of an addition to the Solomon Lewenberg School in the Edmund P. Tileston District, Mattapan, containing one gymnasium.

At a meeting of the Board of Commissioners of School Buildings held this date and at which meeting Chairman Joseph F. O'Connell, Jr., and Commissioner Matthew T. Connolly were present and voting, it was voted to report favorably on the above-

described proposed order of amendment, under the provisions of Section 7, of Chapter 351 of the Acts of 1929.

Very truly yours,
Board of Commissioners of
School Buildings:—
(Signed) Joseph F. O'Connell, Jr.
Chairman

Placed on file.

The following was offered:

ORDERED, That the order of November 23, 1954, allocating out of the 1954 bond issue the sum of \$250,000.00 for an addition to the Solomon Lewenberg School in the Edmund P. Tileston District, Mattapan, is hereby amended to read as follows:

ORDERED, That out of the sum appropriated by the City Council of the City of Boston by order passed first on September 7, 1954, and again on September 27, 1954, and approved by the Mayor on September 28, 1954, to be expended for the purpose of acquiring land for, and constructing, public schoolhouses in the City of Boston, including originally equipping and furnishing such schoolhouses, the sum of \$370,000.00 be, and the same hereby is, allocated for plans, construction and furnishing of an addition to the Solomon Lewenberg School in the Edmund P. ACCEPTANCE OF OFFICE

The following communication was presented:

Miss Agnes E. Reynolds

Secretary

Boston School Committee

Dear Miss Reynolds:

This is to acknowledge your letter of April 9, 1956 which informs me that the School Committee, at its meeting on Monday, April 2, 1956, on nomination of the Superintendent, unanimously re-elected me Assistant Superintendent of Schools for the term of six years beginning September 1, 1956.

I am pleased to accept this position. I wish to thank the Superintendent and the School Committee and to assure them that I shall strive to merit their approval by the manner in which I carry out my responsibilities as Assistant Superintendent.

Very sincerely yours,

(Signed) D. Leo Daley.

Assistant Superintendent

RETAIL SALES STILL GAINING

Retail sales in department stores of Greater Boston during May totaled 3 per cent more than a year ago, with increases of 2 per cent in the downtown stores and 6 per cent in the suburban stores. Springfield showed a sales gain of 13 per cent over May last year and the Springfield-Holyoke area 12 per cent. New Bedford sales were up 8 per cent; Worcester, 7 per cent; Cambridge, 6 per cent; Lowell, 4 per cent; Quincy, 3 per cent; and Lynn, 1 per cent, as reported by the Federal Reserve Bank.

44 PER CENT IN EIGHT YEARS

Electric lamp bulbs valued at \$43,352,000 were shipped in 1954 by Massachusetts manufacturers. It was the second largest producing state, having five establishments employing 2,414 persons and annual payrolls amounting to \$8,734,000. In the eight years, 1947-1954, the industry grew 44 per cent, measured by value added by manufacture, as reported by the Federal census of manufactures.

BIG GROWTH IN MOTELS

The 1954 census found 390 motels and tourist courts in Massachusetts with combined receipts for the year of \$4,430,000. This compared with 363 in 1948 with receipts of \$1,792,000. The 390 establishments employed 267 persons in addition to 389 proprietors of unincorporated businesses. There were 461 hotels in Massachusetts in 1954 with receipts of \$68,187,000, compared with 665 hotels in 1948 that received \$70,503,000.

AUTO SERVICE IMPORTANT

The importance of the automobile industry in Massachusetts is emphasized by the fact that in 1954 the Commonwealth had 1,151 auto repair shops which took in \$26,140,000, employed 1,504 persons besides 1,204 proprietors of unincorporated businesses and had annual payrolls for employees amounting to \$4,578,000, as reported by the Federal Census of Business.

READY-MIXED CONCRETE

Massachusetts ranks fourteenth among the states in sales of ready-mixed concrete. It is exceeded by states such as Texas, California, and Florida where concrete is used largely in residential building. In 1954 sales of ready-mixed concrete in the Commonwealth amounted to \$17,373,000 by 30 concerns employing 624 persons and having annual payrolls totaling \$2,884,000, as reported by the 1954 Census of Business.

BANK DEBITS UP

Bank checks paid in eleven leading Massachusetts centers during June totaled 7 per cent more than a year ago. Lowell showed the biggest gain above June, last year, an increase of 11 per cent. Boston was up 8 per cent; Holyoke and Pittsfield, each 7 per cent; Worcester, 5 per cent; New Bedford, 4 per cent; Brockton and Fall River, each 2 per cent; and Lawrence-Andover-Methuen area, 1 per cent. Lynn and Springfield showed practically no change from a year ago, as reported by the Federal Reserve Bank.

NEW BUYERS' GUIDE

A directory of products manufactured in Massachusetts by concerns employing eight or more people has just been published by the Massachusetts Department of Commerce and is being distributed as a public document at the State House. The price is 90 cents per copy. Copies may be obtained by hand at Public Documents, Room 116, or by mail, by sending a check or money order to the Secretary of the Commonwealth, State House, Boston. Cash must accompany each order for there is no facility for billing. The *Guide* is the most complete compilation ever made of Massachusetts manufactured products and gives the name, address and approximate size of each maker. It directs the attention of buyers to Massachusetts products and affords an impressive picture of the wide scope of the Commonwealth's industry.

STORY HOURS FOR CHILDREN

Story hours presented by the Boston Public Library, in cooperation with the Boston Park Department, will continue to be held on Thursdays, August 2, 9, 16, 23, and 30, at 11 A.M. Experienced storytellers from the staff of the library will be at "Playland," on the Boston Common, and at "Pleasure Island," in South Boston.

In the event of rain at 9 A.M., the story hour will be canceled.

SALE OF PIGS AT THE HOUSE OF CORRECTION, DEER ISLAND, BOSTON, MASS.

SOLICITATION OF BIDS TO PURCHASE PIGS AT DEER ISLAND, BOSTON, MASS.

Sealed bids for the sale of one hundred (100) surplus pigs, weight about one hundred and twenty-five (125) pounds each, will be received by the Penal Institutions Commissioner, Room 803, City Hall Annex, Boston, Mass., up to 10 A.M., August 13, 1956, and shall immediately thereafter be publicly opened and read aloud.

Said pigs were raised at Deer Island and may be seen there any day, except Sundays and holidays, between 8 A.M. and 4 P.M.

The conditions of sale of pigs will be as follows:

1. Bids are to be made on a basis of price per pound for the entire lot.
2. Weighing of pigs to be by a representative of the Sealer of Weights and Measures Department, City of Boston.
3. The delivery of the pigs will be made at the piggery at Deer Island.
4. Any attendant charges in connection with the sale are to be assumed by the successful bidder.
5. Terms of Sale: F.O.B. Deer Island. The sum of two hundred and fifty dollars (\$250), cash or certified check, made payable to the City of Boston, is to be deposited by each bidder together with his bid. The \$250 shall be considered as part payment for the pigs by the successful bidder. The balance, cash or certified check, made payable to the City of Boston, is to be paid on delivery of pigs after being weighed.
6. The bid deposits of all other bidders will be returned immediately following payment of balance of purchase price by the successful bidder. If the successful bidder does not pay the balance of the purchase price and remove the pigs from Deer Island not later than August 17, 1956, the bid deposit shall become the property of the City of Boston as liquidated damages. The next highest bidder will then be designated as the successful bidder by the Penal Institutions Commissioner.
7. The successful bidder will provide the transportation for the pigs from Deer Island and shall remove the pigs from Deer Island not later than 4 P.M., August 17, 1956.
8. The Commissioner reserves the right to accept or reject any and all bids.

EDWARD L. FRIEL,
(Aug. 4.) Penal Institutions Commissioner.

CITY OF BOSTON.

PARKS AND RECREATION DEPARTMENT.

INVITATION FOR PROPOSALS FOR REMOVAL OF DEAD OR DISEASED TREES IN THE CITY OF BOSTON, MASS.

The City of Boston acting by the Commissioner of Parks and Recreation, hereinafter referred to as the Commissioner, invites sealed proposals for removal of dead or diseased trees in the City of Boston, Mass.

Proposals will be received until 2 o'clock P.M., Tuesday, August 14, 1956, at the office of the Commissioner, first floor, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained at the Engineer's office, Parks and Recreation Department, 33 Beacon street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Commissioner, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of the proposals.

A bid deposit in the form of a certified check on a responsible bank or trust company, payable to the City of Boston, in the sum of \$2,000, shall be submitted with the copy of the proposal filed with the Commissioner. The bid deposit shall be in a separate envelope, plainly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the Engineer's office of the Parks and Recreation Department.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price, will be required of the successful general contractor.

The Commissioner reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

CITY OF BOSTON,
FRANK R. KELLEY,
Commissioner of Parks and Recreation.

BOSTON TRAFFIC COMMISSION.

PROPOSALS FOR FURNISHING AND INSTALLING UNDERGROUND CONDUIT AND CONCRETE BASES FOR TRAFFIC SIGNAL POSTS IN FOUR (4) INTERSECTIONS IN THE CITY OF BOSTON.

The City of Boston, acting by the Boston Traffic Commission, hereinafter referred to as the Commission, with offices at 112 Southampton street, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing and installing underground conduit and concrete bases for traffic signal posts in four (4) intersections of the City of Boston. A performance bond and also a payment bond, each of a surety company satisfactory to the Commission and each in the sum of 100 per cent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at 112 Southampton street. Each proposal should be filled out, signed, enclosed in an envelope, sealed, marked "Proposal for Furnishing and Installing Underground Conduit and Concrete Bases for Traffic Signal Posts in Four (4) Intersections in the City of Boston," one copy of which is to be left at 112 Southampton street, before 12 M. on Thursday, August 16, 1956, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the lump sum price of any item appears to the Commission to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without costs, upon application therefor at the office of the Boston Traffic Commission. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to accept any proposal or any part of a proposal should he deem it to be for the best interest of the city so to do.

CITY OF BOSTON,
WM. ARTHUR REILLY,
Chairman, Boston Traffic Commission.

PLANNING BOARD PROPOSES \$40-MILLION GOVERNMENT CENTER EXTENDING FROM STATE HOUSE TO FANEUIL HALL

Boston would have a new government center if plans of the Boston City Planning Board materialize. The Board this week submitted to Mayor Hynes its study with a suggested layout for a group of new government buildings extending from the State House to Faneuil Hall. The need and desirability of replacing not only antiquated City Hall, but also private structures which have long outlived their period of efficient service in the Pemberton-Dock Square area, is stressed. The government center proposal is particularly appropriate at this time in view of the fact that new federal, state, and city structures are all accepted as immediate needs.

The United States Senate Public Works Committee has already approved an expenditure of \$28 million for the construction on a lease-purchase basis of a new Federal Building in Boston, and a State Legislative Recess Commission has reported on the need of a State Office Building. Preliminary reports estimate that the Federal Building should provide close to 1,000,000 square feet of floor space, the State Building about 700,000, and City Hall about 300,000, which would involve a total construction cost of \$40 million.

The Planning Board proposal further foresees the eventual replacement of the old Court House by a new building which could include quarters for a new police station. A separate small building could be arranged adjacent to the Court House to replace the Suffolk County Jail. Efforts have been made in the Legislature during the past several years to move the present jail to Deer Island, while maintaining smaller quarters in the city for holdover court cases.

A previous Planning Board study, which approved several sites for a civic center, recommended the building of a City Hall at Scollay square, on the north side of Hanover street. The present plan, which includes Federal and State Buildings as well as a City Hall, would place the site on the south side of Hanover street, closer to the business district. This new government center site lies between the prospective West End Redevelopment Project and the North End

Waterfront Proposal, recently suggested by the Planning Board. The accomplishment of these projects could result in a belt of new building clear across the northern end of the downtown area from the Charles River to the Atlantic Avenue water front. (*See accompanying map.*)

A cardinal part of the proposal is the beginning of a scheme for simplifying the downtown street system and not only creating ample settings for new development, but eliminating much of the present hodgepodge. The 50-acre tract is now encumbered with a hopeless confusion of streets which occupy nearly one half of the total area. The street blocks are, in more cases than not, too small or irregular in form to serve as efficient sites for structures of contemporary design. A long-term circulation plan for the whole downtown area has been developed wherein changes in the one-way street pattern have been designed so as to create super-blocks for traffic purposes, and a few new streets would be added to create more direct traffic movement.

Two significant improvements in the redevelopment area would be the provision of a direct connection between Cambridge street and the Sumner Tunnel, and the extension of Portland street to Devonshire street via Adams square.

A prime feature of the suggested scheme is the proposal that the creation of a governmental center be taken as an opportunity to stimulate an extensive private redevelopment program as well in this marginal area as an extension of the present downtown office area. The trend is toward increased office operations. The Scollay-Dock Square area is ripe for a change. Present structures are, with few exceptions, antiquated and ill adapted to current uses; deterioration and neglect are characteristic; and the vacancy rate is the highest in the entire district.

The area's potential for redevelopment arises both from its still convenient accessibility to rapid transit and particularly its immediate proximity to the newly constructed Central Artery.

PLANNING BOARD REPORT

(Continued from page 1017.)

The government center is shown for illustrative purposes and not as a definite recommendation. In make-up, the center would include two State Office Buildings of 20 stories each; a City Hall as a 16-story slab arising above a 2-story, low-rise component. The 2-story component would be more suitable for council chambers and office space for departments dealing constantly with the public.

The Federal Building is shown as a structure in two sections, primarily to achieve a scale in keeping with that of other proposed buildings. An 8-story County Building and garage and parking locations are also shown. The Metropolitan District Commission Building on Somerset street would be incorporated in the scheme.

These government structures can form a unified development facing a new street that provides a clear view or vista from the Court House to Faneuil Hall.

Faneuil Hall, which has been the subject of study by the Federal Commission on Historic Sites in the Boston area, would be restored and refurbished as an attraction to visitors.

The proposed arrangement is consistent with density controls assigned to the area in the new preliminary zoning regulations prepared by the Board. Land valuation within the delineated problem area tends to be the lowest in the section designated for the government center. The assessed value of land and buildings for the government center area amounts to \$8 million. The average land assessment for this 13-acre tract is \$8.60 per square foot, whereas the adjacent Court Street area averages \$30 per square foot.

The administrative center and its related projections for private development offer not only the potential for a significant increase in physical plant for the business district, but an even more impressive addition to the tax base. A conservative estimate of potential tax base for this area would amount to an assessment of from \$50 to \$70 million versus a 1956 total of \$25 million. Location of the new government buildings as proposed would immediately remove some taxable property from the tax rolls. This temporary loss would, however, be more than made up by gains to come from new building which would be induced in the blocks designated for private development. If one or more of the government structures is constructed on a lease-purchase arrangement, the comparison would become even more favorable.

AUGUST 17 DEADLINE FOR PRIMARY REGISTRATION

Night registration in the 22 wards of the city, began on Monday, August 6, will continue up to the State Primary deadline on Friday night, August 17, according to Chairman David Lasker of the Boston Election Commission.

The first three days of registration in the current drive, August 6, 7, and 8, showed increased public interest as the week progressed. On August 6, there were 758 persons registered; 239 at City Hall and 519 at the special registration places in the 22 wards. On August 7, a total of 1,046 persons were registered; 230 in City Hall and 816 outside. On August 8, a total of 1,211 persons were registered; 325 in City Hall and 886 outside.

Registration booths are open in the special stations located throughout the city between 6 P.M. and 10 P.M. During the period registrations are accepted in the election offices, City Hall Annex, between the hours of 9 A.M. and 10 P.M. All ward registration places will be closed Saturdays and Sundays.

Applicants who are not police listed as of the past January 1, must register at City Hall. Persons who moved here from out of state must be residents for one year and persons who have moved here from a municipality within the state must be residents of Boston

for six months. Persons who will reach the age of 21 by voting day may register ahead of time.

No registrations will be accepted between August 18 and September 18.

BRICK BLOCK IN ROXBURY DEMOLISHED IN MAYOR'S ABANDONED HOUSE DRIVE

Work on the demolition of the 11 abandoned red-brick adjacent houses with a common front at 44-64 Cabot street, Roxbury, was started on Tuesday, in the first step of the Building Department to comply with directions given last week by Mayor John B. Hynes to rid the city of the more than 600 deserted houses that have become a menace to public safety and which are seriously impeding the development of the city-wide rehabilitation program.

The first of the 200 houses that are scheduled to be torn down as fast as the Building Department can process the work will be those of brick construction, they being more subject to collapse than the wooden structures. Meanwhile the Mayor, through his district rehabilitation committees, will endeavor to encourage the owners of the other abandoned houses and buildings to rehabilitate them and offer them for sale or rent.

The row of houses on Cabot street now being demolished are all more than 75 years old, having been built in the period when that area was one of the most desirable residential sections of the city. What prompted the Building Department to select them as "Project A" was the collapse last week of the two houses at numbers 56 and 58 which provided lateral support for the adjacent structures. Vandals are believed to have caused the cave-in by removing boards and other supports from the rear of the two houses.

City Has Lien on Land

Owners of abandoned dwellings who do not intend to rehabilitate them are again requested by the Mayor to tear them down. Through removing them themselves owners can probably save themselves money, as the city places a lien on the land for the cost of removal wherever it is obliged to raze such a property. Information concerning reliable contractors available for such work and approximate costs can be obtained at the office of the Building Department, City Hall Annex.

That more real estate investors have not interested themselves in buying abandoned houses, restoring them and either selling or rent-

ing them is puzzling to city officials familiar with the condition. Already several enterprising contractors have earned substantial profits through engaging in such restoration work. In cities such as New York, Philadelphia, Washington, Baltimore, and San Francisco, as well as in numerous southern cities, investors have made huge profits through such ventures.

One of the encouraging features about investment in abandoned houses is that practically all of them are located in the older and low assessment areas of the city where there is a constant demand for good housing and where sufficient rents can be obtained to justify such reclamation.

D ST. RECONSTRUCTION

South Boston

The Public Improvement Commission has ordered, and the Mayor has approved, the widening and construction of D street, South Boston district, at the southerly corner of Summer street.

The project is described as follows:

The highway named D street is hereby widened at the southerly corner of Summer street and ordered constructed.

For the making of the aforesaid improvement, an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Welby's Truck Terminals, Inc., bounded:

Southeasterly by the northwesterly line of D street as it existed prior to this order, fourteen and 47-100 feet; northeasterly by the southwesterly line of Summer street, fourteen and 47-100 feet; westerly by the westerly line of D street, as widened under this order, eighteen and 84-100 feet on a curve of thirteen and 17-100 feet radius; containing sixty-six square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land, shall be removed therefrom within thirty days following the city's recording of this order.

Said D street as hereby widened is bounded:

Southeasterly by the northwesterly line of D street as it existed prior to this order, fourteen and 47-100 feet; westerly by the westerly line of D street, as hereby widened, eighteen and 84-100 feet on a curve of thirteen and 17-100 feet radius; northeasterly by the southwesterly line of Summer street, fourteen and 47-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

ACTION ON DAMAGES

Voted, That this commission determines that the undermentioned persons sustain damages in their estate by the making of the public improvement consisting of the widening and construction of D street, South Boston district, at

the southerly corner of Summer street, under an order of this commission of August 1, 1956, in the amount herein-after set against it; and awards said amount therefor.

Welby's Truck Terminals, Inc., 66 square feet, \$1.

WELTON RD., PUBLIC WAY

West Roxbury

The Public Improvement Commission has ordered, and the Mayor has approved, the laying out and construction of Welton road, West Roxbury district, as a public highway, from La Grange street approximately 258 feet westerly.

The project is described as follows:

A highway named Welton road is hereby laid out from La Grange street approximately 258 feet westerly and ordered constructed.

Said highway and the land exclusive of trees, shrubs, or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by the southwesterly line of La Grange street, forty-one and 61-100 feet; northwesterly by the northwesterly line of Welton road, as hereby laid out, two hundred fifty-eight and 45-100 feet; southwesterly by the southwesterly line of Welton road as hereby laid out, forty and 00-100 feet; southeasterly by the southeasterly line of Welton road as hereby laid out, two hundred forty-six and 70-100 feet.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty days following the city's recording of this order.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Welton road will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan herebefore referred to and on file in the office of this commission.

Amendment of Award

On July 31 the Mayor approved the following:

DEAR MR. MAYOR:

On July 9, 1956, your Honor approved a permission to award certain items on Proposal 102 for park equipment, on which bids were publicly opened and read in this office on June 20, 1956.

The total of Item 7, which was awarded to R. G. Mearns Company, Inc., read \$10,740. It should have been \$5,370. Permission is therefore requested to amend the letter of award by making the total of Item 7 to read \$5,370, thus making the correct total award to R. G. Mearns Company, Inc., for Items 5 and 7 to be \$11,270, less 2 per cent discount, time of payment.

The original letter also stated that Items 2 and 4 would be awarded at a later date. Permission is now requested to award these two items to C. M. Sawtelle and E. R. Sawtelle, a partnership, doing business as Sawtelle Brothers, the only company who submitted an acceptable bid on these items. Total amount of contract will be \$5,503.20, less 2 per cent discount, time of payment.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

Hyde School Repairs

The Mayor, on July 31, approved the award of a contract for alterations and repairs at the Hyde School to M. Solimando, in the amount of \$34,476.

The other bids were:

D. Antonellis, Inc., \$38,735; Domenick Puleo, \$42,424.20; Michael Racioppi, \$45,750.

FIRE DEPARTMENT.

Oil Burners

On August 6 the Mayor approved the award of a contract for removal of coal stokers and installation of automatic oil burners at Engine Houses 5 and 11, East Boston, and removal of old oil burner and installation of new automatic oil burner at Engine House 37, Roxbury, to Arthur H. Curtis Company, in the amount of \$2,879.

The other bids were:

Seltzer & Co., Inc., \$3,588; J. W. Praught Company, \$4,280.

PARKS AND RECREATION DEPARTMENT.

Planting of Trees

On July 31 the Mayor approved the following:

DEAR SIR:

Under date of May 17, 1956, your Honor approved a contract with Blueview Nurseries, 32 Gaston street, Roxbury, in the amount of \$22,800, for furnishing and planting of trees on streets and parkways in Boston. This concern was the low bidder on an advertised contract for this work.

For a number of years we have been endeavoring to obtain proper trees to replace the hundreds that have been taken down in all sections of the city and we met with little success until we obtained the trees under the contract awarded on May 17. Under the terms of this contract the Blueview Nurseries agreed to furnish and plant Norway maple and European linden trees in sections of the city indicated by this department. The price approved under this contract included the furnishing of

trees at \$26 per tree; for each cubic yard of tree pit excavation, \$2; for each cubic yard of loam furnished and spread, \$3. The contract also called for the staking of each tree.

It is our desire to continue our tree planting program in the fall of this year. We have available \$13,000 for this work. For this amount we can plant approximately 400 trees. It is our intention to plant oak, linden, locust, and plain trees. The Blueview Nurseries has agreed to do this work under the same terms and conditions as in the contract mentioned above. In our opinion the prices in the May 17th contract were very fair and we doubt very much if we would be able to equal the price or obtain the proper trees for planting if we were to advertise again. For this reason we believe that nothing would be gained by publicly advertising for bids.

Accordingly, we respectfully request that we be allowed to award a contract, without publicly advertising for bids, to Blueview Nurseries, 32 Gaston street, Roxbury, for the furnishing and planting of approximately 400 trees, excavating, loaming, and staking, at the same unit prices mentioned above, for a total sum

Purchase Order.—W. H. Brine Company, \$864.37.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been granted for an extension of time for the completion of the contract with Rich Brothers Construction Company, Inc., for construction of the William E. Russell District School, Dorchester, from June 1, 1956, to September 1, 1956, because the work of one of the subcontractors was unavoidably delayed.

PUBLIC WORKS DEPARTMENT.

Approval has been granted for an extension of time for the completion of the contract with R. A. Buccella & Sons, Inc., for sewerage works in Business street and Barry street, Hyde Park, from July 21, 1956, to August 15, 1956, because of delay due to the relocation of water main and rainy weather.

Approval has been granted for an extension of time for the completion of the contract with P. V. Barone Corporation, 70 Glencoe street, Brighton, for bituminous concrete pavement in Ackley place, etc., streets, from July 31, 1956, to September 30, 1956, because of inclement weather.

CHANGE IN CONTRACT

Old Colony Construction Company of Quincy, in its contract for an off-street parking facility at Uphams Corner, has been instructed to make the following changes:

Permanently underpin the concrete platform abutting the southwest side of the site and extend the retaining walls at the westerly and northerly sides of the site, a total distance of 28 feet. Estimated cost is \$1,000.

CONTRACTS AWARDED WITHOUT ADVERTISING

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Photostat Apparatus

The Mayor, on August 2, approved the award of a contract, without advertising, for furnishing photostat photographic-copying apparatus to the Boston City Hospital. When the contract had been formally advertised, only one bid was deposited on time, that of Spaulding Moss Company, and it stated "No Bid." A bid from Photostat Corporation, manufacturer of the items requested, was received after the specified opening time. Prices submitted were as follows:

One photostat photographic copying apparatus, Model A, Junior, continuous, with E.K. lens and prism and horizontal type subject holder, \$3,975; one Powers HE-10 thermostatic water mixer with vertical dial thermometer, \$113; one magnetic valve assembly, \$55; plus total transportation charges, \$43.88—\$4,186.88, net.

Inasmuch as Photostat Corporation was the manufacturer of the equipment requested, authority was granted to dispense with further public advertising for prices and award a contract, without public advertisement, to this company for furnishing and delivering to the Boston City Hospital photostat photographic copying apparatus as listed in publicly advertised proposal No. 111, which was opened in this office on June 27, 1956.

Approximate total amount of contract was \$4,186.88, net.

Record Equipment

On August 2 the Mayor approved the following:

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Assessing Department for Recordak equipment. This equipment is distributed by the Recordak Corporation only. An informed written quotation has been submitted by this company as follows:

One only Recordak RF-1 microfilmer, \$2,150; one only Recordak ARF converter, \$100; one only Recordak PM reader, \$840; one only Recordak power-micron converter for reader, \$35.

Inasmuch as this equipment is available direct from the Recordak Corporation, it is my opinion that no advantage would be gained by publicly advertising for prices. Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Recordak Corporation for the above equipment.

Approximate total amount of contract will be \$3,125, net, thirty days.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

Loam

On August 2 the Mayor approved the following:

DEAR MR. MAYOR:

On October 26, 1955, your Honor approved a letter to award a contract for 2,000 cubic yards of loam at \$2.50 per cubic yard to Blueview Nursery, for de-

livery to the Parks and Recreation Department. Before the contract could be executed and delivery made, the Commonwealth of Massachusetts, by eminent domain, made a land taking of the property containing the loam offered for sale by Blueview Nursery.

The Parks and Recreation Department is still desirous of obtaining the loam. It has inspected many sources and has now approved of 2,000 cubic yards of loam which is available from Rossano Construction Company, Inc. The Commissioner of the Parks and Recreation Department has requested immediate delivery of the loam. Copy of his letter is attached. An informal written quotation of \$3 per cubic yard has been submitted by this company. This price is a reasonable price for the type of loam to be purchased.

In the past, the Purchasing Division has encountered many difficulties in obtaining suitable loam as a result of publicly advertised bids. On February 3, 1955, bids on loam were received from six bidders; none of the bids were acceptable, and hence all bids were rejected and readvertised. On April 1, 1955, bids were again opened, and five bids were received. Of these five bids only two companies bid on acceptable loam. The award went to the fourth lowest bidder at \$2.60 per cubic yard. This bidder was the low bidder meeting specifications. In view of the foregoing facts, it is my opinion that no advantage would be gained by publicly advertising for bids on loam at this time.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, for 2,000 cubic yards of loam at \$3 per cubic yard, to Rossano Construction Company, Inc., making the approximate total amount of the contract \$6,000, net.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

Signal Controllers

The Mayor, on August 2, approved the following:

DEAR MR. MAYOR:

This office is in receipt of a requisition for eight only Eagle Signal Corporation EF20 traffic signal controllers as per specifications at Boston Traffic Commission, to be furnished, mounted, and completely wired in standard BTC signal control boxes to be furnished by Boston Traffic Commission.

The only acceptable controllers which will fit the present equipment are those of the Eagle Signal Corporation which are sold exclusively in this area by R. W. LeBaron, Inc. It is my opinion that no advantage would be gained by public advertisement. R. W. LeBaron, Inc., has submitted a written quotation of \$732 each for these units.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to R. W. LeBaron, Inc., for eight Eagle Signal Corporation EF20 traffic signal controllers as per Boston Traffic Commission specifications for multiald traffic signal controllers, Group 5-3, dated June 15, 1955, with exceptions as required by Boston Traffic Commission.

Approximate total amount of contract will be \$5,856, net.

Respectfully yours,

EUGENE K. WELSH,
Acting Purchasing Agent.

WORK SUBSTITUTED

PUBLIC WORKS DEPARTMENT.

Pacella Brothers Corporation of Dedham has been directed to omit and substitute the following work under its contract for sewerage works in Stony Brook, Section 18, Hyde Park, dated August 31, 1955:

Omit jacking method and substitute tunnel method for installing about 55 linear feet of 72-inch concrete pipe under West street, as provided for under Item 1A of the contract, for the construction of Section 18 of Stony Brook, Hyde Park.

The tunnel shall be constructed of 3/16-inch thick steel liner plates having an outside diameter of 102 inches. The liner plates shall be left in place. The space between the outside of the 72-inch diameter pipe and the inside of the liner plates shall be filled with concrete.

The cost of the tunnel work, including the furnishing and laying of the 72-inch diameter concrete pipe and all incidental work, shall be the same as price bid under Item 1A of the contract, namely, \$200 per linear foot of 72-inch diameter concrete pipe complete in place.

EXTRA WORK UNDER CONTRACT

PUBLIC WORKS DEPARTMENT.

S. J. Tomasello Corporation of Boston has been directed to perform the following extra work under its contract for bituminous concrete pavement in Brucewood street, Laurie avenue, Pomona avenue, and Sparrow street, dated June 13, 1956:

In Brucewood street, haul 36.8 linear feet of surplus edgestone to Laurie avenue, at \$1 per linear foot.

In Laurie avenue, reset one existing stone bound, for the sum of \$15.

Estimated cost of extra work, \$51.80.

POLICE DEPARTMENT ORDERS.

August 1.

General Order No. 2,253.

Patrolman William C. Pinkham, Division 1, honorably discharged veteran, having arrived at the age of fifty-seven years, having been in service of Boston Police Department for twenty-nine years, and having requested retirement under provisions of section 57, chapter 32, General Laws (Ter. Edit.), as amended, it is hereby

Ordered, His Honor the Mayor having approved the same, Patrolman William C. Pinkham will be retired from active duty in the Police Department, effective as of Tuesday, July 31, 1956, at 5.45 o'clock P.M.

General Order No. 2,254.

August 3.

The resignation of Patrolman Joseph K. Kelley, Division 17, having been presented, it is hereby accepted, to take effect Sunday, August 5, 1956, at 7.45 o'clock A.M.

GLADSTONE ST. SEWER

East Boston

The Public Improvement Commission has ordered, and the Mayor has approved, that sewerage works be constructed along Gladstone street, East Boston.

The project is described as follows:

A parcel of land, owners unknown, being part of the private way known as Gladstone street, bounded:

Easterly by another portion of Gladstone street, forty and 05-100 feet; northerly by the northerly line of Gladstone street, one hundred fifty and 00-100 feet; westerly by another portion of Gladstone street, forty and 00-100 feet; southerly by the southerly line of Gladstone street, one hundred fifty-two and 05-100 feet; containing six thousand forty-one square feet, more or less.

The sewerage works to be constructed are as follows: 130 linear feet of 10-inch pipe sewer and 130 linear feet of 10-inch pipe surface drain, at an estimated cost of \$2,000.

Betterments are to be assessed for the making of the aforesaid improvements.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Gladstone street will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to.

Parcel.	Amount.
1. Salvatore and Emma Veneziano.....	Nothing
2. Anthony and Mary Vatalaro.....	\$650 00
3. Sons of Divine Providence.....	Nothing
4. Sons of Divine Providence.....	Nothing
5. Sons of Divine Providence.....	Nothing

ACTION ON DAMAGES

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the taking of an easement for sewerage purposes and the construction of sewerage works in Gladstone street, East Boston district, under the order of the commission of July 25, 1956, and awards no damages therefor.

Owners unknown (Gladstone street), 6,041 square feet, nothing.

Miss Agnes E. Reynolds,
Secretary, Boston School
Committee,
15 Beacon Street,
Boston, Massachusetts.

Dear Miss Reynolds:

You have requested the Board of Commissioners of School

Buildings to report on the following proposed order:

ORDERED, That the order of December 19, 1955, allocating out of the 1954 bond issue the sum of \$1,264,410.00 for an elementary school in the Dwight District, Roxbury, as amended by order of March 22, 1956, to read \$1,144,410.00, is hereby further amended to read as follows:

ORDERED, That out of the sum appropriated by the City Council of the City of Boston by order passed first on September 7, 1954, and again on September 7, 1954, and approved by the Mayor on September 28, 1954, to be expended for the purpose of acquiring land for, and constructing, public schoolhouses in the City of Boston, including originally equipping and furnishing such schoolhouses, the sum of \$1,069,410.00 be, and the same hereby is, allocated to pay in part for the acquiring of land by demolition, the taking of land, plans, construction and furnishing of an elementary school in the Dwight District, Roxbury, containing sixteen classrooms, two kindergartens, one manual training room, one sewing room, one assembly hall, and one playroom.

At a meeting of the Board of Commissioners of School Buildings held this date, it was voted to report favorably on the above described order, all as provided by Section 7, Chapter 351 of the acts of 1929.

Very truly yours,

Board of Commissioners of
School Buildings:
(Signed) Thomas A. Cronin
Acting Chairman

APPROPRIATION ORDERS LAND AND BUILDINGS

The following communication was presented:

CITY OF BOSTON
OFFICE OF THE MAYOR
CITY HALL

April 17, 1956

Miss Agnes E. Reynolds,
Secretary
Department of the School
Committee

15 Beacon Street
Boston 8, Massachusetts
Dear Miss Reynolds:

I am returning the enclosed appropriation order adopted under

date of April 2, 1956, by the School Committee and relating to appropriations for "land and buildings for schools." You will note that I have approved the first three items in this order and have disapproved the last two.

I feel that in view of the fact that a substantial portion of the \$10,000,000 loan authorization for new schools has yet to be encumbered, no additional appropriations for this purpose should be made this year.

Very truly yours,
(Signed) J. B. Hynes
Mayor

Placed on file.

The following are the appropriations for Land and Buildings referred to by the Mayor on the foregoing letter as not approved:

Item 4—For acquiring land for, and constructing, public schoolhouses, including originally equipping and furnishing such schoolhouses	\$157,000.00
Item 5—Reserve for such items of land, plans and construction of school buildings as are or may finally be approved	453,975.00
Total	\$ 610,975.00

The foregoing was ordered spread on the records.

Chairman: The question now comes: Shall the appropriation for Land and Buildings for Schools—Item 4—For acquiring land for, and constructing, public schoolhouses, including originally equipping and furnishing such schoolhouses, \$157,000.00—pass, notwithstanding the disapproval by His Honor, the Mayor?

The Secretary was directed to call the roll, and the members, as their names were called, respectively voted as follows:

Mr. Carr—No.
Mr. Hurley—No.
Mr. Lee—No.
Mr. McInerney—No.
Mr. McMorro—No.

Chairman: The question now comes: Shall the appropriation for Land and Building for Schools—Item 5—Reserve for such items of land, plans and construction of school buildings as are or may finally be approved, \$453,975.00—pass, notwithstanding the disapproval by His Honor, the Mayor?

The Secretary was directed to call the roll, and the members, as their names were called, respectively voted as follows:

Mr. Carr—No.
Mr. Hurley—No.
Mr. Lee—No.
Mr. McInerney—No.
Mr. McMorro—No.

The Chairman stated that the Mayor approved the order appropriating \$137,560.00 for Land and Buildings, which order reads as follows:

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 117 of the Acts of 1949, the following appropriations are hereby made to

meet the estimated cost of "construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards and the preparing of school yards for use, and for rent of hired school accommodations" for the fiscal year 1956:

LAND AND BUILDINGS	
Item 1—Administration Expenses, Salaries	\$ 75,000.00
Item 2—Rent of hired accommodations	12,560.00
Item 3—Dwight District, South End: Purchase of land adjacent to the Dwight School site, now occupied by the Home for Aged	50,000.00
Total	\$137,560.00

The above sum of \$137,560.00 appropriated for land and buildings is obtained from the amount available under the \$50 allowance.

On roll call the order passed by the following vote:

YEAS—Messrs. Carr, Hurley, Lee, McInerney, and McMorro—5.

ALTERATIONS AND REPAIRS

The following communication from His Honor, the Mayor, was presented:

City of Boston
Office of the Mayor
City Hall

April 17, 1956

Miss Agnes E. Reynolds,
Secretary,
Department of the School
Committee,
15 Beacon Street,
Boston 8, Mass.

Dear Miss Reynolds:

I am returning the enclosed appropriation order adopted under date of April 2, 1956, by School Committee, and relating to appropriations for "alteration and repair of school buildings." You will note that I have approved the first two items as voted, the third item in the amount of \$100,000 less than that voted, and the fourth item in an amount of \$492,419 less than that voted by the Committee.

In view of the major construction program now being handled within the School Buildings' Department, I feel that the amounts approved under Items C and E represent the maximum repair program which can be administered and supervised by the department.

Very truly yours,
(Signed) J. B. Hynes
Mayor.

Placed on file.

The following are the appropriations for Alterations and Repairs approved by the Mayor in the foregoing letter:

A. Administration Expenses:	
1. Salaries	\$ 300,000.00
2. Workmen's Compensation	600.00
3. Retired Veterans' Roll	12,000.00
B. Administration Expenses:	
Office Expenses and Other Items	40,000.00
C. Alterations, Furniture and Equipment for Special Educational Needs	100,000.00
E. General Alterations and Repairs	1,500,000.00
Total	\$1,952,600.00

The foregoing was ordered spread on the records.

Chairman: The question now comes: Shall the appropriation for Item C. Alterations, Furniture and Equipment for Special Educational Needs, \$200,000.00—pass, notwithstanding the disapproval of His Honor, the Mayor?

Chairman: Gentlemen, in urging that this appropriation be approved over the veto of the Mayor, it is a subject I can bring very agreeably to your attention.

It is a subject I don't care much about myself, and if I am roused enough to speak on it, at least there is something radically wrong.

As you know, I do not bother very much with the nature of buildings. I care more about the content of the program and what is taught. I have seldom gone out to a ground-breaking. I am not familiar with new school buildings which are going up; but I am convinced that we are leaving our children badly enough off by our constant disrepair of school buildings and failure to buy new equipment to a point where we are doing a real disservice, enough to alarm even me.

\$10,000,000 have been held back which this School Committee could have avoided in the last years according to a chart supplied by the Business Manager.

Now here at least is a situation where the case is clear. Here we know that if we vote to override the Mayor's veto, we are voting to help our children. No one who sustains his veto can say he is helping our children. The issue is drawn up with sharp distinctness in this matter before us.

Mr. McMorow: I think, Mr. Chairman, the matter is not quite as simply stated as you might have it. Certainly, Mr. Chairman, in voting for \$100,000 for special educational needs I think the members of your Committee are doing so, hopeful that they are doing something for the children of this City.

Somewhere along the line, Mr. Chairman, Bostonians must pay the freight, and the tax rate becomes of increasing importance as we discuss this very, very large budgetary item.

Chairman: Well, I can say again without the length of previous occasions that the citizenry are paying more for tobacco and liquor than they are for their entire school system, let alone this small item here. I can also say that if the Mayor wants to economize and lessen the tax burden he might exert himself against the \$15.00 we send to Washington through income taxes for every dollar we spend on our schools; and also, as we discussed at the meeting with the Mayor, there are still owners of homes who have been exempt for many years from carrying their fair

share of the load, which then falls on persons of more modest means who live in large tenement houses where the taxes are high, and not much space is available for the dollar because landlords are not interested in building more houses in order to bear such an undue share of the tax load. So there are plenty of sources of revenue and plenty of sources of money—liquor money, tobacco money, Federal Income Tax money, and home owners' money—for this item if the Mayor chooses to tap it.

Mr. McMorow: Mr. Chairman, these are discussions that we have had over and over again, and I think that each member of the School Committee must decide for himself what amount of money can be appropriated, taking into consideration the student, the parent, and the taxpayer.

Mr. McInerney: Mr. Chairman, I have some remarks to make, but I shall wait until we vote on the other item: and I shall make all my remarks at one time rather than be repetitive here this evening. I think we should proceed to a vote on this item.

Chairman: In conclusion, I will say that members of the School Committee can be shepherded along like lambs, divesting themselves of their own responsibilities because the Mayor has wished to withhold decent equipment and lighting and painting from our schools. On the other hand, we are the shepherds of the schools, and we should not act like sheep. We should act like those who protect young children placed in our care.

There is no reason on earth why we should not override this veto. It is our job. There are oodles of money being thrown around for every conceivable use, both in taxes and otherwise, by citizens of Boston. There are many ways by which taxes could be applied to the roots of our civilization, namely our schools, and there is absolutely no occasion in the world to do anything but stick to our duty and override this veto.

Mr. McMorow: The Chairman's choice of phrasing seems to me to leave a little bit to be desired because I am certain that no member of your Committee feels that he is acting sheepishly in attempting to do what he considers to be the best possible job for the children, the parents, and the taxpayers of this City.

I think, Mr. Chairman, it is somewhat unfair of you to cast reflections upon members of the Committee who are attempting to do as good a job as is possible under very difficult circumstances.

Chairman: I hope I said that any member who should go along with these vetoes would be somewhat as I described. Of course, I hope that no member will.

Mr. McMorow: Mr. Chairman, you were not referring to your-

self when you voted to sustain the veto on the last item?

Chairman: No, because there the children's interests are not injured. There the Mayor has very cooperatively gone along and introduced a loan for perhaps \$7,500,000 for the very purpose of building schools that occurred in the last order, so there is no sense of having the money in twice, and the children are not hurt.

Mr. McMorow: Well, Mr. Chairman, as you know, there is an item that I discussed at some length when we had our meeting with the Mayor, and the minutes of that meeting are public; and I think you will remember, Mr. Chairman, that at that time when we had this discussion I was satisfied that in reducing the sum from \$200,000 to \$100,000 it was a reduction that we would have to live with and one that we possibly could live with in consideration of all of the other expenditures that we are going to be making this year.

Chairman: Just so long as the members don't think the Mayor is as tax-poor as he may sound, why, then, no doubt the members have used wise judgment; but, as I pointed out, I think at several meetings, he can spend millions to destroy a section of the City like the West End and scatter its children abroad; and if he can spend millions to destroy the City, I am sure he can spend pennies to build the City up, and I hope that the Committee will vote Yes on this matter to pass it over the Mayor's veto.

Any further discussion?

Secretary: This is the reduction in Item C, \$100,000 from \$200,000.

The Secretary was directed to call the roll, and the members, as their names were called, respectively stated that they voted as follows:

Mr. Carr—No.
Mr. Hurley—No.
Mr. Lee—Yes.
Mr. McInerney—No.
Mr. McMorow—No.

Chairman: The question now comes: Shall the appropriation for Item E. General Alterations and Repairs, \$1,992,419.00—pass, notwithstanding the disapproval of His Honor, the Mayor?

Chairman: I know the Committee is going to vote favorably on this, and I can just say that all the arguments I have made in favor of the last item hold in favor of this, and I hope the sun will shine with clear radiance upon the minds of everybody present to the great benefit of our children.

The Secretary was directed to call the roll, and the members, as their names were called, respectively stated that they voted as follows:

Mr. Carr—No.
Mr. Hurley—No.
Mr. Lee—Yes.
Mr. McInerney—No.
Mr. McMorrow—No.

The Chairman stated that the Mayor approved the order appropriating \$1,952,600.00 for Alterations and Repairs, which order reads as follows:

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 117 of the Acts of 1949, the following appropriations are hereby made to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1956 based on the accompanying detailed estimates:

Alterations and Repairs

A. Administration Expenses:	
1. Salaries	\$ 300,000.00
2. Workmen's Compensation	600.00
3. Retired Veterans' Roll...	12,000.00
B. Administration Expenses:	
Office Expenses and Other Items	40,000.00
C. Alterations, Furniture and Equipment for Special Educational Needs	
	100,000.00
E. General Alterations and Repairs	
	1,500,000.00
Total	\$1,952,600.00

The above total of \$1,952,600.00 appropriated for "alteration and repair of school buildings," etc., is obtained from the amount available under the \$1.70 allowance.

On roll call the order passed by the following vote:

YEAS—Messrs. Carr, Hurley, Lee, McInerney, and McMorrow—5.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 30, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., Senior Member WHITE in the chair. Absent, Councillor McCormack.

The Reverend Fidelis Connolly, C.P., of St. Gabriel's Monastery, and the Reverend Father Brendan, Master of Novitiates, Dunkirk, were escorted to the rostrum.

INVOCATION BY REV. FIDELIS CONNOLLY.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Dear God, to whom You give much, from these You expect much. Give these men the humility to realize whatever gifts they have received are from You. Give them the prudence to exercise their talents with divine circumspection. Give them the wisdom to submerge private interests and ambitions for the good of the whole people. To whom You give much, You expect much. Richly You reward the talents used properly; severely will You punish their misdirection.

Dear God, today give these men those divine insights and that noble determination to work for Your greater glory and for the temporal and eternal well being of the people of Boston.

Hail Mary, full of grace, the Lord is with thee. Blessed art thou among women. Blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost, Amen.

The meeting was opened with the salute to the Flag.

DAY AND EVENING ACTIVITIES AT COMMON AND PUBLIC GARDEN.

The following was received:

City of Boston,
Office of the Mayor, July 25, 1956.
To the City Council.

Gentlemen:
I transmit herewith communication from the Commissioner of Parks and Recreation Department concerning your resolution of June 25, 1956, relative to setting up a program of day and evening recreational cultural and educational activities for the Common and the Public Garden.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
July 11, 1956.

Harold B. Flemming,
Chief Clerk, Mayors Office.

Dear Sir:

This will acknowledge the memo from the office of the Mayor dated July 2, 1956, with attached order of Councillor Piemonte of June 25, 1956.

This particular order concerned with recreational leisure and the cultural activities for the benefit of the public and teenagers on Boston Common and the Public Garden is more or less associated with the recent report on "Recreation Needs of Boston," issued by the Boston Municipal Research Bureau.

I have appointed a committee, consisting of Mr. Duncan W. Russell, of Community Services; Mr. Joseph McKenney, Physical Director of the Boston School Department; Mr. Frederick Cronin, Chairman of the Housing Authority; and Joseph Barresi, of the Municipal Research Bureau, to discuss and evaluate this recent report. I do not believe it is advisable for the Parks and Recreation Department to inaugurate another program until such time as we have the findings of this particular committee. Councillor Piemonte may be assured that the requests contained in his order will receive our earnest consideration.

Very truly yours,

FRANK R. KELLEY, Commissioner.

TRAFFIC SIGNALS AT FIDELIS WAY AND COMMONWEALTH AVENUE.

The following was received:

City of Boston,
Office of the Mayor, July 25, 1956.
To the City Council.

Gentlemen:
I transmit herewith communication from the Traffic Commissioner concerning your order of July 2, 1956, relative to making Fidelis Way, Brighton, a one-way street, and that they also install traffic lights at the intersection of Commonwealth avenue and Fidelis Way.

Respectfully,

J. B. HYNES, Mayor.

Boston Traffic Commission,

July 23, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

With reference to Council order dated July 2, 1956, for all the councillors, that the Traffic Commission investigate the advisability of making Fidelis Way, Brighton, Ward 21, a one-way street, and that they also install traffic lights at the intersection of Commonwealth avenue and Fidelis Way, I wish to report that Fidelis Way is a private way, over which we have no control; that the M.T.A. has installed a chain link fence opposite Fidelis Way on Commonwealth avenue to prevent people from crossing their right of way, therefore, the installation of signals would not be warranted.

Respectfully submitted,

WM. ARTHUR REILLY, Commissioner.

Placed on file.

TRANSFER OF LAND, 105 DORCHESTER AVENUE, TO PUBLIC WORKS DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, July 23, 1956.

To the City Council.

Gentlemen:

I transmit communication of Dr. John H. Cauley, Health Commissioner of the City of Boston, recommending the transfer of the Health Department property at 105 Dorchester avenue to the Public Works Department.

I enclose proposed form of order whereby this property may be transferred from the care, custody, control and management of the Health Department to the care, custody, control and management of the Commissioner of Public Works and recommend adoption of the same.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Health Department, July 16, 1956.

Hon. John B. Hynes,

Mayor of Boston,

and

City Council,

Boston, Mass.

Gentlemen:

The Health Department has in its custody a parcel of land comprising approximately five thousand five hundred ten (5,510) square feet, together with a brick building thereon, numbered 105 in the numbering of Dorchester avenue, South Boston. Said land, together with the building thereon, was formerly a convenience station, but is presently being used and occupied as a laboratory by the Public Works Department with the permission of the Health Department.

Inasmuch as the Health Department has no further use of said property for Health Department purposes, and inasmuch as the Public Works Department desires to continue its aforesaid use and occupation, it is requested that said land, together with the building thereon, be transferred to the Public Works Department.

Respectfully,

JOHN H. CAULEY,
Health Commissioner.

Whereas, The City of Boston is the owner in fee of approximately five thousand five hundred ten (5,510) square feet of land, together with the building thereon, situated on the westerly side of Dorchester avenue, being numbered 105 in the numbering of said Dorchester avenue in the South Boston district of the City of Boston, held by the city for Health Department purposes; and

Whereas, The Health Commissioner of the City of Boston has determined that the above-mentioned parcel of land, together with the building thereon, is no longer required for Health Department purposes; and

Whereas, The Commissioner of Public Works desires to use said property as a laboratory; now, therefore, it is hereby

Ordered, That the above-mentioned parcel of land, together with the building thereon, be, and the same hereby is, transferred from the care, custody, control and management of the Health Department to the care, custody, control and management of the Commissioner of Public Works.

Referred to the Committee on Public Lands.

TRANSFER OF LAND, 3085 WASHINGTON STREET, WEST ROXBURY, TO PUBLIC WORKS DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, July 23, 1956.

To the City Council.

Gentlemen:

I transmit herewith communication of Francis X. Cotter, Fire Commissioner, recommending the transfer of the Fire Department property at 3085 Washington street, Roxbury (formerly 3087 and 3089), to the Public Works Department.

I enclose proposed form of order whereby this property may be transferred from the care, custody, control, and management of the Fire Department

ment to the care, custody, control and management of the Commissioner of Public Works and recommend adoption of the same.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Fire Department, July 16, 1956.

Hon. John B. Hynes,

Mayor of Boston

and

City Council,

Boston, Mass.

Gentlemen:

The Fire Department has in its custody the abandoned fire station at 3085 Washington street, Roxbury (formerly 3087 and 3089 and formerly the headquarters of Engine Company 42 and Ladder Company 30). This property, comprising 3,848 square feet of land, together with the building thereon, has been used and occupied with the permission of the Fire Commissioner since October, 1953, as headquarters of one of the branches of the Sewer Division.

Inasmuch as the Fire Department has no further use of this property for Fire Department purposes and inasmuch as the Public Works Department desires to continue its aforesaid use and occupation, it is requested that the said land and building be transferred to the Public Works Department.

Respectfully,

FRANCIS X. COTTER,
Fire Commissioner.

Whereas, The City of Boston is the owner in fee of approximately three thousand eight hundred forty-eight (3,848) square feet of land, together with the building thereon, situated on the northwesterly side of Washington street, and being numbered 3085 (formerly 3087 and 3089 in the numbering of said Washington street) in the West Roxbury district of the City of Boston, held by the city for Fire Department purposes; and

Whereas, The Fire Commissioner of the City of Boston has determined that the above-mentioned parcel of land, together with the building thereon, is no longer required for Fire Department purposes; and

Whereas, The Commissioner of Public Works desires to use the said property as headquarters for one of the branches of the Sewer Division; now, therefore, it is hereby

Ordered, That the above-mentioned parcel of land, together with the building thereon, be, and the same hereby is, transferred from the care, custody, control and management of the Fire Department to the care, custody, control and management of the Commissioner of Public Works.

Referred to the Committee on Public Lands.

WASHINGTON ST. WIDENING

Roxbury

On July 26 the Mayor approved the following action of the Public Improvement Commission:

Voted, That this commission, having passed the order of notice relating to the public improvement, hereinafter described, and having caused a copy of said order to be published April 27, 28, 30, and May 1, 1956, in the *Boston American* and the *Boston Herald*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Washington street, Roxbury district, between Northampton street and Warren street, consisting of the reduction in width of existing sidewalks and the installation of traffic divisional islands, as shown on a plan marked "City of Boston, Washington Street, Roxbury, July 23, 1956, George G. Hyland, Commissioner of Public Works," and on file in the office of said department.

The Public Improvement Commission has ordered, and the Mayor has approved, the widening and construction of Washington street, Roxbury district, at the southwesterly corner of Arnold street.

The project is described as follows:

The highway named Washington street is hereby widened at the southwesterly corner of Arnold street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Louis Gateman, bounded:

Southeasterly by the northwesterly line of Washington street as it existed prior to this order, seventy-four and 44-100 feet; northwesterly by the northwesterly line of Washington street, as widened under this order, by three measurements, forty-one and 23-100 feet, twelve and 44-100 feet on a curve of fifty and 00-100 feet radius, and twenty-one and 25-100 feet; containing one hundred fifty-nine square feet more or less.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land, shall be removed therefrom within thirty days following the city's recording of this order.

Said Washington street as hereby widened is bounded:

Southeasterly by the northwesterly line of Washington street as it existed prior to this order, seventy-four and 44-100 feet; northwesterly by the northwesterly line of Washington street as hereby widened, by three measurements, forty-one and 23-100 feet, twelve and 44-100 feet on a curve of fifty and 00-100 feet radius, and twenty-one and 25-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

ACTION ON DAMAGES

Voted, That this commission determines that the undermentioned persons sustain damages in their estates by the making of the public improvement consisting of the widening and construction of Washington street, Roxbury district, at the southwesterly corner of Arnold street, under an order of this commission on July 25, 1956, in the amount herein-after set against it and awards said amount therefor.

NOTICE TO CONTRACTORS.

The Real Property Board, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for altering and reconstructing an off-street parking structure at Lincoln and Essex streets, Boston, Mass.

Proposals will be received until 12 o'clock noon, August 22, 1956, at the office of the Awarding Authority, eighth floor, Room 809, City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals must be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed and plainly marked with the description of the work to be done. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$10,000 shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals filed with the Awarding Authority shall be submitted in sealed envelopes, plainly marked with the title of the work, division of the work for which bid is submitted, subcontractor's name, and subcontractor's business address. All such bids shall be in the possession of the Awarding Authority and delivered or mailed to the general contractor no later than 12 o'clock noon, August 17, 1956.

A bid deposit in the form of cash or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the City of Boston, in the amount as specified in the following for the various subbid items of work as listed below, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority:

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 48

SATURDAY, AUGUST 18, 1956

No. 33

END OF 1957 WILL SEE PORT FACILITIES HERE COMPLETELY STREAMLINED TO MEET STIFF EAST COAST COMPETITION

Streamlining the Port of Boston is an enormous task now almost completed. By the end of next year most of the important facilities here will have been fully modernized and equipped to meet the keenest of competition from the other ports along the Atlantic seaboard. This program is all the result of a carefully conceived plan of development executed by the Port of Boston Commission.

The Army Base, largest single marine terminal in Boston Harbor, is now undergoing complete rehabilitation. Object, also, of a modernizing program is the forty-year-old Commonwealth Pier, still considered one of the better designed combination passenger and cargo terminals of the entire world. Castle Island, Boston's largest open-storage marine facility, is scheduled for a million-dollar "new look." Completed in 1954, East Boston Terminal Facility is regarded as one of the most up-to-date marine facilities on the whole east coast. Mystic Terminal, Charlestown, completed in 1952, provides four spacious deepwater berths. Hoosac Terminal, Charlestown, completed in 1951, incorporates 200,000 square feet of excellent, covered transit space.

Grain storage facilities, to a total of two million bushels, have been installed at the East Boston and Hoosac Terminals.

Increased activity in the port is already reflected in preliminary figures covering the fiscal year that ended June 30. Operating revenues are now in excess of 40 per cent over the prior fiscal year of 1955. Boston's port is now enjoying a boom year in grain exports. For the first six months of 1956, ending June 30, some 13 million bushels of grain cleared the Charlestown and East Boston Terminals for overseas. This total almost equals the entire grain shipments from Boston during 1955, which was 16.7 million bushels. The all-time record for grain exports from Boston was 1916, when 33,000,000 bushels were shipped.

Port experts assert that the Boston Army Base, by the end of 1957, will be one of the largest, finest, and most integrated shipping terminals in the world. The rehabilitation project there is a combined federal-

state operation at a cost of \$11 million, approximately \$10 million of which is a federal grant and \$1 million a state contribution. The Army Base includes more than one mile of wharf space and modern pier sheds providing voluminous covered space. Deep-water berths can accommodate up to nine large ships for simultaneous servicing. More than 860,000 square feet of covered cargo transit space is provided along with complete railroad and truck line facilities. The Army Base was Boston's principal marine facility in World War II and a major port of embarkation.

Castle Island Terminal has 4,000,000 square feet of open pier and 400,000 square feet of covered transit space. A quay-type pier with 4,110 feet of berthing space accommodates seven vessels and the terminal provides complete rail and truck services. A current improvement program now under way at Castle Island involves a cost of \$1.2 million for basic improvements.

Completed in 1954, East Boston Terminal Facility is recognized as equal to the best integrated marine facilities on the whole east coast. It is designed for the ultimate in efficiency and contains four piers, one with a 200,000-square foot enclosed shed adjacent to large open storage areas, two others with a total of four berths and combined 340,000 square feet of enclosed shed. A grain elevator and gallery with a million-bushel capacity occupies another pier, and there is also a wide, open pier. Complete rail and truck facilities serve the terminal.

Mystic Terminal, Charlestown, a 900-foot pier, completed in 1952, includes four deepwater berths and 246,000 square feet of enclosed shed. It is served by rail and truck lines.

Hoosac Terminal, Charlestown, a modern pier completed in 1951, incorporates 200,000 square feet of covered shed and has three deepwater ship berths. The modern grain elevator and gallery has storage capacity for 1,000,000 bushels and delivery capacity of 30,000 bushels per hour over a single belt. Completely serviced by railroad, Hoosac Terminal has the added advantage of easy approach by trucks from the new expressway.

NOTE: See Port of Boston Statistical Table on Page 1065.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

WORLD RELATIONS ON CITY-TO-CITY LEVEL

Mayor Hynes, on August 8, received the following communication from Mayor P. M. Busen, of Bonn, Germany:

MY DEAR MAYOR HYNES:

The visit paid by a group of American professors to the Bonn City Hall afforded me an opportunity to speak to Mr. Donald J. Hurley, the president of the Greater Boston Chamber of Commerce, who conveyed to me your message of greetings. I thank you kindly for these greetings and reciprocate them to you personally, but likewise also to the citizenry of Boston with equally kind feelings.

City-to-City Relationships

In the course of the conversation on the history and the tasks concerning the municipal policy of our city, I also mentioned the fact that the City of Bonn, within the aspirations toward an international co-operation and understanding maintains especially close ties, so-called, "brother-and-sister relationships" with cities of foreign countries. It is the purpose of these ties to serve the above-mentioned objective by an exchange of experiences in the fields of culture, education, administration, and municipal policy. The same objective is served by a visitors' exchange, in particular on the part of pupils, students, and members of other occupational groups, as well as of administration experts and city councillors. Such a tie exists between Bonn and the old English university city of Oxford. The establishment of like ties is about to be confirmed between the old Italian city of Florence and a French city; the latter most likely being Reims. It was pointed out to me by some American gentlemen that it might be desired to bring an American city into this circle, and the opinion was voiced that Boston, on the basis of its tradition, its sociological composition, as well as its outstanding cultural task, might be such a partner for Bonn and its "foreign brothers and sisters." I have been prompted to approach you with this suggested thought, dear Mr. Mayor, and Mr. Hurley offered to supplement it with the respective explanations when handing this letter to you.

Capital of West Germany

Naturally I do not know what you may think of such a tie. If, however, you should be of the opinion that also by way of these "brother-and-sister relationships" among municipalities the common objective of the American and the German people, to foster peace, understanding and friendship among nations, could be served, then the city of Bonn would naturally welcome it with great joy if such a tie with the outstanding city of Boston could be brought about.

I am enclosing with this letter several pieces of literature on our City of Bonn. Bonn is a very old city which goes back to a settlement founded by the Romans about 2,000 years ago. Its inhabitants are about 75 per cent Roman Catholics being essentially comprised of members of the middle class and officials. In spite of the fact that at the present time Bonn is performing the tasks of a capital city in place of Berlin, the city's character, nevertheless, is largely determined by its being a university and generally educational city. Aside from that, Bonn, where the famous musician Ludwig van Beethoven was born, is also a musical center of Germany. It must be admitted, however, that Bonn does not count much more than 140,000 inhabitants and, thus, is much smaller than Boston. Nevertheless, I am gladly complying with the suggestion made by my American guests to give you this report. It shall be a pleasure to me to have your opinion on this matter.

In the meantime I remain with kind regards to you and the citizens of Boston.

Very respectfully yours,

P. M. BUSEN.

Mayor Hynes' Reply

The following communication was sent to Germany by Mayor Hynes:

HON. P. M. BUSEN, The Oberbürgermeister of the City of Bonn, Bonn, Germany.

DEAR MAYOR:

Mr. Donald J. Hurley, the former president of the Greater Boston Chamber of Commerce, has transmitted to me your very kind letter in which you extend the

greetings of your old historical city to this old historical city of Boston.

Mr. Hurley has explained to me, in rather brief fashion, the cooperative relationships that your city of Bonn has with the city of Oxford in England, the city of Florence in Italy, and the city of Reims in France. These are old cultural cities, and I think the city of Boston is typical of these cities because of our own cultural standards and traditions.

I am quite interested in the manner in which the cities I have mentioned above cooperate with each other. I would appreciate it if you would let me know in as much detail as possible how the various programs are implemented and what preparations need be made for Boston to join the orbit of the cultural cities in your group.

Mayor Lauds Idea

Undoubtedly a better understanding between the cities in our world is needed, and the exchange of views between the peoples of these cities, will promote a better understanding, and lead to the goal of world peace which we all desire so much.

At your convenience will you kindly give me whatever information you might think of value if Boston is to be admitted into your circle of cities which are weaving ties of friendship which might well turn out to be the strong cables of world peace.

Respectfully,

J. B. HYNES, Mayor.

WEXFORD STREET DISCONTINUED

Brighton

The Public Improvement Commission, with the approval of the Mayor, has ordered the discontinuance of Wexford street, Brighton district, as a public highway, from Leo M. Birmingham Parkway approximately 930 feet westerly.

The project is described as follows:

The highway named Wexford street is hereby discontinued as a public highway, from Leo M. Birmingham Parkway approximately 950 feet westerly.

Said Wexford street as hereby discontinued is bounded:

Easterly by Leo M. Birmingham Parkway, forty feet; northerly by the northerly line of Wexford street, nine hundred fifty-eight and 29-100 feet; westerly by the westerly line of said Wexford street, forty feet; southerly by the southerly line of said Wexford street, nine hundred fifty-eight and 29-100 feet; containing thirty-eight thousand three hundred thirty-two square feet, more or less.

ZONE VARIANCE GRANTED FOR PROVINCE ST. GARAGE

The Board of Zoning Adjustment, on August 15, gave public notice of the following decision:

Notice is hereby given that an order has been filed today by the Board of Zoning Adjustment of the City of Boston in the office of the Building Commissioner of the City of Boston confirming the decision of the Board of Appeal on the appeal and petition of York Realty, Inc., by Archie Riskin (No. 406), to vary the terms of the Zoning Law, chapter 488, Acts of 1924 as amended, at premises 27-45 Province street, Ward 3, in the following respect (section 15): Permit building to exceed allowable buildable height; petition being made upon the refusal of the Building Commissioner to grant a permit to erect garage at premises aforesaid as same would be in violation of the aforesaid Zoning Law.

It is further certified that this action is taken in accordance with authority given said Board of Zoning Adjustment of the City of Boston by chapter 488 of the Acts of 1924 and amendments thereto, the Board being of the opinion that the relief granted does not derogate from the intent and purpose of the aforesaid Zoning Act.

A complete record of proceedings has been filed in the office of the Building Commissioner and is open for public inspection.

Any appeal from the above decision must be made to the Superior Court for the County of Suffolk within fifteen days from the date of this notice.

MARY T. DOWNEY,
Secretary.

The Boston Health Department has been allocated Salk antipolio vaccine for distribution free of charge to Boston physicians who agree to use the free vaccine, in accordance with the regulations of the Massachusetts Department of Public Health, only for persons from birth through age nineteen inclusive and for expectant mothers.

Fifty-two culture stations in the city have been furnished a limited amount of free vaccine which private physicians of Boston may obtain for their eligible patients. Similarly, clinics operating in the

City of Boston may obtain the free vaccine for the same special groups by making a request to the Boston Health Department, Haymarket square, Boston.

Although the vaccine is free, routine fees for administration are charged. Vaccine may now be purchased by private physicians through regular channels for individuals above age nineteen who wish antipolio inoculations but who are not eligible for the free vaccine made available with state funds.

The free vaccine has been made available for distribution to physicians through culture stations after Wednesday, August 15. In order to obtain the vaccine it is essential that the physicians comply with the regulations of the Boston Health Department.

A WEALTH OF INFORMATION

Comparatively few people realize the wealth of data and basic information available at the U. S. Department of Commerce Field Office in the Federal Building, Boston.

This Boston office is staffed with people who are considered by foreign trade specialists in New England to be experts in the field. The office maintains a file of some 8,000 trade lists wherein are contained names and addresses of foreign manufacturers, producers, processors, exporters, importers, wholesalers, distributors, sales agents, and service organizations grouped by country and by individual commodities, industries, and services.

The Washington office maintains about one million such trade lists. These can be made available to interested parties for a small fee.

By being listed with the Boston Field Office of the department as an individual or firm interested in foreign trade, it is possible to secure detailed business information on individual foreign firms. Such information for the most part indicates the type of organization, the method of operation, the lines handled, the size of the firm, the sales territory, the names of owner and officers, capital, sales volume, general reputation in trade and financial circles, and names of other United States firms which a particular foreign firm represents abroad. There is a minimum fee for such information.

EXTRA WORK UNDER CONTRACT

PUBLIC WORKS DEPARTMENT.

Manning Construction Company of Dedham has been directed to perform the following extra work under its contract for bituminous concrete pavement in Guest street, Ward 22, dated July 19, 1956:

In Guest street (Life street to approximately 1,060 feet easterly): Furnish and set about 200 linear feet of VA4 granite edgestone, in front of Clorox property, at \$3.50 per linear foot. Estimated cost, \$700. Remove about 60 square yards of existing reinforced concrete driveway, in front of Clorox property, at \$2 per square yard. Estimated cost, \$120. Furnish and lay about 540 square feet of concrete driveway, in front of Clorox property; concrete driveway to be laid in one course, 6 inches thick, at 65 cents per square foot. Estimated cost, \$351. Estimated cost of extra work, \$1,171.

Dooley Brothers, Inc., of Roxbury, has been directed to perform the following extra work under its contract for sheet asphalt pavement in Boylston street, Broadway, Harrison avenue, India street, Kneeland street, Massachusetts avenue, and Tremont street, dated July 20, 1956:

In Atlantic avenue, remove six concrete piers, found below existing sidewalk and in proposed roadway, for sum of \$48; in India street, furnish and lay one half cubic yard of reinforced concrete slab, over exposed areaway, for sum of \$35; estimated cost of extra work, \$83.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

The Mayor, on August 9, approved an extension of time for the completion of the contract with Builders Iron Works, 24 Dane street, Somerville, approved by the Mayor, August 10, 1955, for reconstruction of Charlestown Bridge, over the Charles River (excluding drawspan), from September 12, 1956, to March 12, 1957. This extension is requested because there has been difficulty in procuring certain materials, and because of inclement weather.

FIRE DEPARTMENT ORDERS

August 14.

General Order No. 45.

I. DISTRICT FIRE CHIEF JAMES F. McFADDEN.

It is with deep regret that the Fire Commissioner announces the death on July 31, 1956, of District Fire Chief James F. McFadden, District 8. Chief McFadden was appointed to the Fire Department April 27, 1917. He was promoted to the grade of fire lieutenant December 18, 1933; to fire captain, October 16, 1940; and to district fire chief, February 2, 1949.

The funeral was held from the John C. Mulry Funeral Home, 223 Neponset avenue, Dorchester, at 9 A.M., August 3, 1956, followed by a Solemn High Mass of Requiem at St. Gregory's Church, Dorchester avenue, at 10 A.M.

The acting chief of department made the customary detail to act as a funeral escort.

II. RETIREMENT.

The following retirement, in accordance with chapter 347, Acts of 1892, as amended by chapter 237, Acts of 1939, is hereby announced, to become effective at 8 A.M., Wednesday, August 15, 1956:

Fire Captain Howard M. Dolbeare, Engine Company 53.

Fire Captain Dolbeare was appointed to the department March 16, 1911. He was promoted to the grade of fire lieutenant May 31, 1929, and to fire captain October 16, 1940.

He leaves the department with the best wishes of his associates.

III. FIRE ALARM BOX INSTALLED.

The following fire alarm box which was established in General Orders, No. 15, dated March 13, 1956, has been installed and connected in circuit No. 25:

2589, Division of Youth Service, Reception and Detention Center, 450 Canterbury street.

Company commanders will add Box 2589 to Circuit Card 25.

IV. CHANGE IN DESIGNATION OF FIRE ALARM BOX.

Fire Alarm Box 13-3572 will have its designation changed to read as follows:

13-3572, Henry Jenkins Transportation Company, River street and Central avenue.

Company commanders will change the designation of Fire Alarm Box 13-3572 on assignment card for Box 3572 as noted above.

V. COMMENDATION.

Fire Fighter George A. Coughlin of Ladder Company 6 is hereby commended for rescuing an unconscious woman from a bedroom on the second floor of a dwelling house on Holmfield avenue, Mattapan, on August 4, 1956. Two alarms were sounded at 1.46 A.M. and 1.55 A.M., from Box 3711, for a fire that took place in this Holmfield avenue dwelling.

By order of Fire Commissioner FRANCIS X. COTTER.

EDWARD N. MONTGOMERY,
Chief of Department.

EXTRA WORK UNDER CONTRACT

PUBLIC WORKS DEPARTMENT.

P. V. Barone Corporation has been directed to perform the following extra work under its contract for bituminous concrete pavement in Ackley place, Alabama street, Emmonsdale road, Hackensack road, Itasca street, Savannah avenue, Walworth street, and Woodard road.

In Itasca street, deliver to city yard about 35 linear feet of radius VA4 edgestone (ordered but not used because of change in alignment) at cost of edgestone, \$3.80 per linear foot.

In Savannah avenue, deliver to city yard about 61 feet 10 inches of radius VA4 edgestone (ordered but not used because of change in alignment) at cost of edgestone, \$3.80 per linear foot, the hauling of above edgestone to be paid for under Item 5e of the original contract.

PUBLIC WORKS DEPARTMENT.

RECONSTRUCTION OF STREET AND SEWERAGE WORKS.

Proposals for Bituminous Concrete Pavement and Widening and Sewerage Works in Forest Hills Street, Wards 11 and 12, from Williams Street to Approximately 850 Feet Northerly, and Such Additional Locations, If Any, in Wards 11 and 12, As May Be Designated by the Commissioner of Public Works.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement, etc., in Forest Hills street, etc. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price, will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement, etc., in Forest Hills Street, etc.," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, SEPTEMBER 6, 1956, with a certified check for NINETEEN HUNDRED (1,900) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

TO PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR INTERIOR PAINTING OF PUPILS' LOCKERS AT THE GIRLS' LATIN SCHOOL, TALBOT AVENUE, DORCHESTER, MASS.

The City of Boston, acting by the Superintendent of Construction of the Department of School Buildings, Boston Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for interior painting of pupils' lockers at the Girls' Latin School, Talbot avenue, Dorchester, Mass.

Proposals will be received until 12 o'clock noon, Monday, August 27, 1956, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$200, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

MAYOR OUTLINES PLAN OF CAMPAIGN TO RID BOSTON OF ITS DILAPIDATED AND ABANDONED BUILDINGS

With the support and encouragement of the City Council, Mayor John B. Hynes moved swiftly this week toward a solution of the critical problems arising from the growing number of abandoned dwelling units in Boston, particularly in the older parts of the city.

The Council, on Monday, unanimously passed an order calling for the transfer of \$25,000 to finance the waging of a demolition program upon Boston's dilapidated and abandoned structures. Mayor Hynes thereupon announced the appointment of John A. Murray as Director of Demolition and Restoration of Abandoned Houses. Mr. Murray, a recognized authority on the legal aspects of housing, will receive a salary of \$150 a week to direct the program. The Mayor also appointed Peter Turchon, real estate man and housing expert, as unpaid chairman of his advisory committee on abandoned houses. The program will include a positive effort to rehabilitate property wherever possible.

Mayor Hynes announced he will make a further request of the City Council on Monday for a \$500,000 loan to start demolition work on a large scale. A total of \$2 million is necessary, the Mayor said, but federal assistance is expected.

The estimated number of dilapidated and hazardous structures throughout the city has been revised upward to the 2,000 figure and the constant decline of Boston properties into the rundown categories is officially described as "alarming."

Because of the limited number of experienced contractors who specialize in the removal of structures, it is estimated that it will take about two years to rid the city of all of those abandoned buildings which are regarded as potential hazards. However, the present aim of the Mayor is to have a minimum of ten removed each week. It is expected that the average cost per removal will be approximately \$1,000. In the current Building Department budget there is an item of \$40,000 for abandoned structure removal. Costs of razing and clearing the properties will be assessed against the owners. Many of the buildings, however, have long since been seized by the city for nonpayment of taxes.

The Mayor's demolition program is based on a report of a special committee of real estate experts and bank officials who made a study of the situation. This report, as submitted to the Mayor, read as follows:

DEAR MAYOR HYNES:

The committee appointed by you herewith reports its recommendations as to the steps necessary to

further activate and strengthen the work of your City of Boston Neighborhood Rehabilitation and Conservation Program in the demolition and removal of abandoned property.

1. Dwelling units in Boston are being abandoned at such an alarmingly rapid rate that immediate action should be taken by the city. Spot checks by the committee indicate that there are probably nearer 2,000 buildings, rather than 600 (453 vacant and abandoned—149 dilapidated but occupied) as scheduled in the city survey of May 18, 1956, which have deteriorated to such a point that they cannot be repaired.

2. The amount of abandonment is so great and so extensive that the problem of demolition and removal of these buildings must be met head on if the Neighborhood Rehabilitation Program is to continue. Preliminary consultation with representatives of the various city departments indicates that there is need for coordinating machinery to effect acquisition and removal of abandoned properties.

3. The primary requirement for an effective Rehabilitation Program is the prompt appointment of a full-time coordinator with adequate experience in this line of effort, to tie together the full force of the various city departments on this one problem—preferably designated as a "Director of Demolition and Restoration," assigned to the Mayor's personal staff, having full authority to use the departments which have statutory control over various phases of the problem, and assisted by an experienced attorney.

Such a coordinator should devote his time exclusively to the acquiring and razing of abandoned properties for the city. He should have the assistance of an over-all advisory committee for the counseling and support which they might bring to his work. Such a committee might well include an attorney, builder, real estate broker, social worker, banker, and a City Councilman.

A budget of \$15,000 might be adequate for the first year's operation.

Very truly yours,

ROBERT M. MORGAN,
WILLIAM F. KEESLER,
THOMAS J. GIBLIN,
WILLIAM B. CAROLAN,
HENRY H. PIERCE.

DEMOLITION CAMPAIGN

(Continued from page 1069)

Message to Council

In his message to the City Council requesting the transfer of \$25,000, in addition to the \$40,000 already allotted in the Building Department budget, for the purpose of carrying out the demolition program, Mayor Hynes stated as follows:

To the City Council.

GENTLEMEN:

The growing number of vacant, abandoned, dilapidated, and dangerous structures in the City of Boston is cause for deep concern—even alarm. It is estimated that there are up to 2,000 structures of this type within our city, a great number of which cannot, for one reason or another, be restored to use. Unless the city government moves with promptness and determination, these unsightly structures will, without doubt, be responsible for further decay and blight.

In order that effective action might be taken to stem the growth of decay and blight, and to remove or demolish structures which are beyond the stage of repair or renovation, I called together recently a group of bank officials to discuss this situation. From this group a committee of five was appointed by me to make a report and recommendations. The initial report of the committee has been made, and its recommendations are attached herewith.

Need of Coordination

After consulting with various departmental officials, the committee arrived at the conclusion that no real progress can be made in attacking this problem until there is a coordination in the efforts of the half-dozen or more city departments which are concerned, in one respect or another, in this matter. At the present time the weapons at the disposal of the city are dispersed in various directions, and the result is that our present efforts are slow, cumbersome, and too thinly dispersed to be fully effective.

It is obvious that when the Law Department, the Fire Department, the Police Department, the Building Department, the School Department, the Real Property Department, the Health Department, the Public Works Department, and

the City Planning Board are all involved in some aspect of urban blight, there is need of coordination in order that the authority of each of these departments may be exercised in harmony with the authority of all the departments. It is also obvious that the efforts of the fifteen local neighborhood rehabilitation committees can meet with little success when properties in the category referred to above are allowed to remain and to infect the whole neighborhood.

Appointment of Director

The committee recommends that a Director of Demolition and Restoration be appointed by the city, to work under the direction of the Mayor, and to bring cohesion to the divided efforts now being made by various departments in this problem of abandoned dilapidated structures. I concur in this recommendation and submit herewith to your Honorable Body an order for the transfer of \$25,000 from the Reserve Fund to an appropriation for Demolition or Restoration of Abandoned Properties.

I shall appoint a Director of Demolition and Restoration, as recommended by the committee. This individual will be an attorney well versed in this field. In a program involving hundreds of structures which must be demolished or renovated, it is essential that the Director of Demolition and Restoration be given full support of the city administration. It is my purpose to call together all of the department officials concerned in this matter, and instruct those officials to give complete cooperation to the director so that we may enlist our full forces in an effort which, to my mind, will have a great bearing on the future health of our city. No city can hope for substantial progress, or even hope to hold its own, if structural eyesores dot the city in increased profusion. It is expected that federal aid may be possible when the program of the city has been formulated and after initial steps indicating official recognition of the problem have been taken.

In order that the program of demolition and restoration may begin at once I most respectfully request the approval of your Honorable Body, at today's meeting, of the order herewith submitted.

Respectfully,

J. B. HYNES, Mayor.

Text of Order

The text of the order as submitted by the Mayor, and unanimously passed by the Council, is as follows:

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended, the City Auditor be, and hereby is, authorized to transfer from the appropriation for Reserve Fund, \$25,000, to the appropriation for Demolition or Restoration of Abandoned Properties.

The Law Department has advised the Mayor and City Council of a statute passed fifteen years ago which empowers the Health Commissioner to declare certain structures "unfit for human habitation" and make them subject to removal. It was further pointed out that the buildings so condemned were structurally sound, and immune from demolition as public menaces by order of the city's Fire or Building Departments after compliance with certain requirements.

Atty. Murray's Background

Attorney John A. Murray, whom Mayor Hynes has appointed as Director of Demolition and Restoration of Abandoned Structures, resides at 37 Pinckney street, Boston.

BOOST IN PERMIT FEES AGAIN URGED BY MAYOR IN MESSAGE TO COUNCIL

Mayor John B. Hynes, on August 20, resubmitted to the City Council a proposed ordinance calling for an upward revision of license and permit fees charged by the City of Boston and a new schedule of rates for special city services. The Mayor estimates that the proposed change will increase the city's annual revenue by at least \$300,000.

The new ordinance as submitted offers no change in the original proposal submitted by the Mayor on May 14. The effective date of the resubmitted ordinance is November 1, 1956.

Following is the Mayor's communication to the Council on the subject:

To the City Council.

GENTLEMEN:

On May 14, 1956, I submitted to your Honorable Body a new schedule of fees for most licenses and permits granted by the City of Boston. On July 9 your Honorable Body rejected this ordinance without prejudice.

I now resubmit the same ordinance and schedule of fees and service charges as that submitted on May 14. In my opinion, the present fees charged by the city are not reflective of the time and labor involved in the issuance of licenses and permits. It is estimated that the passage of the new schedule as proposed in the ordinance will increase the revenues of the city by approximately \$300,000 annually. Because of rising expenditures in almost every city and county department and in the School Department it is most necessary that the city obtain from whatever source possible additional income to meet higher costs of government.

Therefore, I must earnestly request your Honorable Body to give the new schedule of fees your approval and I recommend passage of the accompanying ordinance.

JOHN B. HYNES, Mayor.

PAYROLL AUTHORIZATION

Mayor Hynes has approved the request of the Fire Commissioner to have Assistant Fire Chief Leo C. Driscoll sign the payrolls of the Fire Department while Chief of Department Edward N. Montgomery is absent from duty, on injured leave, from August 15, 1956, to September 5, 1956.

ALL OF WW II, CITY-BUILT VET HOUSING UNITS SOLD

Mayor Hynes announced this week that the Boston Housing Authority has completed the sale of all the so-called Chapter 372 (veterans) houses in Boston. This means approximately \$400,000 is added to the city revenue through real estate taxes.

The properties sold include 504 single- and two-family houses, with 991 apartments in 11 locations, plus five multiple developments with 315 apartments. They were built with city funds approximately seven years ago for rental to veterans.

The selling of the houses started two years ago. Under the law the houses could not be kept by the Boston Housing Authority "after five years." Veterans had first preference to buy the homes they occupied. If they were not interested, other veterans got next choice. If no veterans were interested the house would be thrown on the open market.

Thomas E. Cimeno, chief of disposition, said that 99 per cent of the houses were bought by veterans and most of them were occupants. He said that only three houses have been re-sold and that a survey has shown that the veterans have proved to be good property owners by efficient maintenance.

The five multiple developments, which were built at a cost of \$4,290,583, were sold at the end of last year for \$1,434,801, and were added to this year's tax rolls.

The 504 single- and two-family houses, which were built at a cost of \$11,072,244, have been sold over the past two years at a total price of \$7,313,225. Over half of this property is on the tax rolls for the first time this year. Only 202 went on the books last year.

The Chapter 372 units are located as follows:

HAYWARD PLACE GARAGE ATTRACTS ONE BIDDER

Bids for a forty-year lease were opened at twelve o'clock noon August 23, 1956, by the Real Property Board, for the off-street parking facility at Hayward place and Harrison Avenue Extension in the heart of the retail shopping area of downtown Boston.

One proposal, in the amount of \$60,000 per annum, for forty years, was in the box. The bid was made by Code Realty, Inc., of 31 Milk street, Boston, and was accompanied by a cashier's check, as a bid deposit, in the amount of \$10,000.

Before August 30, the successful bidder must enter into a forty-year lease with the City of Boston, whereby he shall, at no expense to the city, construct a 700-car mechanical hoist parking structure, to be completed within one year of the execution of the lease.

The lessee must also pay to the City of Boston at the time of signing of the lease, one year's rent in advance, namely, \$60,000; the lease commencing on September 1, 1956.

The lessee must also reimburse the city in full for the cost of its architect.

The site leased consists of 22,834 square feet of land made available by the demolition of five buildings on Hayward place, Harrison Avenue Extension, and Washington street, Boston.

After the opening of bids for a forty-year lessee, the Board opened alternate bids for general contractors so that, in the event that the lessee's proposal did not constitute a legal bid, the Real Property Board would have awarded a construction contract to the lowest bidding general contractor, and the structure would have been built at the city's expense.

This will be the fifth off-street parking structure to be constructed under the auspices of the City of Boston.

Plans are being rapidly completed for a 700-car off-street parking structure to be installed at Fort Hill square.

At eleven o'clock A.M., August 23, 1956, the Real Property Board conducted public hearings for the proposed taking of 28,350 square feet of land, bounded by Kingston, Bedford, and Columbia streets, in the downtown area. The Board took this matter under advisement pending the receipt of briefs, at the request of counsel for the affected parties.

On Thursday, September 13, 1956, the Real Property Board will conduct public hearings prior to a proposed taking of land in the Faneuil Hall Market area.

Studies are being made for the creation of facilities for off-street

parking in the North Station area and in the lower end of Washington street.

CHELSEA SOUTH DRAW ABANDONED; TERMINAL ST. OPENED TO TRAFFIC

Public Works Commissioner George G. Hyland, on August 21, permanently closed the Chelsea South Drawbridge as a public highway. At the same time, the newly-constructed Terminal street was opened to vehicular traffic.

The permanent closing of the Chelsea South Drawbridge will effect a saving of approximately \$25,000 annually to the city, and will make it unnecessary to expend an estimated \$100,000 which would have been required to place this bridge in a safe condition, Commissioner Hyland said.

In addition, the new Terminal street will provide a more suitable approach to the new Mystic Pier. Heretofore Mystic Pier was approached over the old Chelsea Drawbridge and over a hazardous and inadequate ramp.

Terminal street extends from Medford street, Charlestown, across the Boston & Maine freight yard and services the new Mystic Pier of the Boston Port Authority. Terminal street also serves the Boston & Maine freight yards and the plant of the U. S. Gypsum Company, all of which were formerly served by Chelsea street, a public highway, and by the newly-discontinued Chelsea South Drawbridge.

CIVIL SERVICE EXAM

The State Civil Service Department will hold an examination for Motion Picture Operator, in the Boston Penal Institutions Department, on October 27. Last date for filing application is Monday, October 8, 1956. The salary is \$20.91 a day.

At present there is one vacancy for a male at the House of Correction, Deer Island, to be filled on a permanent part-time basis (Sundays and holidays).

Duties: Under general supervision, to operate and maintain motion picture machines and projectors; to secure films for showing at the House of Correction; and to perform related work as required.

Entrance Requirements: Applicants who have not reached their twenty-first birthday or who have passed their fiftieth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Veterans who had not reached the maximum age limit at the time of entering military or naval service will not be disqualified by reason of age, within five years after the date of honorable discharge. (Chapter 179, Acts of 1950.)

VETERANS' SERVICES DEPARTMENT.

Expenditures for veterans' benefits for May, 1956, show an increase of \$7,380.13 in comparison with expenditures for the corresponding period of 1955.

The 1,584 cases aided during the month of May, 1956, represented a total of 2,991 individuals benefited through the financial facilities of the Veterans' Services Department.

There were 112 cases closed during the month of May, 1956, because of obtaining employment, having been awarded unemployment compensation, receiving social security, and becoming ineligible to receive financial assistance for miscellaneous other reasons.

should be razed at once. In accordance with the provisions of chapter 479, Acts 1938, as amended, section 116 (d), your Honor's permission has been secured.

The department has received the following bids:

Duane Wrecking Company, \$3,000; Bay State Wrecking Company, \$3,500; Mystic Wrecking Company, \$3,950; Fellsway Wrecking Company, \$4,125; Central Wrecking Company, \$4,475; Polcari Wrecking Company, \$4,750; American Company, \$5,265; City Wrecking Company, \$5,500.

The public safety requiring immediate action, your Honor's permission is requested for awarding the contract to the lowest bidder, the John J. Duane Company, in the sum of \$3,000, without advertising, as required in the City Charter. The Duane Company is licensed for this work, carries public liability insurance, and is fully competent.

Very truly yours,

CHARLES A. CALLANAN,
Building Commissioner.

DEAR MR. MAYOR:

The church numbered 678 Shawmut avenue, Ward 9, has been examined by this department and has been found to be in an unsafe and dangerous condition. It is essential, therefore, for the public safety that the structure should be removed at once.

The owners of the property, the Twelfth Baptist Church, have informed this department, in a notarized statement made by the Chairman of the Board of Trustees, that the congregation is financially unable to do the work. It has become incumbent upon the city, therefore, under the provisions of chapter 479, Acts of 1938, as amended, section 116 (d), to enter the premises and to raze the building. As stipulated in the act, your Honor's approval for this action has been secured. We have secured bids as follows from licensed building wreckers:

American Building Wrecking Company, \$8,250; Central Building Wrecking Company, \$7,999; Hub Building Wrecking Company, \$7,450; Mystic Building Wrecking Company, \$6,400; Polcari Wrecking Company, \$3,750.

Since the number of firms engaged in this work is necessarily limited and the public safety requires immediate action, your Honor's permission is respectfully requested to award the contract to the Polcari Company, in the sum of \$3,750, without advertising, as required in the City Charter. This company is properly licensed, carries the necessary public liability insurance, and is competent to do the work.

Very truly yours,

CHARLES A. CALLANAN,
Building Commissioner.

PENAL INSTITUTIONS DEPARTMENT.

Emergency Boiler Repairs

The Mayor, on August 20, approved the award of a contract, without advertising, based on the following communication:

DEAR SIR:

Your Honor's approval is hereby requested to execute a contract, without public advertising for bids, with B. Feneno Company, 213 Camden street, Roxbury, Mass., for making emergency

repairs on boilers, No. 1 and No. 2, at the House of Correction, Deer Island, for an amount not to exceed \$1,630. These boilers are in poor condition and dangerous to operate.

The necessary repair work includes sledging all tubular ends as required, effectively sealing all breaks and distortions, repairing loosened rivets, re-rolling high pressure tube structures, and replacing those tubes which are distorted beyond repair.

In order to prevent an interruption of service caused by boiler tubes developing leakage while in service, this work should be done as quickly as possible.

B. Feneno Company is now working on boiler No. 3, at our institution, and is in a position to accomplish the proposed repairs to boilers No. 1 and No. 2, without delay.

Because this is emergency work and the price quoted by B. Feneno Company is reasonable, it is my opinion that no advantage would be gained by the city in publicly advertising for bids in this instance.

Very truly yours,

EDWARD L. FRIEL,
Penal Institutions Commissioner.

SCHOOL BUILDINGS DEPARTMENT.

Waterproofing

The Mayor, on August 20, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

In response to an advertisement in the *City Record* of June 16, 1956, the following list of bids was received and publicly opened and read aloud on July 12, 1956, for the erection and completion of an addition to the Boston Trade High School:

Peabody Construction Company, Inc., \$572,448.62; John A. Volpe Construction Company, Inc., \$597,247; Park Construction Company, Inc., \$598,000; M. S. Kelliher Company, \$614,713.62; D. Antonellis, Inc., \$633,273; Martin J. Kelly Company, Inc., \$649,000.

It will be necessary to substitute the subbid for caulking, dampproofing, and waterproofing, of Patrick Ross Company, in the amount of \$1,453, for that of the Western Waterproofing Company, Inc., in the amount of \$1,266.

Also it will be necessary to substitute the subbid for folding bleachers of the Berlin Chapman Company, in the amount of \$3,041, for that of the Naragansett Industries, Inc., in the amount of \$2,990. The latter subbids in both instances were carried in the proposal of Peabody Construction Company, Inc.

The substitutions are caused by the rejections of the former subbidders in each instance, due to their failure to comply with the terms of the published invitation relative to filing the subbid on the prescribed form.

At this time your authorization, without additional advertising, is respectfully requested to amend at a later date the principal contract to reflect an anticipated change in the subbid for finished hardware. Since no subbid was received for finished hardware and an allowance of \$7,000 was carried by Peabody Construction Company, Inc., for this work, it will be necessary informally to solicit bids on this work and amend the principal contract either up or down by the difference between \$7,000 and

the accepted price of the solicited subbids.

Meanwhile, I respectfully request your Honor's approval to my awarding a contract to the Peabody Construction Company, Inc., 27 Farragut road, South Boston, the lowest responsible and eligible bidder, in the amount of \$572,686.62.

Respectfully yours,

WILLIAM A. McPHERSON,
Acting Superintendent of Construction.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved the extension of the time of completion of the contract of N. Bevilacqua & Son, dated June 13, 1956, for the building of sewerage works in New Bedford street, Brush Hill terrace, and Chapel road, Hyde Park, from July 13, 1956, to August 13, 1956. This extension was granted because contractor was directed to do work under another sewerage works contract before the work was finished.

The Mayor also approved extension of the time of completion of the contract of N. Bevilacqua & Son, dated April 6, 1956, for the building of minor sewerage works in various streets in West Roxbury and Brighton, from July 16, 1956, to September 15, 1956, for the reason that the work cannot be completed until a decision has been made in regard to building two catch basins in Brighton.

EXTRA WORK UNDER CONTRACT

PUBLIC WORKS DEPARTMENT.

S. J. Tomasello Corporation has been directed to perform the following extra work under its contract for bituminous concrete pavement in Brockton street, Brownson terrace, Granada park, Hampstead lane, Harrow street, Langford park, New England avenue, and Rocky Nook terrace, dated June 28, 1956:

In Granada park, Ward 11, remove two abandoned gas lamps. This work will include cutting lateral at the main, backfill and all incidental work. Price to be paid, \$25 each, to a total cost of \$50.

BOSTON BUILDING BOOM

Although Boston is generally regarded in real estate circles as having reached the saturation point so far as the building of new one- and two-family dwelling units are concerned, we more than held our own during the month of July this year among the other municipalities of the Commonwealth.

The number of new dwelling units constructed in Massachusetts during July was 10 per cent under the figure of a year ago. Places reporting more than 25 new dwellings were ranked as follows: South Hadley, 65; Springfield, 62; Brookline, 54, and Boston, 53, followed by Worcester, with 48; Waltham, 47; Ludlow, 37; Lowell, 33; Chicopee, 32; Holyoke, 30; Reading, 29; Needham, 27, and Burlington, 26. All the new home building in July was by private enterprise, both this year and last.

In Boston there is a healthy building boom in one-family house construction, especially in the Hyde Park, Mattapan, West Roxbury, and Roslindale areas.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 6, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCORMACK in the chair, and all the members present.

The Reverend Jerome Does, C.P., of St. Gabriel's Monastery, was escorted to the rostrum.

INVOCATION BY REV. JEROME DOES.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

O incomprehensible Creator, true fountain of light and only author of all knowledge, we are come before Thee, hindered indeed by our many and grievous sins, but especially gathered together in Thy name. Vouchsafe, we beseech Thee, to enlighten our understanding and to remove from us all darkness of sin and ignorance. Come unto us and be with us; vouchsafe to enter our hearts; teach us what we are to do and whither we ought to tend; show us what we must accomplish, in order with Thy help, we may be able to please Thee in all things. Be Thou alone the author and finisher of our judgments.

Suffer us not to disturb the order of justice, Thou who lovest equity above all things; let not ignorance draw us into devious paths; nor partiality sway our minds, neither let respect of riches or persons pervert our judgment; but unite us to Thee effectually by the gift of Thine only grace, that we may be one in Thee and may never forsake the truth; inasmuch as we are gathered together in Thy name, so may we in all things hold fast to justice tempered by pity, that in this life our judgment may in no wise be at variance with Thee and in the life to come we may attain to everlasting rewards for deeds well done. Amen.

Hail Mary, full of grace, the Lord is with thee. Blessed art thou among women. Blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Constable, with authority to serve civil process upon filing of bond, for the term ending April 30, 1957: Arthur A. Guarino, 26 Everton street, Dorchester.

Referred to the Committee on Confirmations.

FEDERAL FUNDS FOR CIVIL DEFENSE.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1956.
To the City Council.

Gentlemen:
I transmit herewith communication from the Director of Civil Defense in regard to your resolution of July 2, 1956, relative to the allocation of federal funds for civil defense, proportionately according to target areas' population.

Respectfully,
J. B. HYNES, MAYOR.

City of Boston,
Civil Defense, July 19, 1956.

Mr. Harold B. Flemming,
Mayor's Office.

Dear Mr. Flemming:

A recommendation similar to that included in Councillor McCormack's order of July 2, 1956, that "... Federal Funds for Civil Defense ... be allocated proportionately according to target areas' population ..." was made at the first national conference on civil defense held in Washington several years ago. Since that time the principle contained therein has been utilized in the distribution and allocation of federal funds to the several states.

However, because funds appropriated at the national level for civil defense have been very limited, the only financial aid received to date by target cities has been in the form of matching funds for the purpose of purchasing essential civil defense equipment.

I have no doubt that legislation favorable to the recommendations made for survival planning before the Senate's Subcommittee on

Government Operations will be passed in the near future if the volumes of testimony submitted to the committee is any indication of the increased interest in civil defense at the national level.

Very truly yours,
JOSEPH L. MALONE, Director.
Placed on file.

TRANSFER CERTAIN PORTIONS OF DOCK, FANEUIL HALL, AND POST OFFICE SQUARES.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1956.
To the City Council.

Gentlemen:

The island in the center of Post Office square is in the process of improvements which will beautify the square, channelize traffic, and unquestionably enhance property values in adjacent buildings. This work is being done under the supervision of the Commissioner of Public Works. It is the opinion of the Commissioner of Public Works, concurred in by the Chairman of the Parks and Recreation Commission, that the jurisdiction of this island be transferred to the Parks and Recreation Department for care and maintenance. An ordinance accomplishing this transfer is herewith submitted and I respectfully recommend its adoption.

It is also proposed by the Commissioner of Public Works that the present grass area located around the Samuel Adams statue in Dock square be transferred to the jurisdiction of the Parks and Recreation Commission for care and maintenance. The Chairman of the Parks and Recreation Department is agreeable to this transfer. I therefore respectfully recommend to your Honorable Body that the attached ordinance be adopted to accomplish this purpose.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 27, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

In accordance with an agreement that was reached at your office several months ago, arrangements are being made for the installation of an attractive island in the center of Post Office square which will improve the appearance of the square, enhance the property values of the adjacent buildings, and channelize traffic. The improvement will consist of the setting of granite edgestones, construction of appropriate walks, installation of benches, seeding and loaming of the area, the planting of flowering shrubs, bushes, etc. It is my understanding that said area will also serve as a memorial to George T. Angell, founder of the M.S.P.C.A., and the present monument to his memory will be located within the island area.

A contract was recently completed under the jurisdiction of this department for the installation of the granite edgestones, which now enclose the island area. While the edgestone work was done by this department, it was agreed at the above-referenced conference that all the beautification work and the subsequent maintenance of the area would be under the jurisdiction of the Parks and Recreation Commission.

Therefore I respectfully submit herewith, for transmittal to the City Council, a proposed ordinance which was prepared by the Law Department and which provides for the transfer to the Parks and Recreation Commission of the care and maintenance of the area in question. After the transfer has been approved by the Council, arrangements will be made by the Parks and Recreation Commission to complete the improvement.

In connection with the general subject matter of the maintenance of such reservations, I have discussed with Commissioner Frank Kelley the advisability of transferring to his department the care and maintenance of the present grass area which is located around the Samuel Adams statue in Dock square. Frankly, this particular area is generally in a rather unsightly condition, as this department has taken no steps to beautify it other than to cut the grass. The maintenance of areas of this kind, in my opinion, should be placed under the jurisdiction of the Parks and Recreation Commission, as said commission is better equipped than the Public Works Department to keep them in an attractive condition. Commissioner Kelley has agreed to accept the transfer of the latter-referenced area to his department. We have therefore included in the above-referenced proposed ordinance the transfer to the Parks and Recreation Commission, of the care and main-

tenance of the reservation surrounding the Samuel Adams statue in Dock square.

I enclose plans showing both areas referred to.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

City of Boston,

In the Year Nineteen Hundred and Fifty-six
An Ordinance Vesting in the Parks and Recreation Commission Powers and Duties Relative to the Maintenance of Certain Portions of Dock, Faneuil Hall, and Post Office Squares.

Be it ordained by the City Council of Boston, as follows:

Until otherwise provided, the Parks and Recreation Commission shall improve, maintain, keep in repair, govern and regulate the portion of Post Office square shown as "Proposed Island" on Street Laying-Out Department plan No. L-8503A, entitled "City of Boston, Post Office Square, Boston Proper, March 19, 1954, James W. Haley, Chief Engineer, Street Laying-Out Department," and now in the custody of the Commissioner of Public Works, and also the portions of Dock and Faneuil Hall squares lying within the circle with radius of fifteen feet and area of about seven hundred and seven square feet shown on Public Works Department Survey Division Plan No. L-8626, entitled "City of Boston, Dock Square, Boston Proper, June 20, 1955, George G. Hyland, Commissioner of Public Works," and now in the custody of the Commissioner of Public Works; and the powers and duties of the Commissioner of Public Works with respect to improving, maintaining, keeping in repair, governing and regulating said portion of Post Office square and the aforesaid portions of Dock and Faneuil Hall squares are hereby transferred to the Parks and Recreation Commission.

Referred to the Committee on Ordinances.

RELEASE OF RESTRICTIONS ON LAND AT DOVER AND ALBANY STREETS.

The following was received:

City of Boston,
Office of the Mayor, July 23, 1956.
To the Honorable City Council.

Gentlemen:

I transmit herewith communication received from Charles A. Callanan, Building Commissioner, relative to the release of certain conditions and restrictions contained in a deed given by the City of Boston to Henry R. Plimpton, dated September 11, 1875, and recorded with the Suffolk Registry of Deeds, Book 1287, page 169, and containing approximately 14,344 square feet of land situated on the southwesterly junction of Dover and Albany streets.

The release of these restrictions will enable the Socony Mobil Oil Company, Inc., which obtained title to these premises on July 13, 1956, by deed recorded with the Suffolk County Registry of Deeds, Instrument No. 46, to go forward with its plans to modernize the premises.

I submit herewith an order which would permit the releasing of the conditions and restrictions and recommend its adoption by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Building Department, July 26, 1956.
Hon. John B. Hynes,
Mayor of Boston,

and
Honorable City Council,

City Hall.

Gentlemen:

This is a petition for relief from certain restrictions that the City of Boston imposed about 75 years ago on land that the Socony Mobil Oil Company, Inc., now owns on the southwesterly junction of Dover and Albany streets, Boston.

The area of the said land is about 14,344 square feet and has a frontage of 120 feet on Albany street and 119.54 feet on Dover street, and is shown on plan entitled, "Plan Showing Land in Boston, Massachusetts, and Surveyed for Standard Oil Company of New York," by A. C. Peters Company, Inc., Civil Engineers, dated July 16, 1930, recorded with Suffolk Deeds, Book 5223, page 551. The Socony Mobil Oil Company, Inc., took title to the land on July 13, 1956, by instrument No. 46, recorded with Suffolk Registry of Deeds.

Originally, the land was owned by the City of Boston, having been reclaimed by the city from the flats. The City of Boston sold the premises to one Henry R. Plimpton on September 11, 1875, by deed recorded with Suffolk

Registry of Deeds, Book 1287, page 169. The said deed recited that the land was subject to certain conditions, which conditions have been interpreted as restrictions, one of which was the following:

"2. No cellar, basement room, or other apartment in any building erected on said land shall be sunk more than three feet below the level of the present coping of the Dry Dock in Charlestown, such level to be determined from time to time by the City Engineer, or other officer duly appointed for that purpose by the City Council."

By another instrument dated December 14, 1881, and recorded with Suffolk Registry of Deeds, Book 1546, page 309, the City of Boston made a declaration relative to said premises as follows:

"That the City of Boston doth hereby so far as it may lawfully do so without affecting the rights of parties holding title under it, declare that the conditions set forth in its deed to Henry R. Plimpton, dated September 11, 1875, recorded with Suffolk Deeds, Lib. 1287, fol. 169, of land in said Boston shall be regarded and considered by it as restrictions merely and that it will not claim any forfeiture of said land by reason of any breach of the said conditions."

The Socony Mobil Oil Company, Inc., suggests that the restrictions imposed 75 years ago have long since served their purpose and now tend only to lessen the value of the land. Accordingly, the Socony Mobil Oil Company, Inc., prays that the City Council authorize the Mayor to annul the restrictions set forth in said deed and that the Mayor release the land from the restrictions.

Respectfully,
CHARLES A. CALLANAN,
Building Commissioner.

Ordered, That the Mayor of the City of Boston be, and he hereby is, authorized to execute in the name of and in behalf of the City of Boston an instrument in writing satisfactory in form to the Corporation Counsel releasing the conditions and restrictions contained in a certain parcel of real estate, situated at the southwesterly junction of Dover and Albany streets in said Boston with frontages of 120 feet on Albany street and 119.54 feet on Dover street, containing about 14,344 square feet of land, said land having been conveyed by the City of Boston to one Henry R. Plimpton by deed dated September 11, 1875, and recorded with the Suffolk County Registry of Deeds, Book 1287, page 169, the said premises being now owned by the Socony Mobil Oil Company, Inc., and cause the same to be recorded with the Suffolk Registry of Deeds.

Referred to the Committee on Public Lands.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:
City of Boston,
Office of the Mayor, August 2, 1956.
To the City Council.

I am in receipt of the attached communication from the Commissioner of Parks and Recreation requesting the appropriation of \$33,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1956 budget estimates for the personal services requirements of the Park and Recreation Department included an estimate of the total yearly income from the George F. Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$33,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
August 2, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

You are respectfully requested to ask the City Council to transfer from the income of the George F. Parkman Fund the sum of \$33,000 which is now available, to be expended under the direction of the Park Commissioner, as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance
and Improvement of.....\$33,000

When making up the budget estimates for the year 1956, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item 100, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1956, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Parks and Recreation Department.

Respectfully yours,
FRANK R. KELLEY,
Commissioner.

Ordered, That the sum of thirty-three thousand dollars (\$33,000) be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance and
Improvement of.....\$33,000

Referred to the Committee on Appropriations and Finance.

CONSIDERATION TO LOAN ORDER FOR CONSTRUCTION OF BRIDGES.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1956.
To the City Council.

Gentlemen:
Pending before your Honorable Body is a loan order for the construction of bridges. It is most important that action be taken on this loan order so that essential bridge work may be commenced before the elapse of too much time.

According to the Commissioner of Public Works, whose communication is attached, the bridge on Massachusetts avenue, near St. Botolph street, is in a weakened condition and needs replacement immediately. A new Summer Street bridge is also an absolute necessity.

I respectfully request, therefore, that you give prompt consideration to the loan order before you. If further information is desired the Public Works Commissioner will be available.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
July 31, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

I respectfully call to your attention the necessity of providing approximately \$3,000,000 for the construction of bridges under the provisions of clause 4 of section 7, chapter 44 of the General Laws.

Under date of February 21, I wrote to your Honor concerning this matter, and you subsequently submitted a Loan Order, so called, in the above amount, to the City Council, for its consideration. This order was rejected, and a substitute order in the same amount was initiated by the Council. The latter-referenced order was referred to the Appropriations Committee, but it is my understanding that no action has been taken on it.

In my letter of February 21, I pointed out to your Honor that one of the bridges included in those scheduled for construction during the current year was a highway bridge that crosses the right-of-way of the New York, New Haven & Hartford Railroad on Massachusetts avenue, near St. Botolph street. I further stated that the existing structure is not only in a weakened condition, but that it presented a definite hazard to the safety of motorists, due to the presence of two plate girders located in the roadway area of Massachusetts avenue.

Subsequent to the forwarding of the above-referenced communication to you, a young motorist was killed at the bridge, due to an accident which occurred when he drove headlong into one of the girders. Last week, another similar accident occurred at this bridge and I saw a picture in the Boston "Traveler" showing a seriously injured motorist being led from the scene of the accident by a policeman. The necessity of providing a new bridge at this location is so obvious that emphasis on the matter is unnecessary.

In addition, as pointed out in my previous letter of February 21, a new Summer Street Bridge in the rear of the South Station is an absolute necessity.

I respectfully request, therefore, that steps be taken to provide for the passage of the substitute loan order in the amount of \$3,000,000 that was initiated by the members of the City Council after they had acted unfavorably on the order submitted to them by you as a result of my letter of February 21. The down payment, so called, in the amount of \$150,000, has been made available, due to favorable action by the City Council on June 25.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Referred to the Committee on Appropriations and Finance.

RECOGNITION OF HONOR TO JOE CRONIN.

Coun. WHITE submitted the following:
Whereas, Joe Cronin was a major league baseball player of great talent, the majority of whose career was with the Boston Red Sox; one of the outstanding clutch players in the history of the game; a most successful manager who led the Red Sox to their first American League pennant in 28 years; today an outstanding and respected Red Sox executive, vice-president, and general manager;
Whereas, Joe Cronin, adopted son of Boston, who has made his home here, has won recognition as one of Boston's first citizens;
Whereas, Joe Cronin and Mrs. Cronin have raised four children in an ideal, wholesome, and happy environment;

Whereas, Joe Cronin has become an exemplary idol not only to the youth of Boston but to his state and his nation by the way he has conducted himself as player and manager and by the high regard he has been held in by all people interested in sports;

Whereas, He has been accorded baseball's highest honor, having been inducted to the Hall of Fame, at Cooperstown, New York, July 23, 1956; be it therefore

Resolved, That the Boston City Council, at this meeting assembled, under its rules, express to Joe Cronin, Mrs. Cronin, and the Boston American League Baseball Club its pleasure of the recognition accorded to Joe Cronin by his recent induction to the Baseball Hall of Fame; be it further

Resolved, That the Boston City Council recognizes the great honor accorded to our city in the above recognition of Joe Cronin's talents; be it further

Resolved, That a copy of this resolution be spread upon the records of the Boston City Council and that a copy of this resolution be sent to Joe Cronin and the Boston American League Baseball Club.

The resolution was adopted under suspension of the rules.

AGGREGATE VALUE OF ABATEMENTS.

Coun. PIEMONTE offered the following:
Ordered, That his Honor the Mayor request the Chairman of the Board of Assessors to advise the Boston City Council of the aggregate value of the abatements granted last year which have been recognized in this year's assessments of values.
Passed under suspension of the rules.

SCHEDULE OF HOSPITAL STUDIES.

Coun. PIEMONTE offered the following:
Ordered, That his Honor the Mayor request the Board of Trustees and/or Superintendent of the Boston City Hospital to furnish the Boston City Council a detailed schedule of all pending or authorized studies relative to the Hospital Department of the City of Boston, setting forth the date of authorization, the expenditures involved, the subject matter, and the completion date, if any; and, further
That the Board of Trustees and/or Superintendent be requested from time to time to forward to the Boston City Council, as they become available, any interim or final reports or studies authorized.
Passed under suspension of the rules.

TEMPORARY APPOINTMENTS IN CLERK OF COMMITTEE'S DEPARTMENT.

Coun. McCORMACK offered the following:
Ordered, That effective August 15, 1956, the following-named persons be, and they hereby are, appointed in the service of the Clerk of Committee's Department to the positions set against their respective names until the third Wednesday of September, 1956, at the salaries in effect for them on August 14, 1956:

JEFFREY J. KEATING REPORTS ON NORTH-SOUTH BASKETBALL GAME AT MURRAY, KENTUCKY

Following is the report of North-South basketball game at Murray, Kentucky, June 16, 1956, submitted by Jeffrey J. Keating, Teacher Coach, Charlestown High School:

I attended the North-South basketball game in company with Charles Chevalier, a student at Charlestown High School, who was one of 12 high school basketball players selected to represent the North in this annual basketball classic. Charles Chevalier was the only boy north of Philadelphia and east of Ohio selected to represent the North in this game.

I attended this game with the express purpose of obtaining the following information:

1. The organization and sponsorship of the North-South basketball classic.
2. The method of selection of the ballplayers.
3. Arrangement of player transportation.
4. The training methods used for game.
5. Educational opportunities for players.
6. Possibilities of exploitation of high school ballplayers.
7. A view of high school basketball from a national point of view.
8. The advantages of North-South game.

The North-South basketball classic is an annual basketball game for high school ballplayers conducted in June by the North-South Cage Commission, in Murray, Kentucky. This year marks the eighth annual game. Murray, Kentucky, is a city of 10,000 people, 50 miles south of Paducah, in the western corner of Kentucky. It is the home of Murray State Teachers College which has 2,200 students.

The Cage Commission was organized by the Murray Chamber of Commerce in conjunction with several other civic groups. Among these were the Kiwanis group, the Murray Women's Club, the Junior Business Men's Club, and the Mayfield Country Club. Many of the leading citizens of Murray served on the general committee and the various subcommittees and served very actively. It was a project in which the whole community participated actively. The Mayor, County Attorney, Commonwealth Attorney, officials of the Murray State Teachers College, and prominent business people of the city served on the committee.

The game was played in the Murray State Teachers College gymnasium which has a seating capacity of 6,000. The gym was air conditioned which was satisfactory from a seasonal point of view for this section of the country.

The players were picked by a selection committee which accepted nominations from a nominating committee of 200 college coaches and sportswriters from every state. Each nomination was accompanied by a letter stating the merits of each ballplayer. After due study, the Selections Committee chose 12 players from the North and 12 players from the South. The players were from 20 different states ranging from California in the west, to Pennsyl-

vania and Massachusetts, in the east, and from Louisiana and Texas, in the south, to Michigan and Minnesota, in the north, truly an All-American selection.

The same procedure was used in the selection of two coaches for the South squad.

After the player selections were made, the transportation committee contacted each selectee requesting information as to how he wished to travel to Murray and the cost of such travel. A check for the same was forwarded to the player with a request for the player's itinerary so that the transportation committee could make arrangements to meet the players at the point of arrival. On arrival at Paducah, Kentucky, members of the transportation committee drove the players 50 miles to Murray.

At Murray, the boys were housed in the dormitories of the Murray State Teachers College. Each boy was given a schedule which outlined the various luncheons, dinners, fish fries, and trips which were arranged for their entertainment during the week. A large badge with his name and home town printed on it was presented to each boy to wear for the week, making it possible for the Murray people to readily identify them and so extend their hospitality to them which they did so generously.

On Sunday, the day of arrival, the coaches conferred with the college dietitian on the menus to be served during the week. For a practice schedule they decided to have two practice sessions each day, morning and afternoon, except on Tuesday and Thursday when morning sessions only were held. A trainer and doctor were in attendance at each practice. Whirlpool baths and heat lamps were available for sprains or muscle injuries. Each squad had its own private practice session. Both coaching staffs operated very similarly. The first two practice sessions were devoted to fundamental drills, shooting practice, and light scrimmage. In the later sessions much work was done on passing patterns to sharpen up their passwork and to give them a basic offense. Out of bound plays were rehearsed. Foul shooting climaxed each session. The practice schedule was climaxed on Friday night with a dress rehearsal for the parents of the players. The boys resplendent in their game uniforms worked out lightly.

It is only natural that college basketball coaches should put in an appearance during the week to look at the cream of the high school ballplayers. The observation has been made that these boys are subject to pressure here was any greater than they could have experienced at home. Most of the boys had already selected their colleges before arriving at Murray. An interesting observation is the fact that Murray State Teachers College has excellent basketball teams in this area and yet, though their facilities are used for the game, only two players in the seven previous North-South games who lived outside the general area of the school, enrolled at Murray State Teachers College.

These high school ballplayers are not exploited any more than similar boys who play in state or sectional tournaments. The boys are under no pressure during the week. Rather, the boys spend a relaxing week being entertained by the different civic groups. A nominal ad-

mission is charged to the game and since the seating capacity is only 6,000, not too much money is involved. After all expenses are deducted, not too much would be left for profit. Any gain to Murray would be in good will generated by the game, plus an increase in business by visitors to the area which is an objective of most Chambers of Commerce.

I was naturally interested in how our local basketball compares with what I viewed at Kentucky. I feel that the difference was strictly in individual finesse. Teams tactics, strategy, patterns, drills, were about the same as ours. Height is stressed. We have now reached the stage where boys 6 feet 6 inches and taller are playing high school basketball. Our basketball players, to become more proficient, must spend more time outside regular practice sessions developing their own individual skills, particularly shooting.

A North-South basketball game for outstanding high school ballplayers is only what the college players have been getting for several years. We have Rose Bowls, Cotton Bowls, Sugar Bowls, North-South, East-West, and many other all-star games. This game is a boon to Murray, Kentucky, not for the financial returns from the game itself, but from the good will it generates for Murray. It brings many people into the city and I know it was difficult to get reservations in motels in the area. Efforts have been made to have the game transferred to Chicago but the Murray group will oppose this move vigorously. Games of this type afford an excellent opportunity for basketball ideas from different sections to be welded together to develop better basketball.

In conclusion, I think that it would be an excellent idea for some civic group in Boston to sponsor such a game, maybe on the basis of an East-West competition.

Incidentally, the North Squad lost to the South Squad, 103-95. The series now stands five wins for the South to three wins for the North.

JOHN M. CANTY REPORTS ON EDUCATION INSTITUTE AT UNIV. OF CONNECTICUT

Following is report of John M. Canty, Director of Business Education, on attendance at the fourth annual Business Education Institute, at the University of Connecticut, Storrs, Connecticut, June 26-29, 1956:

The institute opened to a registration of 105 business educators from New England and New York on Wednesday morning to the theme, "Guidance and Tests and Measurements in Business Education." Dr. Dean R. Malsbary, Assistant Professor of Business Education, University of Connecticut, presiding as Executive Chairman, introduced Dr. Elvin S. Eyster, Chairman, Department of Business Education, School of Business, University of Indiana.

Doctor Eyster's morning topic was "Business and Economic Understanding, an Essential Part of General Education." He emphasized that Business Education includes business and economic understanding as well as skills. A course in General Business or Consumer Economics should be included in the curriculum

of every high school, was his contention. In the afternoon, Doctor Eyster discussed the "Fundamentals of Guidance Programs in Business Education" and distributed materials on guidance that he developed and used when he was on the faculty of North Side High School, Fort Wayne, Indiana.

At the morning session on Thursday, Doctor Eyster talked on "Guidance Practices." He stated that there is no magic formula by which it may be determined for what business occupation a pupil should prepare. In addition to occupational information, guidance in business education involves human factors, such as abilities, interests, experiences, and personal characteristics which are not applicable to an equation or formula. His final discourse was on Thursday afternoon and was titled "Pupil Services."

Mr. Thomas B. Maier, Vice-President and Business Education Director, Pitman Publishing Company, New York City, alternated with Doctor Eyster on Wednesday and Thursday and gave discourses on the following topics: "Fundamentals of Testing or What Makes a Test Good"; "Testing Skills"; and "Testing Knowledge." Sample tests in various subjects in Business Education were distributed and discussed.

On Friday, Mr. Paul L. Turse, Chairman, Business Education Department, Peekskill Senior High School, Peekskill, New York, gave two lectures. The first one, "Interpretation and Evaluation of Aptitude Tests," was illustrated by color slides. He explained the nature of aptitude tests given by the Armed Forces and private industry and showed graphic presentations of the results. The second lecture was "Problems in Measurement in Business Education." He distributed copies of his tests, "Turse Shorthand Aptitude Test"; "Turse-Durost Shorthand Achievement Test"; and "Turse Clerical Aptitude Test" published by World Book Company.

At the closing session, on Friday afternoon, a panel on "Tests and Testing Practices" was presented. Mr. George F. Dickinson, Educational Director, Hartford Chapter, National Office Management Association, and Office Manager at Wilson, Haight, Welch, and Grover, Inc., Hartford, Connecticut, discussed the NOMA tests for high schools and distributed samples and literature. He advocated participation in NOMA tests and contests. In 1956 NOMA sponsored an International Spelling Contest in which high school students in the United States and Canada participated. A spelling list of 900 words commonly used in business was available for study by students who entered the contest.

Miss Barbara A. Johnston, Regional President, Rhode Island Division of National Secretaries Association, and Secretary to the General Manager of the Sheraton-Biltmore Hotel, Providence, Rhode Island, discussed the certification of secretaries and the requirements for membership in the National Secretaries Association.

Miss Dorothy A. King, Chairman, Business Education Department, Columbia High School, East Greenbush, New York, discussed and advocated the Regents examinations of The University of the State of New York.

Mr. August Tomasetti, Maplewood Junior High School, Bridgeport, Connecticut, reported on the results pretesting and testing on a unit on Insurance in the

subject of General Business. He stressed the importance of pretesting as a motivating factor and time saver in the classroom.

Respectfully submitted,

JOHN M. CANTY,

Director of Business Education.

MAYOR HYNES MAKES FOUR APPOINTMENTS TO TOP POSITIONS IN THE CITY GOVERNMENT

Mayor John B. Hynes, on August 30, made four important appointments to the roster of city executives.

Promoted to the post of Civil Defense Director was Francis C. Cleary, of West Roxbury. He succeeds Joseph L. Malone, who resigned to take over his new duties as headmaster at English High School. Named as Chief of the Boston Fire Department was Leo C. Driscoll, of Dorchester, who succeeds Edward N. Montgomery, retired; and appointed to the three-man Board of Review in the Assessing Department was Edward F. Mullen of Brighton, former chairman of the Boston Finance Commission, who succeeds Philip J. Camerlengo, deceased. The Mayor appointed Harry J. Blake, former president of the Greater Boston Chamber of Commerce and prominent wool executive, to the unpaid position of Associate Commissioner, Parks and Recreation Department, to succeed Theodore C. Haffenreffer, deceased.

Civil Defense Director Francis C. Cleary, age, fifty-four, is a career man in the Boston school system. He is on leave of absence to the Civil Defense Department from his duties as guidance counselor at Boston Latin School. His first school appointment was to the Latin School faculty in 1925. He was made junior headmaster in 1927 and guidance counselor in 1945. Mr. Cleary received his A.B. degree at Harvard College; A.M. degree at Boston College Graduate School, and M.Ed degree at Harvard University Graduate School of Education. His position as Civil Defense Director pays \$10,500 a year.

Chief of the Fire Department Leo C. Driscoll is fifty-six years of age. He was appointed a private in the department in 1927, promoted to lieutenant in 1937, to captain in 1942, to district chief in 1945, and to deputy chief in 1950. Mr. Driscoll has been assistant fire chief since 1955. At the time of his appointment as acting chief of the department, he was in charge of personnel and training. Salary of chief of the department is \$10,900 a year.

Edward F. Mullen, Member of the Board of Review, is sixty-three years of age. He served as a member of the Boston Finance Commission from 1944

to 1955, during eight years of which he was chairman. He received his A.B. degree (cum laude) at Harvard College in 1913, and L.L.B., Northeastern Law School, 1937, since which time he has been a practicing attorney. Prior to taking up the practice of law he was engaged in the investment banking business. He served as official translator in the Federal Bureau of Investigation at Boston from 1942 to 1950.

As a member of the Board of Review of the Assessing Department, Mr. Mullen will hear tax abatement petitions. The salary for his position is \$8,500 a year.

Harry J. Blake, Associate Commissioner of Parks and Recreation, is widely known as one of the originators, with Mayor Hynes, of the Boston Christmas Festival. He has long been keenly interested in the Boston parks system and will serve on the Parks Board without compensation. A native of Boston, Mr. Blake has played a prominent role in the business life of the city for fifty years. He heads the wool firm of Blake & Co., Inc. He served as president of the greater Boston Chamber of Commerce in 1950-51. He has been a trustee of the Massachusetts Hospital School and is now a member of the Board of the Massachusetts General Hospital. Mr. Blake is seventy years of age and resides at 21 Brimmer street, Back Bay.

The trustees of the Hospital Department made a key appointment in the administration of city affairs this week when they named **Michael L. Connors, Director of Personnel, Hospital Department**. Mr. Connors is a career man of thirty years' service with the city. At the time of his appointment he had been occupying the position of senior budget analyst in the Department of Administrative Services. An Air National Guard colonel, Director Connors is fifty-three years of age and a resident of Dorchester. His appointment was termed a "major step" in the long-range plan to streamline the administration of the Hospital Department. Mr. Connors will have general supervision over some 4,600 positions in the operation of City Hospital, Long Island Hospital, and the Mattapan Sanatorium.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

FINANCE COMMISSION ANALYZES 1956 TAX RATE FIGURES.

August 24, 1956.

To the Honorable the Mayor and City Council.

The Finance Commission herewith places upon record the official figures of the 1956 tax rate computations and its analysis of them.

This rate of \$78.70 sets a new high record not only in the City of Boston, but in the cities of Massachusetts. And yet it is doubtful if it has reached the limit. A sales tax next year may keep it near the present level, but may not do much better. If a sales tax is authorized, the benefits to the Boston taxpayers will depend on the distribution of its proceeds, which will be directed by the Legislature in the authorizing statute.

It is widely accepted that the 1956 rate is, at last, a realistic rate. Certainly an analysis of the computations of it gives strong support to that opinion. Nevertheless, it is \$8.90 higher than a year ago; and despite the fact that a new attitude toward Appellate Tax Board determination of valuations has been proclaimed, not all of those who in recent years complained about high valuation will benefit therefrom. There are certain restrictions imposed in the application of the new policy which will deprive many property holders of any 1956 benefit.

Annually for many years the Finance Commission has been revealing the unsoundness of the valuation total on which the rate rested. It pointed to original valuations which later had to be reduced at extra cost to the City and to the taxpayers. It pointed to excessive estimates of income other than taxes which to a staggering total resulted in operation deficits. It pointed to excessive estimates of yield from certain taxes, like the motor vehicle excise receipts; and it pointed to the large scale business of procuring abatements after the tax rate was established. Eventually so many private agencies took up the Finance Commission's lead that now the city administrators are coming closer to realistic rate-making rather than political rate-making.

So far, therefore, the reform consists of this: According to official announcement, where the Appellate Tax Board or the Boston Board of Review determined valuation within the last two years, the As-

sessors accepted those figures as the 1956 valuation. In all others, they were not bound to vary from assessments of other years. The change in policy does not apply to properties wherein a reduction in valuation of less than \$10,000 has been granted by either board in the last two years. It is difficult to obtain at this time more than an unsupported estimate of the effect of the policy on total valuations because no parcel by parcel comparison of valuations has yet been made.

The established facts are: the total of valuations, real and personal property, in 1956 is \$1,517,808,000; in 1955, it was \$1,541,500,000, or \$23,692,000 more. It has been officially estimated that new taxable valuations in 1956 amount to approximately \$20,000,000; but there has been a loss of approximately \$5,300,000 by additional Central Artery and "New York Streets" area takings.

The new attitude amounts to a partial stabilization of assessments for the remaining three years of this administration. Many prominent real estate representatives asserted in conference with the city rate-makers that stabilization of valuations is most important for the good of the city. Fluctuations in the past several years due to the desire to keep the rate at a figure acceptable to administration leaders played havoc with efforts to promote large real estate developments; and it made a profitable business for some who had enough influence to obtain abatements. So far, therefore, as relates to determination of taxable valuations, the decisions of the assessors in 1956 are less provocative than in generations though they will not necessarily be entirely acceptable to many property owners.

Regarding the city's "Revenues and Credits," in the estimates used there is in 1956 less of the gamble of previous years evident. The city fiscal authorities lean heavily to the opinion that without a catastrophe, the result should be that there will be little, if any, addition at the end of 1956 to the operation deficits accumulated in the past several years.

That conservatism rather than liberality governed the revenue estimates is evident. From city, county and school departmental

revenue, it is estimated that \$13,768,808.08 will be received in 1956. The corresponding estimate in 1955 was \$16,244,007.19. It proved almost \$3,000,000 too much. From motor vehicle taxes, it is estimated that \$4,911,517 will be received in 1956. In 1955 the estimate was \$6,191,529, which figure proved about \$1,000,000 too high.

Parking meter receipts are figured to be \$180,000 in 1956 as against an estimate in 1955 of \$397,000. Poll taxes, which by law must be assumed to be collected entirely, have dropped from \$468,200 to \$451,000 in the estimates.

The estimates of Boston's share of State revenue, supplied for tax computation purposes by the State, are again on the optimistic side. In 1956 the total of them as listed by the Boston Assessors is \$25,688,119.38, which is \$90,891.51 more than the estimate of them used in 1955. These figures include "Aid and Assistance" coming from reimbursement to Boston for welfare grants chargeable to the State and other municipalities.

On the appropriation side, City appropriations total \$111,441,721.63. This is \$4,791,342.63 more than the 1955 total; County appropriations in 1956 total \$7,837,120.25, which is \$1,028,708.08 more than the 1955 total; School appropriations total \$29,820,706.21 or \$1,359,321.50 higher than in 1955. Metropolitan assessments are in 1956 a total of \$2,236,954.48, which is \$453,026.81 more than in 1955; the Metropolitan Transit Authority assessments in 1956 total \$5,002,408.07, which is \$202,112.79 more than in 1955; the State assessment is \$93,738.24, or \$3,458.70 less than in 1955; and the combined overlay accounts in 1956 total \$16,036,777.98, which is \$4,541,710.79 more than in 1955. In this last item the City is appropriating \$3,670,763.10 more than the normal \$2,000,000 required by statute for providing overlay deficits.

It is noteworthy that for a 1956 overlay (refunds on account of abatements, etc.) the total used is \$4,790,578.89, which is \$1,084,631.12 greater than the figure used in 1955. This new figure represents 4.16 per cent of the tax levy. It is hoped by the fiscal officers that it will suffice to cover all refunds of 1956 assessments ordered by the Board of Review.

The appropriation total in 1956 is therefore \$172,370,328.06 or \$12,375,664 greater in 1956 than in 1955. Since the various revenues other than taxes total only \$52,918,839.46, the necessary tax levy is \$11,854,789.60 more than in 1955.

To summarize briefly: increased appropriations and charges in 1956

with a lower offset in Revenues and Credits necessitated a higher tax levy; and a lower total of assessable valuations, in turn necessitated a higher tax rate.

The official tabulation of valuations, real and personal property, follows:

These tables reveal that the total 1956 assessed value of the real estate of the city is smaller by \$22,694,300 than the total of the assessed valuation in 1955. The personal property total declined \$997,700. In Wards 17, 18, 19 and 20 there is a higher total of real estate value than in 1955. In personal property valuation, two wards, 15 and 18, have higher totals than in 1955, the other 20 being all lower, but without distinctive change.

The Finance Commission repeats the conclusion of its tax rate analysis report of a year ago:

"An increase in revenue by a much needed rise in fees and charges would give a small amount of help; but new taxes, to which there is much and powerful opposition, is practically the only means by which the present property tax rate can be reduced, or kept at its recent level."

Respectfully submitted,

H. W. DWIGHT RUDD,
Chairman.

CODE REALTY AWARDED SHOPPER GARAGE LEASE

Mayor Hynes, on August 23, approved the following vote of the Real Property Board:

At a meeting of the Real Property Board duly held on Thursday, August 23, 1956, four members of the Board being present and voting, it was unanimously

Voted, To accept the bid of the Code Realty, Inc., a Massachusetts Corporation, it being the highest bidder, in the amount of \$60,000 per year, for the leasing of the Hayward Place off-street parking facility, for a term of forty years, beginning September 1, 1956, in accordance with the terms of the proposal, and subject to the approval of the Mayor.

It was also unanimously

Voted, That the Chairman is authorized to take the necessary legal steps for the preparation and execution of the lease to the Code Realty, Inc., for a term of forty years, beginning September 1, 1956, at an annual rental of \$60,000, in accordance with the terms of the proposal and subject to the approval of the Mayor.

Code Realty, Inc., was the only bidder on the contract.

JOHN J. TWOMEY RETIRES AS PRINTING PLANT HEAD

Mayor Hynes, on August 28, approved the retirement of John J. Twomey, Assistant Superintendent of the Printing Section of the Purchasing Division of the Administrative Services Department.

Mr. Twomey has been in the service of the City of Boston for thirty-nine years, serving in the capacity of superintendent for the past dozen years.

Mr. Twomey's wide knowledge of the printing trades will be sorely missed.

For the time being, John V. Moran, the Purchasing Agent, who is in charge of the Printing Section of the Administrative Services Department, will take charge of all printing matters.

\$500,000 LOAN ORDER TO RAZE OLD BUILDINGS HAS INITIAL COUNCIL O.K.

The City Council, on August 27, gave its initial approval to the request of Mayor John B. Hynes for an emergency loan order of \$500,000 for the demolition of unsafe, dangerous structures within the City of Boston. Under the law, the request must be acted upon a second time after the expiration of fourteen days.

Pointing out the urgency for immediate action on the matter, the Mayor submitted the following communication to the Council:

GENTLEMEN:

As your Honorable Body is aware, for some time we have been attempting, by various means and programs, to solve the problem of neighborhood deterioration in the City of Boston. It has become increasingly clear that this problem cannot be solved by other than a decisive frontal attack.

The number of buildings abandoned by their owners is increasing at a rapid rate. Recently I requested a representative group of bank officials, who have a financial interest in this problem, to make a survey of the situation as it exists in Boston. This committee consulted with various departmental officials. Spot checks by the committee indicated that the number of buildings dilapidated, dangerous, vacant, or abandoned is close to 2,000. Undoubtedly a large percentage of these structures cannot be rehabilitated.

In my judgment, the health and safety of the citizens of Boston require that these structures be demolished or put in acceptable condition. If they are allowed to remain as a blot on the face of the city we shall not only encourage a most dangerous situation, but we shall also discourage any possible improvement in neighborhoods which can be improved if these structures are removed.

On Thursday, August 23, the Public Safety Commission, in a special meeting, voted as follows:

"... That a state of emergency exists in the City of Boston, due to the recent rapid increase in the number of abandoned buildings in the City of Boston which constitute a menace to the public health and safety and are cause of alarm and fear on the part of the residents of the city. It is recommended that an immediate appropriation of \$500,000 be made available in order to remedy this critical situation as rapidly as possible. . ."

I therefore present to your Honorable Body a loan order, attached herewith, for the emergency appropriation of \$500,000 for the demolition of unsafe, dangerous structures within our city. Of this amount \$150,000 will be spent under the direction of the Building Commissioner and \$350,000 will be spent under the direction of the Health Commissioner.

I request approval of the loan order by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

MAYOR INCREASES BOARD GUIDING URBAN RENEWAL

Mayor Hynes on August 29, announced that he has appointed Director of Administrative Services John A. Breen as Chairman of the Coordinating Committee on Urban Renewal.

Mayor Hynes also appointed the following additional members to the committee: George Hyland, Public Works Commissioner; Col. Paul Hines, Coordinator of Neighborhood Rehabilitation Committees; and Charles Callanan, Building Commissioner.

Present members of the Coordinating Committee include: Dr. John Cauley, Health Commis-

sioner; Thomas E. McCormick, Director, Planning Board; and Kane Simonian, Chief of the Urban Renewal Division, Boston Housing Authority.

The purpose of this Committee on Urban Renewal is to coordinate the planning, financing, code enforcement, the relocation of displaced families, and the carrying out of urban renewal projects in accordance with Boston's Workable Program for Urban Renewal as certified by the Administrator of the Housing and Home Finance Agency, Albert M. Cole.

By virtue of his position in the City Government as Director of Administrative Services and Chairman of the Public Safety Committee, Mr. Breen is vested with the control and responsibility of administrative, financial, and budgetary matters, as well as public safety and code enforcement activities.

The federal government requires a high degree of administrative responsibility and coordination as a condition to making federal funds available for urban renewal. Because of Mr. Breen's strategic position in the city government, he is the logical person to bring about effective coordination, administrative responsibility, and direction to the urban renewal activities.

Administrator Cole of the H.H.F.A. has been notified of the enlargement of the Boston Urban Redevelopment Coordinating Committee.

HUB SALK PROGRAM GIVES OVER QUARTER-MILLION SHOTS OF POLIO VACCINE

With the completion last week of inoculations of Salk polio vaccine for the fifteen- through nineteen-year age group, the Boston Health Department announces the ending of special inoculation clinics. In the future, polio inoculations will be given routinely from 1 P.M. to 2 P.M. at the regular Boston Health Department clinic locations listed below, to anyone in the eligible age group of birth through age nineteen, inclusive. An inoculation request form, which can be obtained at the clinic, must be signed by parent or guardian before inoculations can be given. Free vaccine will also be furnished to private physicians in Boston for those in the eligible age groups desiring to obtain the inoculations from their family physician. This vaccine is available to Boston physicians at the regular culture stations of the Boston Health Department. Expectant mothers, who may also receive free vaccine under the polio vaccine program of the Commonwealth of Massachusetts, may obtain their inoculations from their physicians or from the

FORTY-YEAR LEASE EXECUTED TO CONSTRUCT HAYWARD PLACE GARAGE WITHOUT COST TO CITY

Mayor Hynes and the Real Property Board on August 30 executed a forty-year-lease with Code Realty, Inc., a Massachusetts Corporation, for the off-street parking facility to be located at Hayward place and Harrison Avenue Extension.

The Real Property Board made the taking by eminent domain in February of 1956 of 22,834 square feet of land with the buildings thereon. Demolition of the structures has been going on for the past four months and will be completed by September first.

The structure, the first of its kind in the east, will be the mechanical hoist system, 12 stories high, and, in accordance with the terms of the lease, must be completed within one year from September 1, 1956, at no expense to the City of Boston.

Upon the execution of the lease, Code Realty, Inc., paid to the city its first year's rent, in the amount of \$60,000, and reimbursed the city in the amount of \$57,855 for the city's engineering services, making a total of \$117,855 paid to the city.

Simultaneously with this payment, Code Realty, Inc., turned over to the Real Property Board a bond, in the amount of \$1,250,000, guaranteeing the construction of the building at no expense to the city, in accordance with the city's plans and specifications, and that the structure would be completed within one year of the date of the execution of said lease.

The parking facility structure, which will be the fifth municipal off-street parking facility sponsored by the city, will hold seven hundred cars.

The maximum rates that the lessee will be permitted to charge the public are as follows: First hour, 35 cents; second hour, 40 cents; for each succeeding hour thereafter, 25 cents; with a maximum of \$1.75, from 8 A.M. to 6 P.M. Commencing with 6 P.M., the charge will be: First hour, 35 cents; second hour, 40 cents; for each succeeding hour, 25 cents; with a \$1 maximum, from 6 P.M. to midnight. There will be a flat rate of 50 cents from midnight to 8 A.M.

It is expected that this structure, which will be commenced shortly, will be a tremendous asset, being located in the heart of the retail district of downtown Boston.

The officers of the Code Realty, Inc., are as follows: President, Harold Singer; Vice President, Franklin W. Flaschner; Treasurer, Emmanuel Kurland. Offices are at 31 Milk street, Boston.

Plans are being rapidly completed for a similar structure at Fort Hill square.

The Real Property Board, at its last meeting, voted to take by eminent domain 28,350 square feet of land, with buildings thereon, located at Kingston, Bedford, and Columbia streets, also in the heart of the downtown Boston area.

The Real Property Board is also going to conduct public hearings prior to the taking of 28,000 square feet of land, with buildings thereon, bounded by Clinton, Blackstone, John, and Fulton streets, in the Market district of the city.

Studies are being made for possible locations for parking facilities for the North Station area, Lower Washington Street area, Back Bay area, and Kenmore Square area.

Since the beginning of the Salk polio vaccine program, 263,189 inoculations have been given by the Boston Health Department, the Boston School Department, private physicians, and prenatal clinics. Of these, 161,033 have been first inoculations and 102,156 have been second inoculations. In addition, prior to the withdrawal of polio vaccine from sale last February, private physicians purchased vaccine and administered many additional inoculations. Polio vaccine has recently been released once again for sale to private physicians for the use of their private patients.

The following table gives an analysis of the distribution and use of polio vaccine, including the polio pioneer program which was initiated last year. With the exception of an occasional mild reaction, usual with any immunization, it is especially noteworthy that, with the many thousands of polio inoculations given, the Boston Health Department has had no reports of adverse effect or infection from any cause whatsoever, including manufacture, storage, distribution, or administration of the vaccine. The parents of Boston are to be commended for their cooperation, patience, and understanding of the many problems which a program of this magnitude involved. The children deserve especial praise for their good behavior and good sportsmanship. It was rare for any child to protest, and the busy clinics could not have handled the many hundreds present at each session if the children had not behaved so well.

To date this year, there have been only two cases of polio of Boston residents. Both were nonparalytic, and both children have already been discharged from the hospital.

ACTING VET. COMMISSIONER

Victor C. Bynos, Commissioner of Veterans' Services, has appointed Thomas J. Sheehan as Acting Commissioner during such time as he may be absent in the period beginning August 27, 1956, and ending September 23, 1956.

PER CAPITA INCOME

Average income of Massachusetts residents in 1955 has been estimated by the United States Department of Commerce at \$2,097 per person, the highest on record and an increase of 7.2 per cent over that in 1954. The increase for the United States as a whole was 5 per cent.

BUILDING INVESTMENTS CONTINUE UPWARD BUT NUMBER OF PERMITS ISSUED SHOWS A DECLINE

Building Commissioner Charles A. Callanan reported this week that the total value of all the new construction and building activities in Boston during the first seven months of 1956 shows a marked increase over last year's comparative period in spite of a 17-per cent decrease in the total number of permits issued.

Furthermore, the building valuation figures for July topped the July total of last year by 60 per cent and reached a five-year peak although the number of permits was nine per cent under the July, 1955, total.

For the seven-month period, January through July, a \$5.4 million increase in value of the new structural work, but a decline of 691 in the number of permits issued in Boston, is reported by the Building Commissioner.

The total value of new construction from January through July is estimated at \$28.6 million while the total new construction valuation for the same period in 1955 was \$23.2 million. Similarly, only to a much more marked degree, total construction and alteration figures reached \$5,530,000 in July this year as compared with \$3,304,000 in July of last year. The number of building permits issued last month was 58 less than in July of last year.

During the first seven months of 1956, gas fitting, plumbing, appliance and other installations totaled in value \$3.6 million as against \$4 million in the same period last year. Total number of permits during the same time was 6,711 this year as against 6,728 in 1955.

DISCONTINUE CHELSEA ST.

Charlestown

The Public Improvement Commission has ordered, and the Mayor has approved, the discontinuance of Chelsea street, Charlestown district, as a public highway, from a point 500 feet northeast of Medford street, approximately 700 feet northeasterly.

The discontinuance is officially described as follows:

The highway named Chelsea street is hereby discontinued as a public highway, from a point approximately 500 feet northeast of Medford street, approximately 700 feet northeasterly.

Said Chelsea street as hereby discontinued is bounded:

Northeasterly by the northeasterly line of Chelsea street as established under an order of the Board of Street Commissioners and Mayor dated January 21, 1954 (discontinuance), fifty-four and 89-100 feet; northwesterly by the northwesterly line of Chelsea street, four hundred nine and 29-100 feet; northeasterly by the northeasterly line of Chelsea street, seven feet; northwesterly by the northwesterly line of Chelsea street, three hundred sixty and 44-100 feet; southerly by another portion of Chelsea street, seventy and 91-100 feet; southeasterly by the southeasterly line of Chelsea street, three hundred forty and 13-100 feet; northeasterly by the northeasterly line of Chelsea street, one and 01-100 feet; easterly by the easterly line of Chelsea street, five and 53-100 feet; southeasterly by the southeasterly line of Chelsea street, four hundred twelve and 23-100 feet, containing forty-three thousand seventy-two square feet, more or less.

VOTE STATE-CONGRESS ST. AS NEEDING GARAGE

Mayor Hynes, on August 23, approved the following vote of the Real Property Board:

At a meeting of the Real Property Board duly held on Tuesday, August 7, 1956, it was unanimously

Voted, That under chapter 474, section 1, clause A, of the Acts of 1946, as amended, the following location in the City of Boston be, and hereby is, determined to require public off-street parking facilities:

The area bounded by State street, Congress and Union streets to Haymarket square, Cross street, Hanover street, Commercial street, and Atlantic avenue to State street, in the City of Boston.

WILLIAM P. KELLEY NEW MASTER OF DEER ISLAND

Mayor Hynes, on August 22, approved the appointment by Edward L. Friel, Penal Institutions Commissioner, of William P. Kelley as master of the Suffolk County House of Correction. This appointment is effective Wednesday August 22, 1956, Classification Grade 30, at the salary of one hundred and twenty-two dollars and fifty cents (\$122.50) per week.

Mr. Kelley will succeed Mr. Edwin M. Malone who was retired as of June 5, 1956.

CONTRACTS AWARDED. WITHOUT ADVERTISING.

PARKS AND RECREATION DEPARTMENT.

Road Surfacing

The Mayor, on August 23, approved the award of a contract, without advertising, based on the following communication:

DEAR SIR:

Your permission is respectfully requested to allow this department to enter into a contract, without publicly advertising, with Jennite-Congan, Inc., 47 Braintree street, Boston, Mass., for seal coat surfacing of main roadways, Mount Hope Cemetery, Boston, Mass.

Jennite-Congan, Inc., will pressure wash the entire area of the existing surfaces to be sealed, will clean and repair all holes, cracks, and other defects prior to applying the seal coat surfacing.

They will then apply two separate coats of Jennite-J-16 at the total uniform rate of two gallons per hundred square feet of pavement surface.

The cleaning and repairing of the cracks will be done on a cost-plus basis and the furnishing and applying of the seal coat is figured at the unit price of 35 cents per square yard, which includes all material, labor, trucking, and all other incidental costs. It is estimated that the cleaning and repairing of the estimated 12,850 square yards will cost approximately \$500, and the seal coat surfacing \$4,500, the total of the contract not to exceed \$5,000.

Jennite-Congan, Inc., is the exclusive agent for Jennite surfacing in this part of the country and therefore it is not possible to obtain quotations from any other source. We have had experience with this company in the past and are satisfied that the product which they

furnish and apply is as fine a roadway sealer and preservative as has come to our attention. The unit price quoted is the same as that bid under our last publicly advertised contract for this type of work.

Therefore, in view of all this, believing that nothing would be gained by publicly advertising for bids, I respectfully request that I be given permission to award a contract for seal coat surfacing of main roadways, Mount Hope Cemetery, Boston, Mass., to Jennite-Congan, Inc., 47 Braintree street, Boston, Mass., at the above-noted unit price quoted for a total amount not to exceed \$5,000, the same to be charged to the regular Cemetery Division budget appropriation 1-13-21, Item 26-2.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 20, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCormack in the chair, and all the members present.

The Reverend Juniper Lynch, O.F.M., of St. Anthony's Shrine, Boston, was escorted to the rostrum.

INVOCATION BY REV. JUNIPER LYNCH.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

Come, Holy Spirit, fill the hearts of Thy legislators, enkindle in them the fire of Thy love. Grant that they may be duly instructed by Thee so that, enlightened by Thy gifts of wisdom, understanding, and counsel, they may make just laws, and, aided by Thy gifts of prudence and fortitude, they may have the courage and the loyalty to enforce them. Through Jesus Christ, Who lives and reigns with Thee forever, world without end. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

COOPERATION IN VOTER REGISTRATION DRIVE.

The following was received:

City of Boston,
Office of the Mayor, August 8, 1956.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Election Commissioners concerning your order of July 30, 1956, relative to extending every courtesy and cooperation to those organizing the major voter registration effort about to be undertaken in Boston by the National Association for the Advancement of Colored People.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Election Department, August 6, 1956.
Harold B. Flemming,
Chief Clerk, Mayor's Office.
Dear Sir:

I am in receipt of your communication of August 1, 1956, together with Councillor Foley's order of July 30, 1956.

May I point out that this Board will be very happy to extend every courtesy and co-operation to those organizing the major voter registration effort about to be undertaken in Boston by the National Association for the Advancement of Colored People.

Very truly yours,
BOARD OF ELECTION COMMISSIONERS,
DAVID LASKER, Chairman.

Placed on file.

REPAIR OF CASTLE ISLAND PIERS.

The following was received:

City of Boston,
Office of the Mayor, August 8, 1956.
To the City Council.
Gentlemen:

I transmit herewith communication from the Park Commissioner concerning your order of July 30, 1956, relative to repairing the piers at Castle Island to permit fishing thereon.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
August 6, 1956.
Harold B. Flemming,
Chief Clerk, Office of the Mayor.
Dear Sir:

This will acknowledge receipt under date of August 3 of your memo dated August 1, 1956, with attached order of Councillors Foley, Kerrigan, and McCormack, requesting that the Board of Park Commissioners repair the piers at Castle Island to permit fishing therefrom.

This is to state that this matter has been called to our attention previously and that the chief engineer has made an investigation of this situation and we are making some repairs to the pier sufficient to allow safe fishing at this particular location. There is another section of the pier that can not be repaired at this time because of the amount of money that would be involved in the repairs.

It should be remembered that we are only temporary custodians of Castle Island, the entire area being owned by the federal government and we endeavor to keep the city's expenses at this location at a minimum.

Very truly yours,
FRANK R. KELLEY, Commissioner.
Placed on file.

TRANSFER OF LAND ON MORELAND STREET, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, August 8, 1956.
To the City Council.
Gentlemen:

In the custody of the Real Property Department is a parcel of land at Moreland and Prospect streets, in the West Roxbury district. This land is now being utilized by the Public Works Department of the city. The Real Property Department has no further use of the land and recommends its transfer to the Public Works Department.

Therefore, I recommend the passage of the accompanying order transferring the aforesaid parcel of land to the care, custody, and control of the Public Works Department.

Respectfully,
JOHN B. HYNES, Mayor.

City of Boston,
Real Property Department, August 6, 1956.
Hon. John B. Hynes,
Mayor of Boston,
and
City Council.
Gentlemen:

The Real Property Department has in its custody a parcel of land comprising approximately 30,421 square feet of land, together with the building thereon, on the northeasterly side of Moreland street, making the northeasterly corner of Moreland and Prospect streets, in the West Roxbury district of Boston. Said property was formerly in the custody of the Board of Street Commissioners, but has been in the custody of the Real Property Department since 1950. (See chapter 318 of the Acts of 1950.) Many years ago the Board of Street Commissioners authorized the use of said land by the Public Works Department, and the Public Works Department has since utilized the property as Highway Division Headquarters for the West Roxbury district.

Inasmuch as the Public Works Department desires to continue its aforesaid use and occupation, it is requested that said land be transferred to the Public Works Department.

Respectfully,
HERMAN CARP,
Commissioner of Real Property.

VOTE.

At a meeting of the Committee on Foreclosed Real Estate of the Real Property Department, held on August 2, 1956, at 809 City Hall Annex.

At the request of the City Law Department, on motion duly made and seconded, it was unanimously

Voted, To transfer a parcel of land comprising approximately 30,421 square feet of land, together with the building thereon, on the northeasterly side of Moreland street, making the northeasterly corner of Moreland and Prospect streets, in the West Roxbury district, of Boston, from the care, custody, and control of the Real Property Department to the Public Works Department, to be used as a city yard for the West Roxbury district.

A true copy.

Attest:

JOSEPH B. BURKE,
Executive Secretary.

Whereas, The City of Boston is the owner in fee of approximately thirty thousand four hundred twenty-one (30,421) square feet of land, together with the building thereon, on the northeasterly side of Moreland street, making the northeasterly corner of Moreland and Prospect streets, in the West Roxbury district of the City of Boston, now in the custody of the Real Property Department; and

Whereas, The Commissioner of Public Works of the City of Boston desires to use said property as headquarters for the activities of the Highway Division in the West Roxbury district; and

Whereas, The Commissioner of Real Property of the City of Boston has recommended that said property be transferred; now, therefore, it is hereby

Ordered, That the above-mentioned parcel of land, together with the building thereon, be, and the same hereby is, transferred from the care, custody, control, and management of the Real Property Department to the care, custody, control, and management of the Commissioner of Public Works.

Referred to the Committee on Public Lands.

APPROPRIATION FOR DEMOLITION OR RESTORATION OF ABANDONED PROPERTIES.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1956.
To the City Council.
Gentlemen:

The growing number of vacant, abandoned, dilapidated, and dangerous structures in the City of Boston is cause for deep concern, even alarm. It is estimated that there are up to two thousand structures of this type within our city, a great number of which cannot, for one reason or another, be restored to use.

Unless the city government moves, with promptness and determination, these unsightly structures will, without doubt, be responsible for further decay and blight.

In order that effective action might be taken to stem the growth of decay and blight, and to remove or demolish structures which are beyond the stage of repair or renovation, I called together recently a group of bank officials to discuss this situation. From this group a committee of five was appointed by me to make a report and recommendations. The initial report of the committee has been made and its recommendations are attached herewith.

After consulting with various departmental officials, the committee arrived at the conclusion that no real progress can be made in attacking this problem until there is a co-ordination in the efforts of the half dozen or more city departments which are concerned, in one respect or another, in this matter. At the present time, the weapons at the disposal of the city are dispersed in various directions, and the result is that our present efforts are slow, cumbersome, and too thinly dispersed to be fully effective.

It is obvious that when the Law Department, the Fire Department, the Police Department, the Building Department, the School Department, the Real Property Department, the Health Department, the Public Works Department, and the City Planning Board, are all involved in some aspect of urban blight, there is need of co-ordination in order that the authority of each of these departments may be exercised in harmony with the authority of all the departments. It is also obvious that the efforts of the fifteen local neighborhood rehabilitation committees can meet with little success when properties in the category referred to above are allowed to remain and to infect the whole neighborhood.

The committee recommends that a Director of Demolition and Restoration be appointed by the city, to work under the direction of the Mayor, and to bring cohesion to the divided efforts now being made by various departments in this problem of abandoned, dilapidated structures. I concur in this recommendation and submit, herewith, to your Honorable Body an order for the transfer of \$25,000 from the Reserve Fund to an appropriation for Demolition or Restoration of abandoned properties.

I shall appoint a Director of Demolition and Restoration, as recommended by the committee. This individual will be an attorney well versed in this field. In a program involving hundreds of structures which must be demolished or renovated, it is essential that the Director of Demolition and Restoration be given the full support of the city administration. It is my purpose to call together all of the department officials concerned in this matter, and instruct those officials to give complete co-operation to the director so that we may enlist our full forces in an effort which, to my mind, will have a great bearing on the future health of our city. No city can hope for substantial progress, or even hope to hold its own, if structural eyesores dot the city in increased profusion. It is expected that federal aid may be possible when the program of the city has been formulated and after initial steps indicating official recognition of the problem have been taken.

In order that the program of demolition and restoration may begin at once I most respectfully request the approval of your Honorable Body, at today's meeting, of the order herewith submitted

Respectfully,
J. B. HYNES, Mayor.

July 17, 1953.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mayor Hynes:

The committee appointed by you herewith reports its recommendations as to the steps necessary to further activate and strengthen the work of your City of Boston Neighborhood Rehabilitation and Conservation Program in the demolition and removal of abandoned property.

1. Dwelling units in Boston are being abandoned at such an alarmingly rapid rate, that immediate action should be taken by the city. Spot checks by the committee indicate that there are probably nearer 2,000 buildings, rather than 600 (453 vacant and abandoned—149 dilapidated but occupied) buildings, as scheduled in the city survey of May 18, 1956, which have deteriorated to such a point that they cannot be repaired.

2. The amount of abandonment is so great and so extensive that the problem of demolition and removal of these buildings must be met head-on, if the Neighborhood Rehabilitation Program is to continue. Preliminary consultation with representatives of the various city depart-

ments indicates that there is need for co-ordinating machinery to effect acquisition and removal of the abandoned properties.

3. The primary requirement for an effective Rehabilitation Program is the prompt appointment of a full-time Co-ordinator with adequate experience in this line of effort, to tie together the full force of the various city departments on this one problem—preferably designated as a "Director of Demolition and Restoration," assigned to the Mayor's personal staff, having full authority to use the departments which have statutory control over various phases of the problem and assisted by an experienced attorney.

Such a Co-ordinator should devote his time exclusively to the acquiring and razing of abandoned properties for the city. He should have the assistance of an over-all advisory committee for the counseling and support which they might bring to his work. Such a committee might well include an attorney, builder, real estate broker, social worker, banker and a city Councilman.

A budget of \$15,000 might be adequate for the first year's operation.

Very truly yours,

ROBERT M. MORGAN.
WILLIAM F. KEESLER.
HENRY H. PIERCE.
THOMAS J. GIBLIN.
WILLIAM B. CAROLAN.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended, the City Auditor be and hereby is, authorized to transfer from the appropriation for Reserve Fund, \$25,000 to the appropriation for Demolition or Restoration of Abandoned Properties, \$25,000.

Referred to the Executive Committee.

APPROPRIATION FOR OFF-STREET PARKING FACILITY AT CODMAN SQUARE.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1956.
To the City Council.
Gentlemen:

In pursuance of the program of the city to construct parking areas at local shopping centers, the Real Property Board, at its recent meeting of August 2, has voted to construct a parking space in the Codman Square section of the city.

The location has been admirably chosen, for it is directly in the rear of the center of the shopping area. Eighty automobiles will be accommodated in this parking space and the total cost of its construction will be \$90,000.

The funds for the construction of local parking areas are provided through the parking meter fees, obviating the necessity of appropriating taxes for this purpose.

I respectfully request your Honorable Body to give approval to this proposal for a Codman Square off-street parking facility as promptly as possible so that construction may begin, and so that the facility may be in use prior to the Christmas season.

I respectfully recommend approval of the accompanying order for the transfer of \$90,000 for a parking facility at Codman square, Dorchester.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Real Property Department,
August 8, 1956.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Real Property Board held on August 2, 1956, on motion duly made and seconded, it was unanimously

Voted, That the chairman is directed to write to his Honor, the Mayor, requesting him to ask the City Council for an appropriation of funds in the amount of \$90,000 to be used for the construction of the proposed Codman Square off-street parking facility.

The said funds are to be transferred from the "Parking Meter Fees" fund to the Real Property Department for the acquisition, construction, and maintenance of the said proposed Codman Square off-street parking site.

HERMAN CARP,
Commissioner of Real Property,
Chairman, Real Property Board.

Ordered, That under the provisions of section 22B of chapter 40 of the General Laws, as established by chapter 776 of the Acts of 1949, the sum of \$90,000 be, and hereby is, appropriated from the special account, "Parking Meter Fees," to be expended by the Board of Real Estate Commissioners, for acquiring off-street parking areas and facilities and constructing or reconstructing and resurfacing such areas and facilities in the Codman Square district.

Referred to the Committee on Appropriations and Finance.

ABANDONMENT OF EASEMENT IN WYVERN STREET, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, August 10, 1956.
To the City Council.
Gentlemen:

I transmit herewith communication from George G. Hyland, Commissioner of Public Works, relative to abandonment of a portion of certain sewer easements acquired under an order of taking dated June 27, 1899, and recommend the adoption of the accompanying order authorizing abandonment of said portion of these sewer easements as requested by the Commissioner of Public Works.

Respectfully,
J. B. HYNES, MAYOR.

City of Boston,
Public Works Department,
August 8, 1956.

Hon. John B. Hynes,
Mayor of Boston
and
City Council.
City Hall.
Gentlemen:

By an order of the Board of Street Commissioners of the City of Boston dated June 27, 1899, and approved by the Mayor on the same date, the City of Boston acquired easements for sewerage purposes in certain private lands in the West Roxbury district of Boston, as shown on a plan marked, "City of Boston, Plan No. 61, Sewerage Works, Neponset Avenue Branch of Stony Brook, West Roxbury, December 30, 1898, William Jackson, City Engineer."

No damages have been paid as a result of these takings, and, in fact, there has been no construction pursuant to the order of taking. It is my opinion that a portion of the easements acquired under the above-mentioned order is no longer required for public purposes, and I therefore recommend that the portion of the original easements, as shown on a plan marked "City of Boston, Wyvern Street, West Roxbury, August 2, 1956, George G. Hyland, Commissioner of Public Works," be abandoned.

Respectfully,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, By an order of the Street Commissioners of the City of Boston dated June 27, 1899, and approved by the Mayor of Boston June 27, 1899, and recorded with Suffolk Registry of Deeds on July 5, 1899, Book 2618, page 613, the City of Boston acquired by eminent domain an easement for sewerage purposes in certain private lands in the West Roxbury district of the City of Boston, shown on a plan marked "City of Boston, Plan No. 61, Sewerage Works, Neponset Avenue Branch of Stony Brook, West Roxbury, December 30, 1898, William Jackson, City Engineer"; and

Whereas, The Commissioner of Public Works of the City of Boston has determined that a portion of said easement is no longer required for public purposes; and

Whereas, No awards for damages were awarded as a result of the aforesaid taking for sewerage purposes; now, therefore, it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized in the name and behalf of the City of Boston to execute and cause to be recorded an instrument declaring that the easement for sewerage purposes in the following-described parcel of land, being a portion of the aforesaid taking dated June 27, 1899, be abandoned:

A certain parcel of land in the West Roxbury district of Boston bounded:

Northeasterly by Wyvern street by two measurements, eight and 88/100 (8.88) feet and one and 13/100 (1.13) feet; southeasterly by land of Norton, one hundred twenty-seven and 66/100 (127.66) feet; northeasterly by the same, one hundred ninety-three and 80/100 (193.80) feet; southeasterly by land described in the order of taking as taken from James Byrne, guardian, and from Thomas F. Dolan and Catherine A. Dolan, ten and 52/100 (10.52) feet; southwesterly by other land of Norton, two hundred two and 31/100 (202.31) feet; and northwesterly by the same, one hundred thirty-two and 93/100 (132.93) feet; containing three thousand two hundred eighty-three (3,283) square feet, more or less, being shown on plan titled "City of Boston, Wyvern Street, West Roxbury, August 2, 1956, George G. Hyland, Commissioner of Public Works, James W. Haley, Chief Engineer, Survey Division, Public Works Department," on file with the Public Improvement Commission.

Referred to the Committee on Public Lands.

APPROPRIATION FOR INSTALLATION OF PARKING METERS.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1956.
To the City Council.
Gentlemen:

I am requested by the Chairman of the Boston Traffic Commission to provide \$10,000 from parking meter revenues for the purpose of purchasing 200 meter heads. These meter heads are necessary for replacement purposes, and to complete installations in new locations. The immediate need is for about 100 meter heads. It is necessary, however, to have another 100 meter heads in reserve to provide for future needs and for loss of meter heads through damage or vandalism.

I respectfully request passage of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
August 16, 1956.

Hon. John B. Hynes,

Mayor of Boston.

Dear Mr. Mayor:

Our Parking Meter Division informs me that all of our parking meters are in operation on the streets of the city and that we do not have a sufficient number of spare meter heads for replacements and repairs.

Vandalism has been a factor which has caused us to use a considerable number of meter heads through damage or theft, and of course the toll taken by accidents involving automobiles knocking down meters and meter posts requires us to have a supply on hand for replacement purposes.

In addition, there are various locations where application has been made for the installation of parking meters and which locations have been approved by the Traffic Commission. These are often extensions of present locations or they involve small numbers of ten to twenty in public squares where there are not now meters but where there have been requests from merchants for meter installations.

Accordingly, I am submitting this information and a request for the sum of \$10,000 from our parking meter revenues for the purpose of advertising and awarding a contract for 200 meter heads. This department would supply the meter posts and do the necessary installation work, so it is estimated, based on recent prices, that \$10,000 would purchase approximately 200 meter heads.

About 100 of these would be placed in service at once, leaving us only 100 remaining as reserves. We now have 8,370 parking meters in service.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.

Ordered, That the sum of \$10,000 be, and the same hereby is, appropriated from the revenue received from parking meter fees, to be expended by the Boston Traffic Commission for the acquisition and installation of parking meters.

Referred to the Committee on Appropriations and Finance.

ORDINANCE FIXING FEES FOR LICENSES AND PERMITS AND CHARGES FOR CERTAIN SERVICES AND WORK.

The following was received:

City of Boston,
Office of the Mayor, August 20, 1956.
To the City Council.
Gentlemen:

On May 14, 1956, I submitted to your Honorable Body a new schedule of fees for most licenses and permits granted by the City of Boston. On July 9, your Honorable Body rejected this ordinance without prejudice.

I now resubmit the same ordinance and schedule of fees and service charges as that submitted on May 14. In my opinion, the present fees charged by the city are not reflective of the time and labor involved in the issuance of licenses and permits. It is estimated that the passage of the new schedule as proposed in the ordinance will increase the revenues of the city by approximately \$300,000 annually. Because of rising expenditures in almost every city and county department and in the School Department it is most necessary that the city obtain, from whatever source possible, additional income to meet higher costs of government.

Therefore, I most earnestly request your Honorable Body to give the new schedule of fees your approval, and I recommend passage of the accompanying ordinance.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Office of the Mayor, August 20, 1956.
To the City Council.
Gentlemen:

Chapter 222 of the Acts of 1949 empowered the City of Boston to fix by ordinance the fees for most licenses and permits granted under the authority of statutes where the entire proceeds of the fee form part of the income of the city, and also the charges to be paid for services rendered or work performed by the city for any person or

class of persons unless the service is rendered or work performed as part of the general services furnished for the benefit of the citizens of the city as a whole. By an express provision in the statute, unless its terms are explicitly nullified by a subsequent statute, a fee or charge fixed thereunder shall apply notwithstanding any general or special law fixing a different fee or charge, or imposing any limitation on the amount thereof, or designating a particular board or officer to fix said amount.

Ever since the passage of chapter 222 of the Acts of 1949, as opportunity has from time to time presented itself, members of the Law Department have worked upon an ordinance which not only would exercise in a comprehensive way the broad power vested by said chapter but also would serve as a general index to licenses, permits and special services and to the provisions of law pertaining thereto. At long last the work of preparing this ordinance has been completed, and it is transmitted to you herewith, together with a table of changes setting forth in summary fashion the chief differences between existing fees and charges and those proposed.

In the preparation of the ordinance, consideration has been given to the report made by the Boston Finance Commission on February 7, 1956, as well as to many suggestions from other sources concerning proper fees and charges. Suffice it to say that, in the light of current conditions, present fees and charges would be reasonably adjusted by the ordinance transmitted herewith. I recommend its adoption.

Respectfully,
JOHN B. HYNES, Mayor.

(The ordinance accompanying the foregoing message is a resubmission of the ordinance recommended by the Mayor on May 14, 1956, which appears in the City Council Proceedings of May 14, 1956, on pages 141 to 163, inclusive, except for a change in section 12, in the effective date of said ordinance, if adopted, from July 1, 1956, to November 1, 1956.)

Referred to the Committee on Ordinances.

CONGRATULATIONS TO SENATOR JOHN F. KENNEDY, CONGRESSMAN JOHN W. MCCORMACK, AND MAYOR JOHN B. HYNES.

Coun. McLAUGHLIN offered the following:

Whereas, The Democratic party has just concluded its National Convention; and

Whereas, This convention was conducted at a time in the history of the United States of America when courageous leadership is essential to the future well being of this nation and the world; and

Whereas, Strong, fresh, vibrant, and intelligent young men are needed to carry on the fight to maintain the government of the United States in the manner which best serves all the people, and best enables the people to realize the constitutional guarantee of life, liberty, and the pursuit of happiness; and,

Whereas, There was a great need to bring forth new personalities upon whom the heavy mantle of dynamic leadership of the Democratic party eventually could be placed by our present leaders for the continuation of the fight for constant improvement of the general welfare of our people which these leaders have been so courageously making; and

Whereas, This convention has brought before the American people a group of young political leaders capable of fulfilling these great responsibilities, but none with any greater stature, courage, and ability than the junior senator from the Commonwealth of Massachusetts, John F. Kennedy; and,

Whereas, Senator Kennedy, by the manner in which he narrated the film "Pursuit of Happiness," by the force and dignity with which he nominated the Democratic Standard Bearer—Adlai E. Stevenson, of Illinois, by the magnificent fight he made for the nomination for the high office of Vice-President of the United States, and by the gentlemanly and courageous manner in which he accepted defeat, maintained the highest tradition of the Democratic party, and reflected great honor and credit upon his state, his nation, his family, his countless friends and supporters, as well as himself; now, therefore, be it

Resolved, That the Boston City Council, in meeting assembled, extends its heartfelt congratulations to Senator John F. Kennedy, and its best wishes for a lifelong continuance of his brilliant career in public service, and outstanding leadership in the Democratic party.

Coun. FOLEY moved to amend the foregoing resolution by adding the following words:

"Be it further resolved, That the Boston City Council further extends its congratulations and thanks to the Honorable John B. Hynes, Mayor of the City of Boston, for his brilliantly effective efforts to bring to Massachusetts the honor of the nomination for the Vice-Presidency of the Honorable Senator John F. Kennedy by persuasion of those many prominent municipal officials throughout the country familiar to him as a result of his prominence in the United States Conference of Mayors.

And be it further resolved, That the Boston City Council further extends its congratulations and thanks to the Honorable Congressman John W. McCormack, 12th Massachusetts Congressional District, for his use of his enormous prestige at the Democratic National Convention to secure the nomination of the Honorable John F. Kennedy for the office of Vice-President of the United States."

The motion was carried.

Coun. AHEARN in the chair.

The foregoing resolution as amended was adopted under suspension of the rules.

DEATH OF JAMES H. MOONEY.

Coun. MCCORMACK offered the following:

Whereas, The untimely passing of James H. Mooney, Superintendent of Construction in our Department of School Buildings, results in the loss of one of our most valuable city employees; and

Whereas, Mr. Mooney won state-wide and nation-wide recognition as an authority on building codes and fire prevention; and

Whereas, During World War II, Mr. Mooney set up a model plant for protection of buildings in air raids—which was adopted by cities throughout the nation—and later served on President Truman's Conference on Fire Prevention; and

Whereas, James Mooney, a disabled veteran of World War I, received several decorations from the French government; therefore be it

Resolved, That the Boston City Council, in meeting assembled, extends its heartfelt sympathy and condolences to the wife and family of James H. Mooney who, throughout his lifetime, served his city, his state, and his country, with great distinction.

The resolution was adopted by a unanimous rising vote.

SIDEWALK ON COREY STREET.

Coun. WHITE offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Corey street (northerly side), from Keane road to Ledgewood road, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edge-stones, under the provisions of chapter 252 of the Acts of 1951.

Passed under suspension of the rules.

PROPOSED ASSOCIATION OF CITY AND TOWN OFFICIALS OF GREATER BOSTON.

Coun. FOLEY and MCCORMACK offered the following:

Ordered, that his Honor the Mayor be requested, as Mayor of the largest city in Greater Boston, to take the initiative in forming an association composed of the mayors, city councillors, aldermen, city managers, and members of the boards of selectmen of the cities and towns of Greater Boston, such association to meet at least annually and more often as the rules and bylaws of the association may provide.

Passed under suspension of the rules.

BLUE CROSS—BLUE SHIELD DEDUCTIONS.

Coun. McDONOUGH and KERRIGAN offered the following:

Ordered, That his Honor the Mayor be requested to withhold the monthly Blue Cross-Blue Shield payments from the pay checks of municipal and county employees at the end of the pay period falling nearest the middle of the month rather than at the end of the month as is now the practice in order to lighten the burden of financial demands which are made on such employees at the end or start of any monthly period.

Passed under suspension of the rules.

HEAVY TRUCKING ON RIVER STREET, BLUE HILL AVENUE, AND MORTON STREET.

Coun. AHEARN offered the following:

Ordered, That his Honor the Mayor request the Traffic Commissioner to investigate the heavy trucking on River street, Blue Hill avenue, and Morton street, which is disrupting the peace and quiet of the private homes and hospitals, with a view to correcting this disturbance.

Passed under suspension of the rules.

ADEQUATE LIGHTING ON CUNARD STREET, ROXBURY.

Coun. AHEARN offered the following:

Ordered, His Honor the Mayor is requested to direct the Commissioner of Public Works to provide for the installation of adequate lighting on Cunard street, Roxbury, between Columbus avenue and Cabot street.

Passed under suspension of the rules.

REPAIR OF PIER AT COMMERCIAL BEACH.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Parks and Recreation Commission to repair or

reconstruct and maintain the lower section of the pier located at Commercial Beach, so called, in the North End section of the City of Boston.

Coun. McDONOUGH moved to amend the foregoing order by adding the following words: "and the fish pier that is now blocked off at Castle Island." The motion was carried.

The order as amended was passed under suspension of the rules.

Later in the session Councillor McDonough moved reconsideration of the foregoing vote for the purpose of withdrawing his amendment to the foregoing order. The motion to reconsider prevailed.

On further motion of Councillor McDonough the amendment was withdrawn.

In connection with the foregoing order Councillor McCormack offered the following communication:

The Commonwealth of Massachusetts,
Office of the Secretary,
State House, Boston.

Resolutions Memorializing the City of Boston to Repair or Reconstruct, and Maintain, a Certain Pier in Said City.

Resolved, That the General Court of Massachusetts hereby memorializes the City of Boston to repair or reconstruct, and maintain, the lower section of the pier located at Commercial Beach, so called, in the City of Boston; and be it further

Resolved, That copies of these resolutions be sent forthwith, by the Secretary of the Commonwealth, to the Mayor of the City of Boston, and the members of the Boston City Council.

House of Representatives, April 12, 1956.

Adopted.

LAWRENCE R. GROVE, Clerk.
Senate, August 10, 1956.

Adopted, in concurrence.
THOMAS A. CHADWICK, Assistant Clerk,
Acting Clerk.

A true copy.

Attest: EDWARD J. CRONIN,
Secretary of the Commonwealth.

On motion of Councillor Piemonte, the order as originally submitted by him was passed under suspension of the rules.

COLLECTION OF TRASH IN SOUTH BOSTON DISTRICT.

Coun. FOLEY, MCCORMACK, and KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested to investigate the hours of collection of trash in the South Boston district with particular reference to the question of whether trash collection in the South Boston district is commenced at an unreasonable hour in the morning.

Passed under suspension of the rules.

RECESS.

On motion of Councillor White, the Council voted to take a recess at 3.39 p.m., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President McCormack at 3.58 p.m.

EXECUTIVE COMMITTEE REPORT.

Coun. WHITE, for the Executive Committee, submitted the following:

1. Report on message of the Mayor and order (referred today) for transfer of appropriation of \$25,000 from the Reserve Fund to appropriation for Demolition or Restoration of Abandoned Properties—recommending that the order ought to pass.

The report was accepted, and the order was passed, yeas 9.

INFORMATION ACCOMPANYING TAX AND WATER BILLS.

Coun. PIEMONTE offered the following:

Whereas, At the present time slips of paper containing information relative to locations where tax and water bills may be paid are attached by means of paper clips to tax and water bills sent out by the Collecting Division of the Treasury Department; and

Whereas, It appears that there might be savings in the cost of paper, in the cost of printing, and in the manual labor involved in attaching the paper clips if these slips of paper were eliminated and the said information were printed on the back of the bills; now, therefore, be it

Resolved, That his Honor the Mayor request the Director of Administrative Services to have the additional information now contained on the said slips of paper printed on the reverse side of the tax and water bills.

President MCCORMACK in the chair.

The foregoing resolution was adopted under suspension of the rules.

PARKING IN DOWNTOWN AREA AFTER 6 P.M.

Coun. PIEMONTE offered the following:

Whereas, The shortage of parking facilities is a handicap to many businesses in downtown Boston; and

Whereas, Certain businesses, especially restaurants, theaters, and hotels find the parking shortage in the evening to be as great a handicap, or even a greater handicap than the daytime parking shortage; and

Whereas, The flow of traffic in the evening is substantially less than the daytime traffic on most downtown streets; and

Whereas, In many areas the Traffic Commission has found it practical to restrict parking until 6 p.m. but to allow parking after this hour; be it, therefore

Resolved, That the Traffic Commission review parking regulations in the downtown area to discover if there are additional streets now fully restricted to traffic in which it would be possible to allow parking after 6 p.m. and thus facilitate evening business in downtown Boston.

The resolution was adopted under suspension of the rules.

MAYOR SAMUEL S. POLLARD OF LOWELL AT COUNCIL MEETING.

President McCORMACK, on behalf of the Boston City Council, welcomed Mayor Samuel S. Pollard of Lowell, who was invited to occupy the rostrum with the presiding officer.

STUDY OF PROPOSED IMPROVEMENTS AT BOSTON & ALBANY YARDS AND SOUTH STATION.

Coun. PIEMONTE offered the following:

Whereas, The construction of the proposed toll road into Boston, together with the proposed commercial and industrial developments at the Boston & Albany Railroad yards near Copley square and in the vicinity of South Station, would have a sweeping and permanent effect on the economy of this city; and

Whereas, The construction of this new road might require substantial adjustments in the existing transportation facilities and services; and

Whereas, The Boston City Planning Board is a most important agency of our city government, having been created according to chapter 12 of the Revised Ordinances of 1947 as amended by chapter 4 of the Ordinances of 1952 for the purpose of guiding all major improvements in the city; and

Whereas, The nine members of the Boston City Planning Board have been selected especially for their civic interest and knowledge of community development; and

Whereas, The Boston City Planning Board has the technical assistance provided by a large staff of graduate city planners; and

Whereas, The City Planning Board has prepared a General Plan of the City of Boston to insure the most efficient and economic development of our city; and

Whereas, The City Planning Board, from time to time, makes special studies for the development of business and residential areas and for the extension of community facilities; and

Whereas, It is the function of the City Planning Board to advise the Mayor on all major improvements, public or private, proposed for the city, be it, therefore,

Resolved, That this Body recommend to his Honor the Mayor that he call on the City Planning Board to study the above-mentioned improvements to provide him with its considered advice, and that his Honor the Mayor, at his discretion, make such advice available to this Body and to the general public.

The resolution was adopted under suspension of the rules.

HEAVY TRAFFIC ON MORTON STREET, BLUE HILL AVENUE, AND RIVER STREET.

A communication was received from Representatives Michael H. Cantwell, Michael Paul Feeney and Charles L. Patrone protesting heavy trucking on Morton street, Blue Hill avenue, and River street.

Referred to the Committee on Public Services and Recreation.

Adjourned, at 4.08 p.m., on motion of Councilor Piemonte, to meet on Monday, August 27, 1956, at 2 p.m.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

POLICE DEPARTMENT ORDERS

The resignation of Patrolman William G. Garnett, Division 1, having been presented, it is hereby accepted, to take effect Monday, September 3, 1956, at 5.45 o'clock p.m.

August 24.

General Order No. 2,257.

The following-named officers having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that they are incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that they be retired from active service in the Police Department, effective Friday, August 24, 1956, at 7.45 o'clock a.m.:

Lieut. John Foley, Division 3, 36 years of service.

Patrolman George A. Morrissey, Division 9, 35 years of service.

Patrolman William H. Hurd, Division 17, 36 years of service.

August 27.

General Order No. 2,258.

Acting under provisions of General Laws (Ter. Edit.) chapter 32, section 5 (State-Boston Retirement System, as amended), the Boston Retirement Board has approved for retirement the following-named police officer, effective at the close of business, Friday, August 31, 1956.

In view of this operation of law, after August 31, 1956, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

Patrolman Peter I. Furey, Division 16.

PROCEEDINGS OF SCHOOL COMMITTEE.

May 21, 1956.

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 11:55 P. M., the Chairman presiding.

Present: Messrs. Carr, Hurley, Lee, McInerney, and McMorrow.

BOND ISSUE FOR NEW SCHOOLS

The Secretary read the following letter to be sent to His Honor, the Mayor, John B. Hynes, with reference to a bond issue for additional school accommodations:

May 21, 1956.

Honorable John B. Hynes
Mayor of Boston
City Hall
Boston, Massachusetts
My dear Mayor Hynes:

In each of the years 1953 and 1954 the City Council approved a bond issue in the amount of \$5,000,000 for the purpose of acquiring land for, and constructing public schoolhouses, including originally equipping and furnishing such schoolhouses.

These bond issues total \$10,000,000 and this entire amount has been allocated for land, plans, construction and furnishing of necessary new school buildings and in certain cases additions to existing school buildings.

The school system is in need of far more construction than it has been possible to achieve under these two bond issues. The following school accommodations are only a few of those urgently needed to properly house our school pupils:

Dwight District, South End — Restoration of funds transferred to 1956 building project.

Lowell District, Jamaica Plain — Elementary School to replace Lowell School building.

Emily A. Fifield District, Dorchester — Addition of gymnasium for girls, Dorchester High School.

Henry L. Higginson District, Roxbury — Addition to David A. Ellis School.

Harvard District, Charlestown — Elementary School to replace Prescott, James A. McDonald and possibly the Warren and Corley buildings.

Dillaway District, Roxbury — Addition to Nathan Hale School and abandonment of Abby W. May School.

Boston Technical High School, Back Bay Fens or Franklin Park Area, Roxbury — High School to replace Boston Technical High School building to accommodate 1500 pupils.

Edmund P. Tileston District, Mattapan — New elementary school, Almont Street playground.

Christopher Gibson District, Dorchester — New elementary school to replace Christopher Gibson and Atherton buildings.

Agassiz District, Jamaica Plain — New elementary school to replace the Old Agassiz and possibly the Agassiz buildings.

In order to finance the complete construction and equipping of certain of these buildings and to finance the purchase of land and the preparation of architectural plans for others, the School Committee hereby respectfully requests that your Honor recommend to the City Council that it originate an additional \$5,000,000 loan order for the purpose of acquiring land for, and constructing, public schoolhouses and additions, including originally equipping and furnishing such schoolhouses and additions.

The School Committee will seek to have each new school and addition approved by the Massachusetts School Building Assistance Commission under Mass. St. 1948, ch. 645, as amended, and thereby obtain a State grant of approximately 20% of the cost of each school and addition including furnishings to help meet the payments on the loan.

This letter is in substitution for the letter of the School Committee to Your Honor under date of March 1, 1956.

Respectfully submitted

(Signed) Joseph Lee
Chairman

On roll call, the members agreed to submit the foregoing communication to His Honor, the Mayor, by the following vote:

SEWERAGE WORKS.

Proposals for Sewerage Works in Canterbury Branch of Stony Brook, West Roxbury, from Stony Brook Conduit to 140 Feet East of Canterbury Street.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Canterbury Branch of Stony Brook, etc. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price, will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Canterbury Branch of Stony Brook, Etc.," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of FRIDAY, SEPTEMBER 14, 1956, with a certified check for TEN THOUSAND (10,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. No. 36

PROPOSAL UNDER STUDY TO EXTEND MTA RAPID TRANSIT FROM KENMORE SQUARE TO RIVERSIDE IN NEWTON

Serious consideration is now being given to the possibility of transporting tens of thousands of commuters daily via the M.T.A. over the roadbed of the Highland Branch of the Boston & Albany Railroad from Kenmore square, through Brookline and Newton, to Riverside. The long-contemplated proposal was brought to a head on Tuesday, September 4, in a report submitted to the M.T.A. Trustees and Mayor John B. Hynes by the Conference of Civic and Business Organizations. This group is made up of five separate organizations interested in the solution of Boston's mass transportation problems.

Proposers of this extended 10-mile M.T.A. line envision a 28-minute ride from Park street to Riverside as compared with 35 minutes from South Station. The line would be connected by a tunnel from the present Kenmore M.T.A. station and a new Park Drive station on the Boston & Albany tracks. An estimated 2.8 million passengers a year would utilize a dozen existing stations along the present Highland Branch. Fares on the extension would be comparable with those now being charged by the railroad for service to the South Station.

The calculated effect on the City of Boston, as set forth in the report, would be twofold: (1) possible reduction or leveling off of the M.T.A. deficit by increasing the system's annual revenue; and (2) relief of the city's traffic congestion by transporting up to 60,000 people per hour in or out of Boston by handy public conveyance, cutting down the flow of automobiles through the downtown area. The report states that the project could "become a reality without adding to the M.T.A. deficit and without increasing the tax burdens on the cities and towns."

Mayor Hynes, while stating that the proposal required considerable study, called it a "very good proposition." He said he was particularly impressed with the two features aimed at the relief of traffic congestion downtown and a probable stemming of the skyrocketing deficit of the M.T.A. by bringing new patrons into the system. Boston pays 64 per cent of the M.T.A. deficit. The Mayor is chairman of the M.T.A. advisory board, comprised of officials of the

municipalities served by the system. Approval of this board is required, in the ordinary course of events, of the transit system's expenditures for capital improvements.

Also, the report states, the M.T.A., under the law, cannot extend its facilities outside the present transit system district unless the people of the municipality into which the extension is made approve it by referendum.

Frank W. Rourke, chairman of the M.T.A. Board of Trustees, said the trustees have agreed the plan is feasible and indicated further studies will be made. He said his board had made preliminary studies on such an extension because of suggestions that the East-West Toll Road would halt the Boston & Albany commuter service and "we are satisfied it would show a profit."

The report of the Conference of Business and Civic Organizations said that the suburban area west of Boston has increased 43 per cent in population between 1930 and 1955 but is still served by less rapid transit or rail facilities than any part of the metropolitan area. It added that if the M.T.A.'s most recent figures show such an extension to be practicable the trustees "should file a bill in the next session of the legislature authorizing it to undertake the project."

The group making the report is composed of the Boston Citizens' Council, Municipal Research Bureau, Retail Trade Board, Greater Boston Chamber of Commerce, and the Boston Real Estate Board.

Ernest Henderson, president of the Chamber of Commerce, strongly urged adoption of the proposal. Besides providing "vastly improved service to an ever-increasing population" of commuters into downtown Boston, the plan would preclude the necessity of spending millions for additional parking spaces in the city, Henderson pointed out.

"A single line of express trains can carry 60,000 persons per hour into the city," Henderson said. "The same number of people by car would require 11 new super-highways, and the end of these highways would need at least 70 downtown garages."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

JOHN J. GRIGALUS NAMED TO BOARD OF APPEAL

Mayor John B. Hynes, on September 6, appointed Atty. John J. Grigalus, of South Boston, as a member of the Board of Appeal in the Building Department, to fill the unexpired term of the late James A. McElaney.

The Board of Appeal considers all applications for building permits or for changes in zoning which have been refused by the departments concerned. Each member is paid \$25 a day up to the limit of \$3,500 annually.

Mr. Grigalus is at present an Associate Commissioner of the Metropolitan District Commission, on which board he has served for the past ten years. He is a former member of the Boston Board of Assessors, former assistant Corporation Counsel for the City of Boston, and former Title Consultant for the Boston Housing Authority. He is a graduate of Boston College and Boston College Law School. Mr. Grigalus' term on the Board of Appeal expires May 1, 1957.

ILLUSTRATED TRAVEL TALKS FEATURE FALL PROGRAM AT PUBLIC LIBRARIES

In step with the increased pace in travel, three illustrated series of programs on travel will be featured this fall in the Branch Libraries and the Central Library. Other series to be presented by guest lecturers prominent in their respective fields and experts on the topics under discussion will be centered on significant books, current affairs, and home living.

Programs

Illustrated Travel Chats, capturing the everlasting allure of renowned attractions and the adventure of little-known lands, will be presented by travelers, consular personnel, and tourist agents through their reminiscences, slides, and films at the Branch Libraries.

Festivals and Folkways, focusing on the cultural and social life of our friends abroad, will be related by international visitors, consular staff, and students of travel, and will be illustrated with slides and films at the Branch Libraries.

Literary Tours, highlighting landmarks of famous writers throughout the world, will be pictured in slides and films, and their relation to the masterpieces of literature will be interpreted by specialists at the Central Library on alternate Thursdays at 8:00 P.M., beginning October 11.

What Are the Best Books of the Decade? Writers, critics, and librarians will appraise the best novels, biographies, poetry, drama, travel books, and books on social relations at the Branch Libraries and in the Central Library on alternate Thursdays at 8:00 P.M., beginning November 15.

New Directions in Books and outstanding books of our times which have contributed challenging ideas in the social fields, including the "avant garde" writers, Sartre and Kafka, and the "little magazines," *Perspective* and *Partisan Review*, will be discussed at the Central Library by educators.

Polling Bostonians on Public Issues, based on three questionnaires on international and national affairs, will consist of panel discussions by a newspaper editor, a college faculty member, a readers advisor, and community leaders, and will take place at the Central Library on alternate Thursdays at 8:00 P.M., beginning October 4.

Creative Home Living, including interior decorating, gardening, do-it-yourself, and family recreation, will be presented by editors, home economists, and radio and television commentators with demonstrations, slides, and motion pictures at the Branch Libraries.

Children's Reading Institute will be offered at the Central Library by representatives of schools, libraries, publishers, parents, and other groups who will consider principles for stimulating more successful reading among children.

Groups

The Friends of the Library welcome those who like books and people and wish to help the Branch Library bring them closer together. There will be monthly or alternate monthly meetings in the evening at the Branch Libraries.

The Never Too Late Group is an educational activity with emphasis on the interests of senior adults and the encouragement of membership participation of men and women sixty years of age and over. Weekly or alternate weekly morning or afternoon meetings will be held at the Branch Libraries and the Central Library.

Book and Film Discussion Groups

Each group, which will be limited to thirty members, will hold alternate or weekly meetings of eight to sixteen evenings sessions.

Book and Film Discussion Groups will be offered also on any of the topics described under the above Programs, provided a minimum of fifteen persons enroll. If you are interested, please enroll in the Office of Home Reading and Community Services at the Central Library, or use the colored insert form.

American Heritage will discuss issues of today in the light of our heritage of ideas and experiences after a viewing of motion pictures and reading. *Discussion Groups for Adults and Young Adults* will meet at the Branch Libraries and the Central Library.

The Contemporary Novels Group, which will meet at the Central Library on alternate Tuesdays at 7:30 P.M., beginning October 9, will point up the enjoyment and value of novels which

inspire us to live in accord with our fullest capacities.

The Great Books Groups, which will meet at the Branch Libraries and the Central Library, will discuss the great writings in western civilization, aiming, through a lively exchange of ideas, to focus thinking on the issues which the books present.

Improved Reading Groups at the Branch Libraries and the Central Library will increase the understanding and enjoyment of reading in varied literary forms, such as the short story, biography, travel, drama, and poetry.

World Affairs Are Your Affairs will be the title of a discussion series at the Branch Libraries and the Central Library, which will begin with foreign trade, the special problems of countries in the headlines, to the world forces shaping tomorrow's society, as analyzed through film showings and current readings.

The public is invited to attend the programs and groups in the Branch Libraries and in the Central Library. Please signify your intention by filling out the colored insert form.

NEVER TOO LATE GROUP MEETS AT LIBRARY STARTING SEPT. 20

The eighth season of the *Never Too Late Group* will begin on September 20 and continue to meet every Thursday, at 2 P.M., in the Lecture Hall of the Central Library. Membership is open to all men and women sixty years of age and over who believe it is "never too late" to gain knowledge, to discover new interests, and to meet new friends. Emphasis is placed on the interests of senior adults and membership participation.

To extend the vacation mood, the September meetings will consist of two colored film programs on travel. On September 20, *Vacationing in England* will be illustrated by *Wings to England and Belgium*, with stopovers at Brussels, Bruges, the Duchy of Luxembourg, and the renowned sites in and around London. The charm and beauty outside the city are captured in the film, *London's Country*, highlighting sport, historic, and literary associations. The center of England where most of the people make their living from the land, is pictured through the four seasons of the year in *Heart of England*.

On September 27, *Vacationing in Japan* will view various aspects of Japanese life ranging from family life, social customs, economic development, to folktales. A genuine feeling of the Japanese people of today and a survey of the scenic land are portrayed in the films, *Japanese Family* and *So Small My Island*. The industrial growth is described by the film, *The Romance of Silk*. The animated film, *Tara, the Stone Cutter*, tells how a poor man, Tara, was granted his wishes to become the Emperor, the Sun, and the Mountain, only to learn that Tara, the man, "is the greatest power of all."

FIRE CHIEF RETIRES

The Mayor, on August 30, approved the following communication from the Fire Commissioner, retiring Edward N. Montgomery as Chief of the Fire Department:

DEAR SIR:

Under authority of St. 1892, c. 347, as amended by St. 1939, c. 237, I hereby retire, subject to your Honor's approval, the following member of the Fire Department of the City of Boston:

Edward N. Montgomery, 26 Annavoy street, East Boston, chief of department, who has become disabled while in the actual performance of duty; such retirement to become effective at 8 A.M., on the Wednesday next following your Honor's approval. Said member is not a member of the Boston Retirement System established by St. 1922, c. 521, nor is he a member of the State-Boston Retirement System established by chapter 658 of the Acts of 1945. Said member will be placed on the pension roll at an annual pension of \$7,266.67 which is two-thirds of his annual compensation.

For your Honor's information, I will add that Chief of Department Montgomery was born September 8, 1886, and was appointed to the Fire Department February 2, 1912. He has been on leave of absence since August 14, 1956, because of injuries received in the performance of his duties.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

A. J. O'KEEFE ASSIGNED TO WEST COAST PARK SESSION

Mayor Hynes, on August 20, approved the action of Parks and Recreation Commissioner Frank R. Kelley in appointing Arthur J. O'Keefe, Executive Secretary to that department, to attend the annual convention of the American Institute of Park Executives to be held in Seattle, Washington, from September 9 through 15.

Mr. O'Keefe has been a member of the American Institute of Park Executives for many years and he is the most recent past president of the New England Park Association, an affiliate of the American Institute. This is the first convention of the American Institute that he has been assigned to attend.

A further request has been made to allow Mr. O'Keefe to make a one-day stopover at Portland, Oregon, and San Francisco and Los Angeles, California, for an inspection of park facilities and methods in those cities.

Automotive Equipment

The Mayor, on August 29, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

On August 8, 1956, your Honor approved awards for certain items of auto-

motive equipment bid on publicly advertised proposal No. 106. Item 7 which called for one (1) Ford, No. 350, truck for the Traffic Commission was awarded to Bowers Motor Sales, Inc., who was the low bidder.

It has now been determined by the Traffic Commission that the F, No. 350, truck requested is not large enough to handle the needs of their department. It has now been requested by the Traffic Commission that the Ford F, 350 truck be canceled and a larger truck with a larger tail gate, a Ford F, 500, be purchased instead.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Bowers Motor Sales, Inc., for one (1) Ford, F 500, truck with equipment as specified at \$3,280. Trade-in allowance of \$10, which is the same allowance offered in previous bid has been deducted.

Total amount of contract will be \$3,280, less 2 per cent discount for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Automobile

The Mayor, on August 30, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

The Real Property Department has submitted a requisition for the immediate delivery of one (1) new 1956 Ford Country Squire, 8-cylinder. At a meeting of the Real Property Board held on August 7, 1956, it was voted unanimously that "in order for this department to function properly in regard to off-street parking and foreclosed real estate, above purchase be made immediately."

Written quotations have been received from three local Ford dealers. Lowest bid has been submitted by Bowers Motor Sales, Inc., at a price of \$2,968.20, net.

Authority is therefore requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Bowers Motor Sales, Inc., for one (1) new 1956 Ford Country Squire, 8-cylinder, equipped with Fordomatic transmission, fresh air heater and defroster, spotlight, power steering, and underseal.

Total amount of contract will be \$2,968.20, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

HOSPITAL DEPARTMENT. Architectural Services

The Mayor, on August 30, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

On July 20, 1956, in response to a written request of July 13, 1956, your Honor authorized the engagement of the architectural firm of Shepley, Bulfinch, Richardson & Abbott, to conduct a survey of the future needs of the Boston City Hospital, at a cost of \$25,000.

At this time I would like to amend the aforementioned letter of July 13, to further request that public advertising be dispensed with in connection with that contract.

In view of the professional nature of the services involved, it is not felt that public advertising would serve any useful purpose.

Respectfully yours,

TRUSTEES OF THE HOSPITAL DEPARTMENT,
AND OF THE BOSTON CITY HOSPITAL,
by RICHARD J. CONDON,
President.

PARKS AND RECREATION DEPARTMENT.

Weighing Machines

The Mayor, on August 30, approved the award of a contract, without advertising, based on the following communication:

DEAR SIR:

For a number of years the Parks and Recreation Department has had a license agreement with Mills Automatic Merchandising Corporation, of Chicago, for operation and maintenance of weighing machines in public buildings under control of this department. For this privilege the licensee paid an annual rental of \$350. The machines are owned by the licensee.

Early in June the Mills Automatic Merchandising Corporation sold its Boston interests to Consumer Services, Inc., of 9 Belvidere street, Boston, and requested cancellation of its three-year agreement with us.

Consumer Services, Inc., through its president, Mr. Michael Napierkowski, is desirous of continuing the operation of weighing machines in our buildings under a new three-year agreement. The company will pay the same annual rental as heretofore and will furnish a surety bond as guaranty. As this weighing machine service is popular with patrons of our buildings, I believe it should be continued.

In my opinion there is nothing to be gained by publicly advertising for bids for this small concession.

I therefore respectfully request your approval to dispense with public advertising and to award a license for operation and maintenance of weighing machines in buildings of the Parks and Recreation Department to Consumer Services, Inc., 9 Belvidere street, Boston, for a three-year period beginning July 1, 1956, at an annual rental of \$350.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

REAL PROPERTY DEPARTMENT.

Architectural Services

The Mayor, on August 30, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

I hereby request your Honor's permission to engage the services of George A. Sherwood, architect, Room 824, Park Square Building, Boston, for architectural services on the emergency work on the exterior of the Old State House, in the City of Boston.

The above will include the preparation of drawings and specifications, the supervision of all phases of the demolition and reconstruction, the issuing of

such progress reports as we may request, the checking of the contractor's requests for payment, and the preparation of certificates, and the checking and approving of shop drawings.

The fee will be the standard 10 per cent as prescribed by the American Institute of Architects for work of this type.

In view of the nature of the professional services rendered, no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to the above-mentioned person without the usual form of advertising.

Very truly yours,

GEORGE P. DONOVAN,
Assistant Commissioner.

Emergency Bld'g Repairs

The Mayor, on September 4, approved the award of a contract, without advertising, based on the following communications:

DEAR SIR:

The old Houghton and Dutton Building, 1 Beacon street, Boston, Mass., which is under the care, custody, and control of this department and presently leased to the General Services Administration of the United States Government and occupied by the Boston Regional Office of the Veterans' Administration and the Regional Office of the Internal Revenue Bureau has a dangerous fracture on the northeast corner (Tremont Street side), running approximately 71 feet in length and in some areas 4 inches deep.

This condition was brought to our attention by the Building Department who recommended that immediate action be taken.

In keeping with the suggestion of the Building Commissioner, our department engineer, qualified in this type of work, made a further inspection. His report is attached.

Extensive damage has been caused to the interior of this building on the seventh, eighth, and ninth floors and particularly in the Manager's Office, General William Blake.

To complete the exploratory work which was required to make proper inspection, hang staging, remove brick to expose the steel piers the Clifford & Donahoe Construction Company, 47 Boylston street, Jamaica Plain, a highly reputable concern and thoroughly experienced in this type of work, was retained.

In order to temporarily remedy this dangerous condition it will be necessary to open the fracture to permit cement penetration to a depth of 4 inches, re-point northeast corner completely approximately 8 feet in width and 71 feet in length, re-point every bed and end joint and repair four fractured lintels.

In view of the foregoing and the attached report, and as time is an important factor and in my opinion nothing could be gained by publicly advertising, I respectfully request permission to dispense with public advertising and to award a contract to the firm of Clifford & Donahoe Construction Company, 47 Boylston street, Jamaica Plain, who are thoroughly familiar with the condition, in an amount not to exceed seven

thousand dollars (\$7,000), on a cost-plus basis.

Respectfully,

HERMAN CARP,
Chairman.

Report of Inspection

SUBJECT: 1 Beacon Street, Boston, Mass.

On the basis of an examination the fracture pattern in the brick pier located at the front (Tremont street) easterly corner of subject premises, together with an examination of a portion of the structural steel column within said pier which was exposed for purposes of inspection, I find as follows:

The steel column appears to be built-up column having its main axis at right angles to the front of the building (Tremont street) and composed of four angles, probably 4 inches x 4 inches x $\frac{1}{2}$ -inch, and a web plate, probably $\frac{1}{2}$ -inch thick, so the column dimensions are approximately 9 inches x 9 inches. This column has at least 12 inches of brickwork surrounding it on the exposed sides.

The steel column is badly corroded and pitted in the order of approximately one-half of the original thickness of the components. A fracture in the center of the surrounding brick pier extends vertically for several stories and the bed joints throughout have lost their mortar. This condition has permitted entrant moisture to damage interior plaster surfaces at the sixth and seventh floor levels, and contributes to column scale build-up.

The present situation is serious, potentially dangerous and requires prompt remedial measures. The best method, I should say, would involve removal of the brickwork at the building corner, an examination of the column by an approved engineer, scraping of column surfaces, the possibility of welding new flange and web plate reinforcement, removal of brick and stone ornamentation above the roof line, the waterproofing of the column and the rebuilding of the brick pier.

If this work cannot be done at this time, a method of retarding column scaling and entrant water must be undertaken. This work should include raking and cleaning all brick joints and fractures and filling such spaces with 1:2 mortar with lime added. This method will serve to retard the entrance of moisture but will not eliminate, of course, the basic, potential hazard.

If, administratively, you are unable to undertake the more expensive and positive reconstruction at this time and must needs resort to the temporary expedient, I recommend a maximum period of one year for its effectiveness. In my opinion, the hazard would not be increased during this period.

The Building Department must keep open its complaint action during the temporary repair period. It is suggested that the proper official of this department certify to the Building Commissioner your good intentions in this matter.

Sincerely,

PATRICK J. O'MALLEY,
Technical Assistant to Building Commissioner.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved the following:

Extension of time for the completion of the contract with Baker & Co., Inc., 3475 Washington street, Jamaica Plain, for bituminous concrete pavement in Austin street, Fairmount avenue, etc., from July 14, 1956, to August 31, 1956, for the reason that the contractor was delayed due to the inability to get steel during the strike.

Extension of time for the completion of the contract with Eastern Roads Company, Inc., 101 and 103 Terrace street, Boston, for repairing the pavement of the Sumner Tunnel, from September 11, 1956, until October 30, 1956. Due to high temperatures in the tunnel at the present time the mastic joints have a very adhesive quality, which makes it almost impossible to properly clean the granite blocks which are to be reused. On or about October 1, 1956, the contractor will re-enter the work when colder temperatures prevail, and the mastic will be more brittle and more conducive to cleaning blocks.

Extension of time for the completion of the contract with Baker & Co., Inc., 3475 Washington street, Jamaica Plain, for highway reconstruction work in Cummins Highway, from Harvard street to Mattapan square, from August 8, 1956, to October 31, 1956, because the State Department of Public Works voted to extend the time limit on the contract.

Extension of time for the completion of the contract with Manning Construction Company, Inc., 26 Manning road, Dedham, for bituminous concrete pavement in Guest street, Ward 22, from August 1, 1956, to September 1, 1956, for the reason that there was considerable delay in receiving edgestones on the job.

AMENDMENT TO ORIGINAL AWARD OF DAMAGES

The Public Improvement Commission has voted, and the Mayor has approved, the following:

That the amount of \$150 be, and the same hereby is, awarded to William J. and Mary F. Carey for all damages sustained under the order of the Public Improvement Commission and Mayor of June 2, 1955, for the laying out and construction of Emmonsedale road, West Roxbury.

That the amount of \$210 be, and the same hereby is, awarded to Harold E. and Mary A. Sanford for all damages sustained under the order of the Public Improvement Commission and Mayor of June 2, 1955, for the laying out and construction of Emmonsedale road, West Roxbury.

That the amount of \$400 be, and the same hereby is, awarded to Agness Marapoti for all damages sustained under the order of the Board of Street Commissioners and Mayor of September 15, 1953, for the laying out and construction of Vallaro road, Hyde Park.

FIRE DEPARTMENT ORDERS

August 30.

*General Order No. 49.***I. FIRE LIEUTENANT JOHN F. McNAMARA.**

It is with deep regret that the Fire Commissioner announces the death on August 20, 1956, of Fire Lieutenant John F. McNamara of the Fire Prevention Division. He was appointed to the department on November 1, 1912, and was promoted to lieutenant on January 6, 1939.

The funeral was held from the Timothy J. Mahoney & Sons Funeral Home, 644 Dudley street, Dorchester, at 8 A.M., Thursday, August 23, 1956, followed by a Solemn High Mass of Requiem at St. Kevin's Church, Columbia road, at 9 A.M.

The acting chief of department made the customary detail to act as funeral escort, and a number of uniformed members of the Fire Prevention Division were excused from duty in order to attend the services.

II. RETIREMENT.

The following retirement, in accordance with chapter 347, Acts of 1892, as amended by chapter 237, Acts of 1939, which became effective at 8 A.M., August 29, 1956, is hereby announced:

Fire Fighter-First Engineer Nathaniel H. Bowering, Engine Company 31.

Fire Fighter-First Engineer Bowering was appointed to the Fire Department on October 5, 1917. He was promoted to fifth engineer on April 25, 1919, to fourth engineer on April 23, 1920, to third engineer on March 9, 1938, to second engineer on July 11, 1940, and to first engineer on October 18, 1944. He leaves the department with the best wishes of his associates.

III. FIRE ALARM BOX INSTALLED.

The following fire alarm box which was established in General Orders, No. 60, November 14, 1955, has been installed and connected into circuit No. 25:

2639, Cummins Highway and Rowe street.

The following fire alarm box which was established in General Orders, No. 60, November 14, 1955, has been installed and connected into circuit No. 66:

2452, Perkins street, opposite Pondview avenue.

Company commanders will add Box 2639 to circuit card No. 25 and Box 2452 to circuit card No. 66.

IV. FIRE ALARM BOXES ESTABLISHED.

In the near future, the following fire alarm boxes will be installed:

13-363, Boston State Hospital, New Medical and Surgical Building.

3671, Cummins Highway and Favre street.

Company commanders will add Box 13-363 to assignment card for Box 363. Assignment of apparatus to Box 3671 will be the same as for Box 367, and assignment cards for this box will be distributed at a later date. Circuit numbers for both boxes will be announced when the boxes are installed.

V. RELOCATION AND CHANGE IN DESIGNATION OF FIRE ALARM BOX.

In the reconstruction of Cummins Highway, Fire Alarm Box 367 has been relocated from Brockton street to Woodhaven street. Since Cummins Highway is the dividing line between District 10 and District 8, this relocation will change this box from District 10 to District 8. The designation of this box will be changed to read:

367, Cummins Highway and Woodhaven street.

Company commanders will make the above change in designation on assignment card for Box 367.

The response of district chief to this box will be corrected by deleting District 10 and adding District 8.

By order of Fire Commissioner
FRANCIS X. COTTER.

LEO C. DRISCOLL,
Acting Chief of Department.

September 5.

*General Order No. 50.***I. PROMOTION.**

The following promotion, which will become effective at 8 A.M., Wednesday, September 5, 1956, is hereby announced:

Assistant Fire Chief (in charge of training and personnel) Leo C. Driscoll to chief of department.

II. RETIREMENT.

The following retirement, which will become effective at 8 A.M., Wednesday, September 5, 1956, is hereby announced:

Chief of Department Edward N. Montgomery.

Chief Montgomery was appointed to the Fire Department February 2, 1912. He was promoted to the grade of fire lieutenant, February 1, 1924, to fire captain, May 28, 1927, to district fire chief, May 13, 1932, to deputy fire chief, December 29, 1943, to assistant fire chief, October 19, 1955, and to chief of department, June 6, 1956.

Chief Montgomery leaves the department with the best wishes of his associates after more than forty-four years of creditable service.

III. REASSIGNMENT.

Effective at 8 A.M., Wednesday, September 5, 1956, Engineer of Motor Squad Edward D. Rooney, Jr., will be re-assigned as fire fighter.

IV. TRANSFER.

The following transfer will become effective at 8 A.M., Wednesday, September 5, 1956:

Fire Fighter Edward D. Rooney, Jr., from Motor Squad to Ladder 30.

By order of Fire Commissioner
FRANCIS X. COTTER.

LEO C. DRISCOLL,
Chief of Department.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage and water works in Caryll street, Dorchester. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price, will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sewerage and Water Works in Caryll Street, Dorchester," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of WEDNESDAY, SEPTEMBER 19, 1956, with a certified check for NINE HUNDRED (900) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

VOL. 48

SATURDAY, SEPTEMBER 15, 1956

No. 37

CITY TO PRESS FOR FEDERAL MONEY TO HELP DEMOLISH HAZARDOUS, ABANDONED BUILDINGS

Building wreckers this week are preparing to demolish fourteen abandoned dwelling houses in Charlestown. Thirty-one other structures in that section, and a total of about 500 adjudged firetraps in various sections of the city, have been condemned to extinction as Mayor John B. Hynes opens an all-out warfare on this serious blight to Boston's older neighborhoods. East Boston and South Boston are next on the demolition agenda.

All of the homes to be razed are in nests of old and highly inflammable structures, affording fair game to vandals, vagrants, and incendiaries, and are of consequent danger to the safety of whole neighborhoods.

A recent study by real estate experts, made at the request of the Mayor, discloses that there are at least 2,000 structural units in Boston which come under the dilapidated or seriously run-down classifications, but a substantial percentage of these are regarded as fit for restoration.

The Appropriations Committee of the City Council will hold a routine public hearing Thursday, September 20, at 10 A.M., on the formal request of Mayor Hynes, for a half-million-dollar loan order to further the program. The Council has already given initial approval to the loan request.

Attorney John A. Murray, newly-appointed Director of Demolition and Restoration, is endeavoring to obtain a federal grant to match, and possibly exceed, the city's anticipated half-million-dollar appropriation to get the razing program on its feet. Mr. Murray cites a possibility of getting up to a million-and-a-half dollars in federal funds if Boston convinces the federal authorities of its willingness to win the fight against urban decay. To obtain United States money for such an operation, Mr. Murray said, the city must show that it is worthy of such federal assistance by developing a comprehensive and workable conservation and renewal program. This city, he added, has a good reputation in federal circles for its efforts in neighborhood conservation and rehabilitation and along the lines of urban renewal.

It is the hope of Mayor Hynes to step up the removal of hazardous and vacant buildings, even before

the cold weather sets in, to a schedule of fifteen per week.

Because of the legal complexities involved and the frequent difficulty of locating the true owners of the properties to serve notice on them to tear their buildings down, the program's progress will be slow. Many of the structures are in the names of "straws." Taxes on most of them are long overdue. Thirty-five of the houses studied last week by the Demolition Director and other experts are either structurally unsound or are fire or health menaces, or both. In the course of the Charlestown study the investigators found ten houses structurally sound and worth rehabilitation. All of the owners of these properties will be jointly requested by the Charlestown Neighborhood Conservation and Rehabilitation Committee to cooperate with the Mayor's rehabilitation program and repair and repaint them.

Elimination of approximately 500 abandoned structures is expected to find the city owning several hundred more parcels of real estate, in addition to the 3,500 it now owns through tax foreclosures.

Wherever the city is obliged to raze an abandoned structure, because of the owner's failure to comply with the law and remove it, the city will impose a lien on the land. If the owner fails to pay the charges, the city will have no alternative but to foreclose. It costs approximately \$1,000 to raze a single-unit wooden house and approximately \$1,500 to remove a brick house. By the sale of the properties taken over at the expiration of the statutory time limit, the city hopes to be reimbursed, in whole or in part, for the cost of demolishing the abandoned buildings. In all the sections where the abandoned houses are located there is a constant demand for homes and sites for parking areas and small businesses.

Meanwhile, all the fifteen Neighborhood Conservation and Rehabilitation Committees throughout the city are greatly encouraged in their work of curbing urban decay. In many instances, heretofore, property owners have been unwilling to fix up their buildings because of the presence of run-down, abandoned buildings on their streets.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

GOOD SAVING TO CITY IN NEW TAX APPEAL PROCEDURE

A new method of handling tax abatement appeal cases between the Board of Review of the Boston Assessing Department and the State Appellate Tax Board was approved this week by Mayor John B. Hynes. This change in procedure is expected to save the city many thousands of dollars in interest charges, Mayor Hynes said.

The change was suggested by Thomas A. Flaherty, Chairman of the Board of Review, which he explained in a letter as follows:

CHAIRMAN FLAHERTY'S LETTER

DEAR SIR:

Since assuming the duties of Chairman of the Board of Review I have been ever mindful of your concern over the interest money paid by the city in abatement cases. Examination of records in the Assessing Department disclosed that \$131,512 was expended for interest in 1940; this figure exceeded \$500,000 in 1954.

You are probably aware that the law requires the Board of Review to act on applications for abatements within three months of the date they are filed; otherwise, they are deemed to be denied. It would appear that previously in the majority of cases action has been deferred beyond the statutory period with the result that partial abatements could not be effected without the consent of the taxpayer. If the Board of Review is able to agree on a settlement during the subsequent ninety-day period during which an appeal may be filed at the Appellate Tax Board, the settlement on such a case is on the basis that interest on the refund covering the abated valuation is waived. Beyond this time, the city is liable for interest in all other cases, whether they are settled by the Board of Review or the Appellate Tax Board. A large number of applications are not settled for two or more years, and the interest paid out in these cases comprises the greater portion of the amounts specified above.

It is my purpose this year that all applications shall be adjudicated within the three-month period allowed by law for the Board of Review to act. It is during this period that the Board can grant such abatements as in their judgment the applicants are entitled to. The Corporation Counsel advises me that such abatements must be accepted and if an appeal is taken, the partial abatement granted will not be any part of the settlement involved in a decision of the Appellate Tax Board and, therefore, in-

terest charges are saved the city to the extent of the abatement already granted.

How Method Will Work

As an example of the manner in which this operation would work, let us take a parcel of property in the downtown section of the city assessed at \$600,000. The record shows that an abatement of \$200,000 has been granted for several years past. If it is determined after examination by the Board of Review that an abatement of only \$150,000 is justified this would be granted immediately and the taxpayer would then be required to appeal for any additional abatement. If he is successful in his appeal, interest would be paid only on that amount above the \$150,000 already granted by the Board of Review. Heretofore, when action was not taken by the Board of Review within the statutory ninety-day period, the interest would be payable on the total valuation abated by the Appellate Tax Board. It can be readily seen that through the proposed procedure the interest charges to the city will be materially reduced, although the result will not be reflected in the figures for the next year or two.

I am also recommending for your approval that all applications for abatement be processed through the deputy assessors who will submit their recommendations for settlement to the Board of Review. Currently, all cases in which the valuation is above \$100,000 are handled by the members of the Board of Review; and all matters involving valuations under \$100,000 are assigned to the deputy assessors. I consider this practice most unsatisfactory and believe that the suggested procedure will be advantageous to the city, as well as developing a more efficient method in disposing of abatement applications.

With the institution of this practice, the members of the Board of Review will be free to give their

full time to conducting pretrial hearings and other business of the Board such as regular meetings to dispose of processed applications.

If you approve of the proposals outlined above, I will appreciate advice to that effect so that a conference of all parties concerned can be arranged and the procedure planned prior to the time when action will be taken on applications filed on 1956 tax bills which are now being mailed.

Respectfully submitted,

THOMAS A. FLAHERTY,
Chairman.

MAYOR NAMES COMMITTEE OF CITIZENS TO STUDY NEW ZECKENDORF PLAN

Mayor Hynes, this week, announced the appointment of a general citizens' committee to study and advise with him on the proposals contained in the so-called Zeckendorf plan for the rejuvenation and redevelopment of certain sections of Boston.

The Mayor announced that the committee would be called together sometime later in the month after he has received information from various agencies which are concerned, in one way or another, with the features of the Zeckendorf proposal.

The committee is as follows:

Thomas G. Dignan, President of the Boston Edison Company, Chairman.

Charles F. Adams, President of Raytheon.

George Alpert, President of the New York, New Haven & Hartford Railroad.

William Keesler, Vice-President of the First National Bank.

John J. Barry, Vice-President of the National Shawmut Bank.

Thomas McDonough, Chairman of the Boston Planning Board.

Bertram Druker, Chairman of the Boston Real Estate Board.

Henry L. Shattuck, Chairman of the Municipal Research Bureau.

Thomas Hennessey, Vice-President, New England Telephone & Telegraph Company; Vice-President, Chamber of Commerce.

In addition to the above list, other names will be added to this committee from time to time.

MAYOR SEES RETURN OF RENT CONTROL UNLESS LANDLORDS USE CAUTION

In an appeal to the landlords of the city to exercise discretion in the handling of rent increases to their tenants, Mayor John B. Hynes, on September 11, issued this statement:

It has come to my attention that, since rent controls expired, some tenants in Boston have been required to meet two or three increases in their rentals.

I realize the increase in the tax rate makes it necessary, in some instances, to increase rents. However, there seems to be no logical reason why these increases should be immoderate, and no good reason why there should be a succession of rent increases.

I appeal to owners of rental properties to use discretion in setting rent schedules. Tenants are entitled to fair play. If they do not get it, there will be a strong demand for a return to rent control.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriations:

CITY PLANNING BOARD.

From 100, Permanent Employees, \$450, to 3, Materials, \$250, 4, Current Charges and Obligations, \$200.

PUBLIC WORKS DEPARTMENT.

Survey Division.

From 100, Permanent Employees, \$1,000, to 360, Office Supplies and Materials, \$1,000.

VETERANS' SERVICES DEPARTMENT.

Expenditures for veterans' benefits for June, 1956, show an increase of \$9,395.79 in comparison with expenditures for the corresponding period of 1955.

The 1,566 cases aided during the month of June, 1956, represented a total of 3,091 individuals benefited through the financial facilities of the Veterans' Services Department.

There were 125 cases closed during the month of June, 1956, because of obtaining employment, having been awarded unemployment compensation, receiving social security, and becoming ineligible to receive financial assistance for miscellaneous other reasons.

"I AM AN AMERICAN DAY" TO HAVE OFFICIAL CITY OBSERVANCE, SEPT. 16TH

Boston will officially observe "I Am An American Day," at 2 P.M., on Sunday, September 16, with appropriate ceremonies at the Hatch Memorial Shell on the Esplanade.

Participating in the ceremony will be a United States Navy band, the color guard drill team of Our Lady of Assumption Church, East Boston, and the Dixie Gospel Singers of the New Hope Baptist Church.

Chairman of the observance will be Frank Nietupski, department vice commander of the American Legion. Speakers will include: Rev. Rush W. D. Smith, department chaplain of the American Legion; Robert F. Murphy, the American Legion department commander; Lieut. Col. Paul J. Cozzicato, representing Governor Herter; Rabbi David B. Alpert; City Council President, Edward J. McCormack, Jr., representing Mayor Hynes; former Governor James M. Curley; Mrs. Alfred Hendrickson, past department president of the American Legion Auxiliary, and Rev. William Callahan, past department chaplain of the American Legion.

In connection with the observance of "I Am An American Day," Mayor Hynes issued the following statement:

"If patriotism were to lose its sacred place in the American way of life, this nation would suffer a shattering defeat before the enemies of our people. Since the days of Bunker Hill and Dorchester Heights the love of country has been the very symbol of our national life. It has stood before the world like a spiritual fortress and a bright light giving hope to the oppressed people of a darkening world.

"The Congress of the United States, at the suggestion of many thoughtful men of America, has set aside this day as 'I Am An American Day' to remind our people of a great privilege which is theirs and of the heavy responsibilities which this privilege entails. It is entirely fitting that we Bostonians who live in the very birthplace of American Freedom should solemnly and, I might say, devoutly observe this day.

"Let us pray to God that we will always have the right to say: I am not a chattel of the state; I am not a bondsman, I am not just a cog in an economic wheel, 'I Am An American' and may those words always have the meaning and significance that our founding fathers intended them to have."

MONTEBELLO RD. WIDENING

West Roxbury

The Public Improvement Commission has voted, and the Mayor has approved, the widening and construction of Montebello road, West Roxbury district, at the northwesterly and southwesterly corners of Washington street.

The project is described as follows:

The highway named Montebello road is hereby widened at the northwesterly and southwesterly corners of Washington street, and ordered constructed.

For the making of the aforesaid improvement, an easement for street purposes is hereby taken in the following-described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land supposed to belong to Lucille B. Sharmat, Trustee of Twentiversary Trust, bounded:

Southeasterly by the northwesterly line of Washington street, four and 42-100 feet; southwesterly by the northeasterly line of Montebello road, as it existed prior to this order, four and 42-100 feet; northeasterly by the northeasterly line of Montebello road, as widened under this order, seven and 30-100 feet on a curve of five and 15-100 feet radius, containing four square feet, more or less.

A parcel of land supposed to belong to Julius A. and Esther Bloom, bounded:

Northeasterly by the southwesterly line of Montebello road as it existed prior to this order, ten and 46-100 feet; southeasterly by the northwesterly line of Washington street, ten and 46-100 feet; southwesterly by the southwesterly line of Montebello road, as widened under this order, fifteen and 46-100 feet on a curve of eight and 97-100 feet radius, containing twenty-four square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land, shall be removed therefrom within thirty days following the city's recording of this order.

Boundaries of Project

Said Montebello road as hereby widened is bounded:

Southeasterly by the northwesterly line of Washington street, four and 42-100 feet; southwesterly by the northeasterly line of Montebello road, as it existed prior to this order, four and 42-100 feet; northeasterly by the northeasterly line of Montebello road, as hereby widened, seven and 30-100 feet on a curve of five and 15-100 feet radius; northeasterly by the southwesterly line of Montebello road as it existed prior to this order, ten and 46-100 feet; south-

easterly by the northwesterly line of Washington street, ten and 46-100 feet; southwesterly by the southwesterly line of Montebello road, as hereby widened, fifteen and 46-100 feet on a curve of eight and 97-100 feet radius.

No betterments are to be assessed for the making of the aforesaid improvement.

ACTION ON DAMAGES

Voted, That this commission determines that the undermentioned persons sustain damages in their estates by the making of the public improvement consisting of the widening of Montebello road, West Roxbury, at the northwesterly and southwesterly corners of Washington street, under the order of this commission of August 22, 1956, in the amounts hereinafter respectively set against them; and awards said amounts therefor.

Lucille B. Sharmat, Trustee of Twentiversary Trust, 4 square feet, \$1.

Julius A. and Esther Bloom, 24 square feet, \$1.

MAYOR SUPPORTS PLEA FOR HIGHER WOOL TARIFF

The following telegram was sent by Mayor Hynes, on September 12, to President Eisenhower, Senator Saltonstall, and Senator Kennedy:

AS MAYOR OF THE CITY OF BOSTON, WHICH IS THE LARGEST WOOL MARKET IN THIS COUNTRY, MAY I APPEAL ON BEHALF OF THOSE CONNECTED WITH THE WOOLEN AND WORSTED INDUSTRIES FOR YOUR ASSISTANCE IN PROVIDING A HIGHER TARIFF ON WOOLEN AND WORSTED CLOTH COMING INTO THE UNITED STATES FROM LOWER LABOR COST COUNTRIES WHICH PAY THEIR WOOLEN AND WORSTED MILL WORKERS ONLY A FRACTION OF WHAT THIS INDUSTRY PAYS IN THE UNITED STATES. FOR EXAMPLE, OUR WORKERS RECEIVE \$1.55 PER HOUR AS AGAINST 16 CENTS IN JAPAN, 25 CENTS IN ITALY, AND 40 CENTS IN ENGLAND. THIS IS A DESPERATE SITUATION FOR OUR WOOLEN AND WORSTED MILLS TO BE CONFRONTED WITH. I ALSO WOULD LIKE TO STRESS THE IMPORTANT ITEM OF NATIONAL DEFENSE. IN CASE OF ANY SERIOUS TROUBLE WHICH MIGHT EVENTUATE OUR MILLS WOULD BE NECESSARY TO PROVIDE CLOTHING, BLANKETS, ETC., FOR OUR ARMED FORCES. OUR WOOLEN INDUSTRY WILL WITHER ON THE VINE AND THOUSANDS OF OUR PEOPLE WILL BE JOBLESS UNLESS SOME PROTECTION IS QUICKLY PROVIDED THIS INDUSTRY.

JOHN B. HYNES,
MAYOR OF BOSTON.

WIDENING OF CENTRE ST., WEST ROXBURY

The Public Improvement Commission has ordered, and the Mayor, on September 6, approved the widening and construction of Centre street, West Roxbury district, at various locations, between Spring street and Grove street.

The project is described as follows:

The highway named Centre street is hereby widened at various locations, between Spring and Grove streets, and ordered constructed.

CONTRACTS AWARDED WITHOUT ADVERTISING

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

Storage Space

The Mayor, on September 6, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

In connection with the processing of the Police and Voting Lists by the Addressograph-Multilith method, it is noted that this method will entail storage of addressograph plates from year to year inasmuch as the plates will be of a permanent nature. Originally, it had been contemplated that a wall would be built to enclose the storage space for these cabinets. A survey has been made by the Administrative Services Department and a suggestion has been made that, instead of enclosing the addressograph storage files, which would still have the addressograph-multilith operation somewhat spread out in the plant, a room in the basement not presently being used would be an ideal location for the Addressograph-Multilith Division. This room is completely enclosed with locking facilities.

In order to utilize this room, it will be necessary to have certain electrical work done so as to provide proper lighting and machine outlets. Stanton Electrical Company, Inc., who have done the other electrical work at the Printing Plant, have submitted an estimate for the work suggested by Mr. John Scully of the Administrative Services Department, the cost not to exceed \$2,500.

Inasmuch as this is considerably less than the amount of money anticipated to enclose the addressograph files, and inasmuch as the ultimate result will be far superior, permission is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Stanton Electrical Company, Inc. The amount of the contract is not to exceed \$2,500, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BUILDING DEPARTMENT. Razing of Buildings

The Mayor, on September 10, approved the award of a contract, without advertising, based on the following communication:

DEAR MR. MAYOR:

The buildings numbered 17 to 39 Newcomb street, Ward 8, comprising twelve vacant and dilapidated structures, have been examined by this department and have been found to be in a serious condition. The general public safety requires, therefore, that they be razed at once. The owners have neglected or refused to take action. We have solicited bids and have received the following:

J. J. Duane Company, \$8,800; Central Building Wrecking Company, \$9,300; Fellsway Wrecking Company, \$9,300; Polcari Wrecking Company, \$9,600; Mystic Building Wrecking Company, \$10,200; American Building Wrecking Company, \$11,700; New York Building Wrecking Company, \$10,800; Hub Building Wrecking Company, \$14,400.

In view of the emergency nature of this work I ask your Honor's permission to dispense with the pertinent section of the City Charter and to award the contract, without advertising, to the J. J. Duane Company in the sum of \$8,800.

The amount necessary to pay for this work was covered in the recent transfer of \$10,000 to the Unsafe Buildings Account, which transfer has been approved by your Honor.

Very truly yours,

CHARLES A. CALLANAN,
Building Commissioner.

POLICE DEPARTMENT ORDERS

September 4.

General Order No. 2,261.

The resignation of Patrolman Nathaniel W. Kettendorf, Division 3, having been presented, it is hereby accepted, to take effect Wednesday, September 12, 1956, at 7:45 o'clock A.M.

September 7.

General Order No. 2,264.

The rules and regulations of the Police Department are hereby amended as follows, effective Monday, September 17, 1956, at 7:45 o'clock A.M.:

RULE 65, HACKNEY CARRIAGES.

On page 94, section 2, insert after paragraph 4 the following new paragraph:

"The leasing or renting of taxicabs by licensed owners is expressly forbidden, and any infraction of this rule shall be considered sufficient grounds for revocation of the owner's hackney carriage setup license and medallion."

September 7, 1956.

General Order No. 2,265.

(This routine order of the Police Commissioner spells out, in detail, the election day instructions to police officers regarding their duties at the State Primaries on Tuesday, September 18. This order is issued prior to every primary and election held in the city. Because of the great amount of detail involved, which is specific interest only to the police officers assigned to the voting precincts, the City Record will not print the text of the order. Anyone wishing to consult the text of the order may do so at the City Record office, Room 35, City Hall, Boston.)

LEAVE OF ABSENCE TO CUSTODIAN

A communication was received from the Superintendent, under date of June 21, 1956, recommending that Joseph W. Sennott, junior building custodian, Administration Building, be granted leave of absence without pay, for a period of three months, June 22, 1956 to Sept. 21, 1956, inclusive.

The communication was placed on file and on roll call the leave of absence without pay was granted by the following vote:

YEAS—Messrs. Carr, Hurley, Lee, McInerney, and McMorro—5.
NAYS—0.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS
Secretary.

June 26, 1956

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 10.20 P.M., the Chairman presiding.

Present: Messrs. Carr, Hurley, Lee, McInerney, and McMorro.

APPROVAL OF MINUTES

The reading of the minutes of the meetings of May 8, 17, 21, and 29, 1956, was omitted, the Committee approving them as printed.

It was agreed that the following extracts from the Conference Notes of Apr. 16, 1956, be printed in the record of this meeting:

DEBATE ON NEW TEXTBOOK WRITTEN BY BOSTON TEACHER ON HISTORY OF MASSACHUSETTS

For Use in
State-Required Study

by Chairman
With Preliminary Report

Chairman: The Opinion Research Corporation of Princeton, New Jersey, in a recent poll of high school seniors' opinion in America, reports that 55 per cent believe in the basic objective of Karl Marx, and 82 per cent think that the American business system is a failure.

Agents of the F. B. I. unofficially inform me that the top officials of the F. B. I. believe that we are losing the struggle for men's minds in America, and that the Communists are winning the struggle for men's minds in America.

I will outline for you exactly how this is happening in the Boston Schools.

FIRST, we have Karl Marx's preliminary step toward revolu-

tion. In his Communist Manifesto, he wrote:

"The workingmen must work . . . for a more decided centralization of power in the hands of the central government. They must not let themselves be misled by democratic talk about freedom of municipalities, self-government, and so forth. It is not to be tolerated under any circumstances that every village, every town, every province should be a new obstacle in the path of the revolutionary activity which can emanate in full strength only from the center."

This danger was foretold by Franklin D. Roosevelt in the middle period of his political life.

Mr. Roosevelt said:

"Now to bring about oligarchy, masquerading as democracy, it is fundamentally essential that practically all authority and control be centralized in our national government. The individual sovereignty of our states must first be destroyed—except in mere minor matters of legislation. We are safe from the danger of any such departure from the principles on which this country was founded just so long as the individual home rule of the states is scrupulously preserved and fought for whenever they seem in danger."

Mr. McMorro: Of course, I am familiar with this statement that you are quoting now, but I have wondered: Do you happen to know from which speech that is taken?

Chairman: I don't know.

Mr. McMorro: Sometime when he was in the Presidency?

Chairman: I would assume it was much earlier. I don't know.

Mr. McMorro: Earlier.

Chairman: The Boston school system has gone along with this first step in the Communist revolution (toward the centralization of power). The Boston school system has defied efforts to stop it.

The State law of 1949—amending Chapter 71, Section 2, of the General Laws—commands that "the Massachusetts Constitution and local history . . . shall be taught as required subjects" in high schools. The law has been evaded and ignored. Not one student in ten has been taught the Massachusetts Constitution.

The Massachusetts Constitution "Part the First", the "Declaration of Rights" in Article IV, states:

"The people of this Commonwealth have the sole and exclusive right of governing themselves, as a free, sovereign and independent state. . . ."

Centralization of power, then, as the first step in the Communist revolution, has been accomplished in America, with the acquiescence and support of the Boston school system.

The regulation of men's working contracts, the erection of houses, and provision for the aged in village and town have been moved from safe lodging in

the hands of local government over to Federal hands. Millions of dollars are taken by force of Federal law from Massachusetts citizens and used to buy mountains of wheat and peanuts and butter, from other sections of the country, which nobody wants. Local choice is being obliterated, and the foundations of the republic undermined. The Boston school system has let the student believe that Lenin's policy of "democratic centralization" is perfectly respectable.

This is Step the First.

SECOND STEP

Now we come to STEP THE SECOND.

The basic principle of America is the right and opportunity to make offers to each other. No one of us has any other power. We have no master state here. Now what happens?

At a recent open hearing before the Boston School Committee, Boston's most prominent teacher—elected to head its largest teacher organization and himself a high school teacher of history and economics—publicly declared that this idea of mutual offers was old-fashioned. He dubbed it the "law of supply and demand"—although no one in America has power to "demand" but only to make offers. By using this ungracious and deceptive word "demand", he put America in an unfriendly light. Anyhow, he pooh-poohed the basic American conception of mutual offers as "old-fashioned".

And yet the fact stands out that either we persuade each other to do things by offering dollars at our own discretion, or we are told what to do by dictators.

Another teacher—head of another large teachers' organization—then got up in public to likewise smear America's freedom to make offers as "anti-quoted".

It is from these people that our children are learning.

That is Step No. 2 toward discarding America and embracing totalitarianism. It makes freedom old-fashioned.

THIRD STEP

Now we come to STEP NO. 3.

It is generally taught in our schools that democracy means majority rule. That is the opposite of America. America's contribution to the science of government was protecting individual citizens from majorities. We set up inherent rights derived from God under natural law in our Massachusetts Constitution—echoed in our subsequent Federal Constitution. Then we set up a judiciary, with power to overrule any legislative majority that dares to strip an individual of his inherent rights or to impose the will of the majority on him in disregard of those rights.

That was unknown in the world before. It is still unknown in

England, France and Russia, where legislative majorities can vote to send individuals to the gallows any day they want to. This American protection of the individual from majorities has opened the way to those mutual transactions between individuals, free from majority suppression, which has made America the "land of opportunity" and the most compassionate civilization the world has ever seen. Millions have come to our shore to enjoy it. Why, then, do we try to do away with the American system in our classrooms by portraying its essential principle as the opposite of what it is and softening up the mind of American childhood to accept the bullying majorities of Communism against the free choice of private citizens?

THE FOURTH AND FIFTH

STEPS consist of minor distortions, all designed to make America look unappealing and unworthy to the sympathetic mind of the child, and to make rival and totalitarian cultures look worthy and appealing.

For instance, in many but not all of our history and civics courses, the American system is described as "capitalistic", and the Russian system as "socialistic". "Capitalism" is a hard and intellectual word, with little spontaneous, idealistic appeal to youth. Also it is false. Russia, for instance, has expanded her capital plant much more, proportionately, than has America in recent years—with widespread hydro-electric dams, mechanization of farm equipment, heavy industry and so forth and so forth. Russia's capitalism is iron-clad, compulsory and overwhelming. Ours is a hit-or-miss giving of dollars voluntarily by some persons to other persons who may want to start a new shop. It is Russia that leads in capitalism.

We, not Russia, are the "social" ones, with our voluntary, unbossed and mutually helpful transactions between man and man, the country round.

Some but not all of our history and economics teachers say that the principle of Communism is equality of pay. Well, they have Communism in the Union of Soviet Socialist Republics. There the differences in pay range from those in the Kremlin with armies of chauffeurs to wait on them, down to those in the concentration camps, with only death to wait on them. The difference in pay between a private and a captain is much greater in the Soviet army than in ours. So, also, is the difference in pay there between an engineer and a farmer.

In America, everyone seeks out a better offer, if the fellow alongside him is meeting a better offer; and the pay for those engaged in the same line of work becomes equal. Equalization of pay between those in different lines of work is fostered in America by

the constant effort of our school systems to prepare youngsters to share in the better pay of less crowded occupations, and to steer away from the low pay of overcrowded occupations and leave a larger share of pay for those who remain.

I could go on and on with these examples, where we misstate and play down the virtues of America, in favor of alien forms that we glorify,—all in greater length and with more flagrant cases.

College Faculties

As you know, the reason for this extraordinary undermining of American principles in our American schools lies with our college faculties. Faced with the enormous increase of education among all American young men and women and the enormous productivity of everyone under the American system, the college faculties feel that the pedestal that once set them above all others is now being engulfed by the rising tide of education and productivity. If they can espouse the formation of a totalitarian state—with themselves as the state and the braintrusters—they can save their patrician perch.

They are up in arms if someone who does not like America is under pressure from local or national legislative questioning. But they find no fault if someone who likes America is under such questioning. Above all, they have smeared America with their silence. They have lost the intellectual curiosity which should, first, have been impressed by the brilliance of vivid American life, and then been anxious to analyze it, and lastly eager to be its spokesmen.

Boston teachers are milk-fed at the breast of the colleges. The colleges determine Boston education and what the Boston school child learns.

Opinions of Leaders

If you think I am alone in these beliefs, I now refer you to the editor of a Boston newspaper—not the Herald-Traveler—who writes:

"Strangely enough, in the past quarter of a century, Americans have forgotten, or failed to understand, what it was that gave them their unprecedented prosperity. They have returned to the Old World idea—the socialistic belief that government has the right to control productive activity, and that it is entitled to take from some persons in order to give to others. This Marxian notion—catering as it does to the human impulse to get something for nothing—has been widely accepted and is heading America towards Socialism, New Dealism, Welfare station, Big Government.—Whatever you call the creeping acceptance of more and more government control and regulation of our lives and our economy, this change represents a falling away from the original

American ideal of limited government and human freedom."

That's the expression of an alert Boston editor.

I now refer you to a statement in another Boston newspaper—the Herald, Monday, April 9th, on page 1,—quoting the Archbishop of Boston's most generally attended church, as follows:

"Prelate Hits At Trends to Socialist Era

Archbishop Cushing yesterday declared that expanding federal support of educational, recreational, social service and health programs means enormously increased taxation . . . in order to feed the insatiable hunger for support of the Goliath that is the socialist state."

These are the words of some of Boston's foremost thinkers.

What are the Boston schools doing to stop this Communist trend toward centralism and to forestall this obliteration of American civilization? Nothing. They are going along with it head over heels, if not heels over head. The school system seems determined not to deviate into common sense and not to return to the principles of a civilization so beautiful that men in later generations will gaze back upon it silently in wonder and tears.

Now, to me, as you see, the present trend is extraordinarily wrong-headed. The schools have gone along with this centralization and the obliteration of local choice and of the individual's control of his own affairs, and they have ignored local history.

A New Textbook On Massachusetts

If that sounds dismal, it is encouraging to note that now a Boston teacher has come forward with a textbook, written jointly by himself and another, dedicated to Massachusetts and her history. That to me would be a great step: to restore to the lives of our children those principles of managing their own affairs which has made America great and Massachusetts great.

It is necessary for me now to call to your attention some errors in this book—so that you may judge whether the book should be accepted by you or not.

Mr. McMorrow: I wonder if there are any copies.

Chairman: I had a copy from Mr. Hurley. He now has it back.

Some of these mistakes in the book are extremely trivial, and some are quite the opposite.

On page 4, for example, in listing the harbors of Massachusetts, for some reason Plymouth is left out, even though of course they mention it a few pages later, because they mention the Pilgrims' landing there.

Private Navies

We now come to page 47, where I think there was at least what might be called an omission

which I can only say I very much regret. Here the authors are talking about the Revolutionary War and the part that Massachusetts played in it; and they refer to the Massachusetts State Navy, which was begun by calling into service two vessels under the command of Jeremiah O'Brien of Machias, Maine, then a part of Massachusetts. "At one time", the book says, "there were 15 ships in the State Navy. About 70 prizes, including one 32-gun ship, were captured, but by the end of the war only one ship was still in commission."

So we do have respects paid here to the Navy of Massachusetts which numbered 15 vessels and had a creditable record of capturing 70 prizes.

It is interesting, too, to point out that in the whole course of the war the United States had only 22 vessels in its Navy.

But the omission here, which seems to me serious, is this:—that the individual citizens of Massachusetts had their own private navies, which were very large and extremely effective. I can understand the omission of Captain Patrick Tracy in this account, because he was from County Wexford, in the south of Ireland; and my attempts to introduce Irish literature in the Boston schools have always met with failure. But at least Patrick Tracy of Newburyport didn't have a mere 15 vessels, like the Massachusetts Navy; he had 56 vessels put to sea by him. They captured 150 British prizes. They took 2,300 prisoners. Tracy, incidentally, made a present of some \$200,000 to General Washington and the Continental Congress to pay the troops.

Along with Patrick Tracy were other merchants. Besides Patrick Tracy of Newburyport were other merchants from Salem such as Joe Lee, Jonathan Jackson and Andrew Cabot. They put about 150 vessels to sea between them, and captured British ships running into very large numbers.

Now, what brought the Revolutionary War to a close was that the British insurance companies found that they could no longer safely or profitably insure British vessels coming to America; and, while gallant work was done by General Washington and his forces on shore, it was the extraordinary brilliance and magnitude of these private men of Massachusetts, interrupting British soldiers before they reached America, seizing their arms and ammunition, which we sorely needed, and capturing other goods, that brought the war to a close.

Now we are only talking about a matter of omission; but where we are writing the history of Massachusetts, and where the ships that privately put to sea from these shores were some ten times more numerous than the United States Navy, and their effect was enormous, I think it is a great pity we didn't both tell

the story of Massachusetts and build up local pride in individual achievement by mentioning the great work of our local, individual navies.

Mr. Hurley: Mr. Lee, wasn't Captain Tracy an ancestor of yours?

Chairman: Yes, that is true. I guess most of them were.

Mr. Hurley: Are you objecting to this book because Mr. Reid, the author, left out some of your ancestors?

Chairman: Well, Mr. Reid, when he can find something bad to say about my forbears, says so, and otherwise leaves them out. He never says anything good.

Mr. Hurley: I don't think you ever said anything good about Mr. Reid.

Chairman: Well, I am working up to a better frame of mind.

John Adams Invented American Way of Life

Now, the really serious objection to the book is on page 51, where it discusses the making of the Massachusetts Constitution; and for some reason—I don't know why—the authors overlooked the fact that John Adams was the author of the Constitution. The book merely says that "A group of 312 delegates gathered in Cambridge on September 1, 1789, to open a convention. John Adams was the leader of the early discussions until he was called to take the post of Minister to Holland."

Now the fact is—as Samuel Eliot Morison shows in several of his histories, of which I have copies here, but which I won't read word for word—that a committee of thirty was appointed by the 312 delegates. The thirty then appointed a sub-committee of three, consisting of the two Adamses and James Bowdoin. And then Samuel Adams, knowing he couldn't do that kind of a job, and Mr. Bowdoin knowing that two heads were worse than one, left it up to John Adams.

Mr. McMorrow: Which Adams was the Boston Massacre Adams?

Chairman: Samuel.

Mr. McMorrow: Was it Sam or John who defended the British soldiers?

Chairman: Sam is thought by many to have fostered the unrest that led to the Massacre; but John Adams was the lawyer.

Mr. McMorrow: The lawyer was John Adams.

Chairman: He was the lawyer, who, in the face of flaming public opinion against the British soldiers, undertook their defense on charges of murder, and he won the acquittal of all but two who received minor punishment.

Mr. McMorrow: This was John Quincy's father?

Chairman: Yes, and the book does stress, on an earlier page, that he heroically, conscientiously, and effectively defended the accused British soldiers.

However, the authors have left out reference to John Adams as

the author of all of our Constitution, except for the Third Article dealing with religion, which he left to a clergyman, and which has caused a great deal of trouble ever since. Except for that, it is John Adams' work. I don't mention that just because John Adams may be important. I mention it because it was an entirely new conception of government. It was the idea that legislative majorities didn't control, but that people had certain inherent rights, that the legislators were their servants and had very restricted powers of legislation, that of protecting the peace. It included the conception of setting up a judiciary to make sure the legislature never did overstep.

In other words, it turned the world upside down. Before, Government had come down from the King to the Legislature to the people. Now, John Adams turned it upside down, and it flowed out from God to the individual to his elected deputies, and to such powers as he gave them to keep the peace. It made the citizens the foundation of government. It was what made the New World; and it was copied—as I think the book says elsewhere—by 9 of the 13 colonies. Benjamin Rush, in the convention which some years later framed the United States Constitution, says that the handbook which John Adams wrote on how to write Constitutions was the main guide of all the delegates in framing the subsequent United States Constitution.

John Adams, of course, was not there at that later time when the Federal Constitution was drawn up, being then Minister to England.

Well, I point out to you that unluckily there is a misstatement such as a boy in school would get a bad mark for as to John Adams' part, and hence as to the significance of his contribution.

Mr. McMorrow: Is there any mention made of John Adams?

Chairman: Yes, he is mentioned as having espoused the extremely unpopular cause of the soldiers who fired on the populace.

Mr. McMorrow: In connection with the Constitution?

Chairman: He says that he was "a leader in the early discussions."

Other Texts on Massachusetts

Mr. McInerney: Mr. Chairman, I don't like to interrupt your train of thought, sir, but I see you are talking about this Reid and Regan book, "Massachusetts—History and Government of the Bay State",—and I gave it a cursory glance when I was presented a copy by Mr. Reid back in late January or early February, and it seemed like a nice outline. But I don't know whether it would be used for a course of instruction. I have in my office, Mr. Chairman and members, a set of the four volumes of the History of Massachusetts, and I have used it for source material for speeches in years gone past.

It is an excellent publication, a comprehensive history of the Commonwealth from the days of the Plymouth and Bay Colonies, Massachusetts Bay and Plymouth Colonies, and it is about the size of a standard law book. It is in four volumes and I would be pleased to bring it to the next meeting for comparison's sake. Perhaps you and the other members of the committee might be interested in it.

Chairman: I rather think, Mr. McInerney, that Mr. Reid and Mr. Ohrenberger have read such histories as do exist, such as the one you refer to. Who was the author of this one?

Mr. McInerney: Dan Marsh, the former president of Boston University, in collaboration with a Professor Clark. It is a very comprehensive book and it is really an excellent treatise, on the history of Massachusetts. I know of none better.

Chairman: I would be glad to see it. I know Mr. Ohrenberger would be. I hope you will bring it over.

Royalties

Mr. McInerney: I would be glad to, if for no other reason than for comparison. I was not aware that Mr. Reid was a teacher in Hyde Park and wanted to put his book into the system until I saw it on the agenda last week. When you called that out of the list, I didn't know it was Mr. Reid's book.

Superintendent: I wouldn't say Mr. Reid is sponsoring his own book. In fairness to him, I would think that that is not true. Evidently the History Council recommended this book and it has come up through the regular channels.

Mr. McMorrow: Is there some compensation?

Superintendent: This is not inspired by Mr. Reid.

Mr. McMorrow: If a book is written by a member of the Boston teaching force, isn't there something about his not getting any reward?

Superintendent: No. As a matter of fact, Mr. McMorrow, I think there is a city ordinance that makes it necessary for anyone who has any financial interest in anything that is going to be sold to the City, if he is employed by the City, to write a letter to the president of the City Council, and I think the chairman of the Finance Commission, and say that he has this royalty interest in this book.

Now, certainly, the amount of money that will come to Mr. Reid, as royalties from such copies of this book as will be sold in Boston, will be peanuts.

Mr. McInerney: In other words, there must be a disclosure, Dr. Haley, and he must deal at arm's length with the City?

Superintendent: That is right. In other words, it is just putting the cards on the table to say, "I have written this book. I get a 5 per cent royalty."

Mr. McMorrow: What is peanuts?

Superintendent: Peanuts is a very small amount.

Mr. McMorrow: I have employed that term to describe another amount too, but I didn't think it was peanuts. Do you think it would be a more than a thousand dollars.

Superintendent: I would say not. I would say this, Mr. Chairman: I think this committee should not only see books that are written, if they are good books, by our teachers, but should encourage our teachers to go out and do research and hard labor in the preparation of a book. I think it is a very commendable point of view to write a textbook. I congratulate any one of our school people who have the energy and the ability to write a good textbook.

Mr. McMorrow: Ages ago it used to be the *sine qua non* of success in high school teaching, the number of books that you had written.

Superintendent: That is true.

Chairman: The Chairman will say that he thoroughly agrees with the Superintendent, and the more textbooks our teachers can write the better for the school system, and I am sure it is just what we want.

Let me finish with what points I have left here, if I may.

Mr. McInerney: Mr. Chairman, before you finish, I just want to add this, by saying that my reference to the History of Massachusetts by Mr. Marsh is in no way intended as a reflection on Mr. Reid's book. I think as an outline Mr. Reid's book, at first blush, looks like a very good outline, and he is to be commended for spending the time and effort on the book and all the headaches and heartaches that go into writing such a book.

The War of 1812

Chairman: Going on with the book, we come to the question of the War of 1812, and he points out that Massachusetts, of course, was on the point of seceding from the Union. That starts at page 64 and 65 and goes on to page 66. Then, at page 66, he rubs in the same point in a way that some people may object to. He says, "Massachusetts had a rather inglorious record for the War of 1812. The attitude of the government bodies of the State during the war was distinctly disloyal" and so forth. His facts, as far as I know, are perfectly correct. He goes on to say that the House of Representatives in an address to the people asked that the public show disapproval of the war and recommended that no men volunteer for military service except for the defense of their homeland, the State itself. He points out that Daniel Webster condemned the war. Of course, it ruined Massachusetts financially. Our great preoccupation was Bonaparte, who was then astride of

the world like a Stalin and Hitler combined. England was our only bulwark against Bonaparte, and our men were very strongly against the war. And, as the book said, they took very little part in it. What seems a little odd is that the author, who, presumably, is writing to quicken interest in Massachusetts among our school children, says that "Massachusetts had a rather inglorious record for the War of 1812" and it "was distinctly disloyal."

It seems to me we had a very glorious record. We were loyal to ourselves and to Massachusetts which should be our first loyalty. We were certainly very wise, and I don't see that our standing up for the principles we believed in that day, which have rather been vindicated since then, should be the cause for speaking of Massachusetts as "distinctly disloyal" and "rather inglorious" in the very volume where we are trying to inculcate an interest in the independence and the good sense and courage of the men who made Massachusetts for us.

So I make that point in addition to his omission of the local privateersmen, and in addition to the slighting of the Adams' Constitution.

Mr. McMorrow: I don't like to hear the Government being spoken of as being "distinctly disloyal".

Chairman: Of course, he says the attitude of the governing bodies of the State during the war was "distinctly disloyal." Of course, they didn't like—Well, excuse me.

Mr. McMorrow: I didn't like to hear that. I think a better choice of words might have been employed.

Bald-Headed

Chairman: Then on the next page, for some extraordinary reason, he shows the Frigate Constitution, to whom he does pay his respects as taking part in that war, bald-headed. In your volume the Constitution is bald-headed. Her topgallant masts are not in the picture at all. You might as well take a photograph of Mr. Haley with the upper part of his head cut off. Here is a beautiful frigate which we proudly built here, and, as a matter of fact, the painting in the room where we just had supper, the Revere Room, shows her with her to-gallants and royals set. I have just drawn in here the topgallant masts and the to-gallant yards, just to make the book palatable. He also shows a curious deck house which used to be on the ship, about 15 years ago, and, of course, was never part of the original hull. The vessel was built low so that to windward she could outsail the English fleet, which was much more numerous than she. You take our greatest antique, this most noble vessel, which was rescued

once by young Oliver Wendell Holmes, and show her with her—not her hair down but her hair off.

Well, that chapter concludes with the Hartford Convention, and the efforts of Massachusetts men to be loyal to Massachusetts and to stand firmly in their boots against the Federal government. If they did so now, we would be much better off.

Republican Party

Then, on the next page, page 71, there is a curious, almost a hymn of praise for the Republican Party, which is perhaps all right, but it seems a little odd in the middle of a textbook. It talks about the tariff issue of 1824, and brings out the fact that both senators from Massachusetts voted against the Tariff Act, and stood up for free trade. Now, the Republicans have stood for high tariff; and the passage here takes it for granted that for some reason a high tariff is good and patriotic. Our senators in Massachusetts, about whom the book is written—that is, about the Commonwealth—took the view that a high protective tariff was unpatriotic and deleterious to everybody concerned. As John Stuart Mills said, "If goods can't cross frontiers, soldiers will." So this sudden outburst of justification for the most outrageous principles of the Republican Party appear in this book, which I can only say strikes me as odd as well as wrong.

State House Mis-States

Now, to take an extremely trivial mistake, the author gets Doric Hall in the State House mixed up with the Hall of Flags.

He also speaks, on page 120, of the reorganization of the State Constitution being badly needed today. If he merely means better print or getting the amended articles in place, that is fine; I hope he doesn't mean to do away with the careful and noble and extremely competent language of that document.

Mr. McInerney: He is probably talking about the ceiling on the School Committee budgets, Mr. Chairman, notably ours.

Chairman: Well, perhaps that is it. I think, Mr. McInerney, you wouldn't be too pleased with his treatment of the courts. His first legal oversight is minor. He fails to indicate that the Boston Juvenile Court only goes to Massachusetts Avenue. He speaks about the court as though it covered all Boston school children.

Mr. McInerney and Mr. Hurley on Law

Then, you can pass on this, Mr. Hurley and Mr. McInerney: "A jury which fails to come to a

unanimous verdict in a criminal case is called a 'hung jury' and the judge declares a mistrial."

Does the judge declare a mistrial?

Mr. McInerney: No. He only declares a mistrial for some statement or some remark that is made casually during the course of the trial that may affect a fair verdict. That 'hung jury' appellation is correct however.

Chairman: On page 144, under the heading of "Clerk of Courts" he says, "The Clerk of Courts is the custodian of court records and documents. He also serves as a liaison officer (go-between) between the judge and the litigants."

Now, I didn't know that a Clerk of a court was a "go-between" between the judge and the litigants.

Mr. Hurley: Some of them are more of a hindrance, Mr. Lee.

Chairman: It seems a little sinister to introduce into American justice the position of "go-between" between the Court and the litigants. I think that kind of a statement is quite disturbing, about our American judicial system.

Mr. McInerney: Maybe he didn't consult Mr. Dalton on this question of the American judicial system.

Chairman: He says probation officers serve only in the lower courts. They also serve in the Superior Court, don't they?

Mr. McInerney: That is true.

Chairman: I have covered most of the things.

Let me see if there are any other points worth bringing to your attention.

"Loans"

Oh, the kind of thing that I regret, but you can't call it wrong, is this statement, talking about the credit unions and banking, and our department of banking, or whatever we call it:—"Personal loans, real estate mortgages, and government bonds are their principal assets," "their" referring to credit unions. That makes perfect sense to a banker. A banker, when he hears the word "loan", thinks of the note receivable that he gets, which is an asset, and, by double-entry bookkeeping, he may also think of the commitment he makes to the borrower. But most people think of loans as liabilities.

Mr. Hurley lent me his volume, which I only returned just now, and he thought he would never get it back, and regarded the loan as a liability.

It is such things as that which confuse children. It is perfectly correct from the banker's point of view; but I think it takes explaining to the child to indicate why a loan is an asset, even though it is the correct usage in commercial life.

Slips of the Pen

I think it is too bad, but it is very minor, that on page 229, talking about the State Department of Public Health, he refers to the Massachusetts General Hospital, and leaves the distinct impression that that is a State Hospital, which its name would seem to imply.

The last point I take up is another minor point, but one which I am surprised a mistake occurred about. He is talking about Student Government Day and he says, "Every public and private school in the state elects a senior to represent its interest at the State House on that day."

Both the law governing that Student Government Day and the civic agency which sponsored it point out that representatives can be chosen from any class in the high schools, not just from the senior.

Collateral Pamphlet

Now, gentlemen, I have enumerated for you certain errors, some minor and some, to me, much more significant. My own opinion would be that before considering the book one should ask that perhaps a four-page piece be written on the significance of our extraordinary new Constitution of Massachusetts, which brought us this new world, with the old-world forms of government turned upside down and the old relationships of man to government turned upside down. We ought to have perhaps a four-or-five-page pamphlet on that, so that the teacher, if she chose the book, would have to take that pamphlet with it, so as to get across that essential point, and also correct an obvious error in the book as to Mr. Adams' part.

Problem of Accepting Mr. Reid's Book

I think, with one exception, gentlemen I would say this:—granted a correction which would show the great epoch of our new world brought in by John Adams as author of the Massachusetts Constitution, I would recommend going ahead with the book with all its other imperfections, if it weren't written by Mr. Reid.

Mr. McMorro: Are you serious?

Chairman: Yes. Would you like me to clarify my last remark?

I say, "If it were not written by Mr. Reid," for one reason—that I have to live with the teachers—I hope, at least, for another year and a half; and I have to cooperate with them. And, if we were to take this book of Mr. Reid's, it would put him in the position of helping to supply us; and if we should reimburse the publisher, it would put us in the position of what I call "making an offer," but what Mr. Reid calls, "making a demand."

Mr. Reid pooh-poohs the idea of supply and demand or offer and offer. It would put him in a ridiculous light to make him a supplier and for us to make an offer to meet his supply. Of course, if Mr. Reid would waive his rather peculiar attitudes in that matter and would say that he has no objection to the book's being supplied and no objection to our demanding it, or, to use my language, no objection to the publisher making an offer of the book and our making an offer of dollars in reciprocation, then I would withdraw my reservation and say that on the whole, I think the book makes a contribution lively enough for this Committee to approve.

McMorrow On Being Wary of World Trends

Mr. McMorrow: Mr. Chairman, I want to make one or two comments.

I think, generally, Mr. Chairman, that many of the things you say are well worth heeding. I wonder how many people are experts in the matter of knowing exactly what has been suggested in the form of written books and treatises by Russian leaders; and I wonder, Mr. Chairman, if we wouldn't be taking a positive step in this Boston School System if we did attempt to place a little more emphasis on local history and on the Massachusetts Constitution and on the United States Constitution by way of making some positive effort to counteract some of the Communist propaganda that confronts us sometimes on all sides.

The one fact alone, that Stalin and Lenin both said that co-existence was impossible and that they would play along with capitalism only so long as they felt that it was necessary, I think that is something that quite safely might be mentioned by teachers of history.

There are many thoughts, Mr. Chairman, that I have. I think that there are some textbooks in use now in the public schools of Boston that are slanted, biased, and do not give an objective view of things, particularly in the field of history.

I don't particularly enjoy picking up a textbook currently being used by pupils and reading a description of the Nationalist Chinese soldiers that, really, any impartial person would agree is so biased and really non-factual as to make its worthwhileness questionable.

I have come across other passages in other texts, and I have other thoughts on this whole matter that I will air after I have talked to some authorities this week.

I think, Mr. Chairman, we should attempt to do this:—I think our Textbook Committees and our teachers should attempt to select only those books that give a really fair, all-around

picture, and not textbooks that give slanted views, that suggest, for example, that things happened in other countries, such as some of the Baltic countries, that really didn't happen at all,—that in some countries they had a "peaceful revolution," and that some countries have "Republics" when, actually, they are nothing other than puppet states.

I think a history or geography book that doesn't point out that certainly the peoples in one part of the world are victims living in a slave state is really not accomplishing the purpose that it should.

Chairman: Mr. Ohrenberger, at our conference the other day, didn't we also arrive at the thought that in the outline of study, the course of study, we would kind of tip the reader off that, in teaching our Massachusetts Constitution, emphasis would be on its magnificent 8-page Declaration of Rights?

Mr. Ohrenberger: That is correct, sir.

Chairman: That has been the basis of our rights, and was incorporated in the Federal Constitution; and the child would not be made to wade all through all the subsequent details of our Massachusetts Constitution, which he could get better by a discourse from the teacher.

In other words, we would try to highlight the important things in our Massachusetts Constitution, so they do read the important part of it, rather than throw it all aside merely because there have been technical amendments later.

Is there a motion on the floor here? Does anyone move the inclusion of Mr. Reid's book?

Secretary: Mr. Lee, I have a written motion prepared:—"The authorization of the textbook, 'Reid and Regan, Massachusetts—History and the Government of the Bay State,' published by the Oxford Book Company, included in Order No. 1 of the six orders making changes in, and additions to, the list of authorized textbooks, laid over at the meetings of March 22, April 2 and April 9, 1956, was taken up.

"On roll call, the authorization of the book was approved by the following vote:"

Is that satisfactory?

Chairman: Yes, but it might be well to take the vote.

Secretary: Yes, I will take the vote now.

(Roll Call):

Mr. Carr: Absent.

Mr. Hurley: Yes.

Mr. McInerney: Yes.

Mr. McMorrow: Yes.

Chairman: Yes:

IN MEMORIAM

The Superintendent regretfully reported the death on June 19, 1956, of Frank H. Clark, submaster, William Blackstone Junior High School.

Placed on file.

The School Committee requested that a letter of condolence, to be signed by the Secretary, be sent to the bereaved family.

APPOINTMENTS AND TRANSFERS

The following nominations and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates indicated, were presented:

TRANSFER OF HEAD MASTERS

Joseph L. Malone, head master, high school (now assigned to the Office of the Superintendent), to head master, English High School, Sept. 1, 1956.

M. Henry McInerney, head master, English High School, to head master, Brighton High School, Sept. 1, 1956.

On roll call the transfers were approved by the following vote:

University Extension Bar Exam Course

The Massachusetts Department of Education announced that its Division of University Extension will sponsor two courses designed to assist candidates preparing for the Massachusetts Bar Examination. The courses will be conducted at Harvard Hall, Harvard University, by Attorney Joseph R. Nolan, of the Boston Bar. The first course is entitled "Review of Massachusetts Law" and is scheduled for 6 p.m. to 7.45 p.m., on Monday and Wednesday evenings, beginning September 5 and continuing for fifteen weeks. The second course "Analysis of Massachusetts Bar Examination Questions" will be held from 7.45 to 9.30 p.m. on the same nights. Every field of the law required by the Board of Bar Examiners will be reviewed with special emphasis on development of the ability to extract the issues involved and to apply the correct principles of law.

World War II and Korean veterans may take these courses without charge.

Information regarding the courses may be had at the division office, 200 Newbury street, Boston.

BOSTON FISHING FLEET HAD A POOR YEAR DURING 1955

The year 1955 was the worst twelve months in 31 years of the Boston fishing fleet, according to the annual report of the U. S. Department of the Interior's Boston Fishery Market News Service.

The report said 2,650 fishing trips—fewest in 10 years—landed a total catch of 136.5 million pounds. This was the "lowest volume in 31 years, the lowest value in 15 years, and the lowest average price in 13 years," the report stated.

Among the reasons cited for the business fall-off in Boston's fishing industry were low-priced foreign competition, labor-management troubles, severe weather, and a heavy inventory of frozen haddock fillets.

Analysis of landings at the Boston Fish Pier during 1955 shows that 70 per cent of the weight of sea food landed was haddock and 73 per cent of the value. Cod represented 12 per cent in both weight and value, pollock 9 per cent in weight and 5 per cent in value, flounders totaled about 3 per cent in weight and 4 per cent in value. The remaining 6 per cent in weight and value were distributed over 16 other kinds of sea food landed.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 27, 1956.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President McCORMACK in the chair. Absent, Councillor Foley.

The Reverend John Donovan, of St. Mary of the Nativity Roman Catholic Church, Scituate, and his brother, Paul Donovan, a seminarian at St. John's Seminary, Brighton, were escorted to the rostrum.

INVOCATION BY REV. JOHN DONOVAN.

O God, Supreme Ruler of the universe, Who has given to men the unique faculty of directing their own affairs, Who has provided that men should live with one another under the direction of just and lawful government, grant us who are assembled here as the Council of the City of Boston Thy indispensable grace.

Illumine our minds that we may know Thy will with regard to the issues before us. Let not our first interest be expediency or self-gain but to determine the welfare of our citizens with right conscience. Move us to act only by the standards of Thy eternal justice. Guide all here present who seek nothing but the common good so that our deliberations and endeavors may protect and advance our fair City of Boston. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

TRANSFER OF LAND AT BROADWAY AND DORCHESTER AVENUE TO BOARD OF ELECTION COMMISSIONERS.

The following was received:

City of Boston,

Office of the Mayor, August 23, 1956.

To the City Council.

Gentlemen:

I transmit communication of Commissioner Francis X. Cotter of the Fire Department recommending the transfer of the Fire Department property on the corner of Broadway and Dorchester avenue in South Boston, and more specifically located on the northeast corner of Broadway and the northwest corner of Dorchester avenue. This property, comprising approximately 2,803 square feet of land, together with the building thereon, was formerly a fire station but is presently being used and occupied by the Board of Election Commissioners with the permission of the Fire Department.

I enclose proposed form of order transferring the aforesaid parcel of land, together with the building thereon, to the care, custody and control of the Board of Election Commissioners.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Fire Department, August 10, 1956.

Hon. John B. Hynes,
Mayor of Boston,
and

City Council.

Gentlemen:

The Fire Department has in its custody the abandoned fire station on the corner of Broadway and Dorchester avenue in South Boston, and more specifically located on the northeast corner of Broadway and the northwest corner of Dorchester avenue. This property, comprising approximately 2,803 square feet of land, together with the building thereon, was formerly a fire station, but is presently being used and occupied by the Board of Election Commissioners with the permission of the Fire Department.

Inasmuch as the Fire Department has no further use of said property for Fire Department purposes, and inasmuch as the Board of Election Commissioners desires to continue its aforesaid use and occupation, it is requested that the said land and building be transferred to the Board of Election Commissioners.

Respectfully,

FRANCIS X. COTTER,
Fire Commissioner.

Whereas, The City of Boston is the owner in fee of approximately two thousand eight hundred and three (2,803) square feet of

land, together with the building thereon, on the corner of Broadway and Dorchester avenue in South Boston, and more specifically on the northeast corner of Broadway and the northwest corner of Dorchester avenue, held by the City for Fire Department purposes; and

Whereas, The Fire Commissioner of the City of Boston has determined that the above-mentioned parcel of land, together with the building thereon, is no longer required for Fire Department purposes; and

Whereas, The Board of Election Commissioners of the City of Boston desire to use the said property for Election Department purposes; now, therefore, it is hereby

Ordered, That the above-mentioned parcel of land, together with the building thereon, be, and the same hereby is, transferred from the care, custody, control and management of the Fire Department to the care, custody, control and management of the Board of Election Commissioners.

Coun. AHEARN in the chair.

The foregoing message and order were referred to the Committee on Public Lands.

TRANSFER OF APPROPRIATION TO AD- MINISTRATIVE SERVICES DEPART- MENT.

The following was received:

City of Boston,

Office of the Mayor, August 27, 1956.
To the City Council.

Gentlemen:

I am informed by the Purchasing Agent, who supervises the activities of the Printing Department, that it is advisable to appropriate sufficient money at this time to complete the processing of approximately three hundred thousand additional plates for a more or less permanent police and voting list.

Originally, it was envisioned that the program of substituting the Addressograph-Multilith process for the Monotype process would be extended over a three-year period. However, in doing this, there is a distinct loss to the city. It is now decided that the completion of the processing of the necessary plates, if accomplished promptly, will permit the city to begin a saving in 1957 of at least one hundred thousand dollars.

So that the continuing annual saving of one hundred thousand dollars may be possible beginning next year, I recommend that fifty thousand dollars be transferred from the Reserve Fund to the Administrative Services Department. This transfer, if given the approval of your Honorable Body, will make it possible to complete the Addressograph-Multilith process by December 1st of this year.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$50,000, to the appropriation for Administrative Services Department, 2, Contractual Services, \$50,000.

On motion of Councillor McCormack the message and order were referred to the Committee on Appropriations and Finance.

LOAN FOR DEMOLITION OF ABANDONED AND DILAPIDATED STRUCTURES.

The following was received:

City of Boston,

Office of the Mayor, August 27, 1956.
To the City Council.

Gentlemen:

As your Honorable Body is aware, for sometime we have been attempting, by various means and programs, to solve the problem of neighborhood deterioration in the City of Boston. It has become increasingly clear that this problem cannot be solved by other than a decisive frontal attack.

The number of buildings abandoned by their owners is increasing at a rapid rate. Recently, I requested a representative group of bank officials, who have a financial interest in this problem, to make a survey of the situation as it exists in Boston. This committee consulted with various departmental officials. Spot

checks by the committee indicated that the number of buildings dilapidated, dangerous, vacant or abandoned, is close to 2,000. Undoubtedly, a large percentage of these structures cannot be rehabilitated.

In my judgment, the health and the safety of the citizens of Boston require that these structures be demolished or put in acceptable condition. If they are allowed to remain as a blot on the face of the city we shall not only encourage a most dangerous situation, but we will also discourage any possible improvement in neighborhoods which can be improved if these structures are removed.

On Thursday, August 23, the Public Safety Commission in a special meeting, voted as follows:

" . . . That a state of emergency exists in the City of Boston, due to the recent rapid increase in the number of abandoned buildings in the City of Boston, which constitute a menace to the public health and safety and the cause of alarm and fear on the part of the residents of the city. It is recommended that an immediate appropriation of \$500,000 be made available in order to remedy this critical situation as rapidly as possible . . . "

I therefore present to your Honorable Body a loan order, attached herewith, for the emergency appropriation of \$500,000 for the demolition of unsafe, dangerous structures within our city. One hundred and fifty thousand dollars of this amount will be spent under the direction of the Building Commissioner and \$350,000 will be spent under the direction of the Health Commissioner.

I request approval of the loan order by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That under the provisions of clause 9 of section 8 of chapter 44 of the General Laws, the sum of five hundred thousand dollars (\$500,000) be, and hereby is, appropriated, for the demolition of abandoned and dilapidated structures, and that to meet said appropriation the Collector-Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On motion of Councillor McCormack the rules were suspended and the order was given its first reading and passage, yeas 8, nays 0;

Yeas—Councillors Ahearn, Collins, Kerrigan, McCormack, McDonough, McLaughlin, Piemonte, White—8.

Nays—0.

On further motion of Councillor McCormack the order was referred to the Committee on Appropriations and Finance.

President MCCORMACK in the chair.

REPORT OF FINANCE COMMISSION ON 1956 TAX RATE.

The following was received:

City of Boston,

Finance Commission, August 24, 1956.

To the Honorable the Mayor and City Council.

The Finance Commission herewith places upon record the official figures of the 1956 tax rate computations and its analysis of them.

This rate of \$78.70 sets a new high record not only in the City of Boston, but in the cities of Massachusetts. And yet it is doubtful if it has reached the limit. A sales tax next year may keep it near the present level, but may not do much better. If a sales tax is authorized, the benefits to the Boston taxpayers will depend on the distribution of its proceeds, which will be directed by the Legislature in the authorizing statute.

It is widely accepted that the 1956 rate is, at last, a realistic rate. Certainly an analysis of the computations of it gives strong support to that opinion. Nevertheless, it is \$8.90 higher than a year ago; and despite the fact that a new attitude toward Appellate Tax Board determination of valuations has been proclaimed, not all of those who in recent years complained about high valuation will benefit therefrom. There are certain restrictions imposed in the application of the new policy which will deprive many property holders of any 1956 benefit.

Annually for many years the Finance Commission has been revealing the unsoundness of the valuation total on which the rate rested. It pointed to original valuations which later had to be reduced at extra cost to the city and to the taxpayers. It pointed to excessive estimates of income other than taxes which to a staggering total resulted in operation deficits. It pointed to excessive estimates of yield from certain taxes, like the motor vehicle excise receipts; and it pointed to the large scale business of procuring abatements after the tax rate was established. Eventually so many private agencies took up the Finance Commission's lead that now the city administrators are coming closer to realistic rate-making rather than political rate-making.

So far, therefore, the reform consists of this: According to official announcement, where the Appellate Tax Board or the Boston Board of Review determined valuation within the last two years, the assessors accepted those figures as the 1956 valuation. In all others, they were not bound to vary from assessments of other years. The change in policy does not apply to properties wherein a reduction in

valuation of less than \$10,000 has been granted by either board in the last two years. It is difficult to obtain at this time more than an unsupported estimate of the effect of the policy on total valuations because no parcel by parcel comparison of valuations has yet been made.

The established facts are: the total of valuations, real and personal property, in 1956 is \$1,517,808,000; in 1955, it was \$1,541,500,000, or \$23,692,000 more. It has been officially estimated that new taxable valuations in 1956 amount to approximately \$20,000,000; but there has been a loss of approximately \$5,300,000 by additional Central Artery and "New York Streets" area takings.

The new attitude amounts to a partial stabilization of assessments for the remaining three years of this administration. Many prominent real estate representatives asserted in conference with the city rate-makers that stabilization of valuations is most important for the good of the city. Fluctuations in the past several years due to the desire to keep the rate at a figure acceptable to administration leaders played havoc with efforts to promote large real estate developments; and it made a profitable business for some who had enough influence to obtain abatements. So far, therefore, as relates to determination of taxable valuations, the decisions of the assessors in 1956 are less provocative than in generations though they will not necessarily be entirely acceptable to many property owners.

Regarding the city's "Revenues and Credits," in the estimates used there is in 1956 less of the gamble of previous years evident. The city fiscal authorities lean heavily to the opinion that without a catastrophe, the result should be that there will be little, if any, addition at the end of 1956 to the operation deficits accumulated in the past several years.

That conservatism rather than liberality governed the revenue estimates is evident. From city, county, and school departmental revenue, it is estimated that \$13,768,808.08 will be received in 1956. The corresponding estimate in 1955 was \$16,244,007.19. It proved almost \$3,000,000 too much. From motor vehicle taxes, it is estimated that \$4,911,517 will be received in 1956. In 1955 the estimate was \$6,191,529, which figure proved about \$1,000,000 too high.

Parking meter receipts are figured to be \$180,000 in 1956 as against an estimate in 1955 of \$397,000. Poll taxes, which by law must be assumed to be collected entirely, have dropped from \$468,200 to \$451,000 in the estimates.

The estimates of Boston's share of state revenue, supplied for tax computation purposes by the state, are again on the optimistic side. In 1956 the total of them as listed by the Boston assessors is \$25,688,119.38, which is \$90,891.51 more than the estimate of them used in 1955. These figures include "Aid and Assistance" coming from reimbursement to Boston for welfare grants chargeable to the state and other municipalities.

On the appropriation side, city appropriations total \$111,441,721.63. This is \$4,791,342.63 more than the 1955 total; county appropriations in 1956 total \$7,837,120.25, which is \$1,028,708.08 more than the 1955 total; school appropriations total \$29,320,706.21 or \$1,359,321.50 higher than in 1955. Metropolitan assessments are in 1956 a total of \$2,236,954.48, which is \$453,026.81 more than in 1955; the Metropolitan Transit Authority assessments in 1956 total \$5,002,408.07, which is \$202,112.79 more than in 1955; the state assessment is \$93,738.24, or \$3,458.70 less than in 1955; and the combined overlay accounts in 1956 total \$16,036,777.98, which is \$4,541,710.79 more than in 1955. In this last item, the city is appropriating \$3,670,763.10 more than the normal \$2,000,000 required by statute for providing overlay deficits.

It is noteworthy that for a 1956 overlay (refunds on account of abatements, etc.) the total used is \$4,790,578.89, which is \$1,084,631.12 greater than the figure used in 1955. This new figure represents 4.16 per cent of the tax levy. It is hoped by the fiscal officers that it will suffice to cover all refunds of 1956 assessments ordered by the Board of Review.

The appropriation total in 1956 is therefore \$172,370,328.06 or \$12,375,664 greater in 1956 than in 1955. Since the various revenues other than taxes total only \$52,918,839.46, the necessary tax levy is \$11,854,789.60 more than in 1955.

To summarize briefly: increased appropriations and charges in 1956 with a lower offset in revenues and credits necessitated a higher tax levy; and a lower total of assessable valuations, in turn, necessitated a higher tax rate.

The official tabulation of valuations, real and personal property, follows:

These tables reveal that the total 1956 assessed value of the real estate of the city is smaller by \$22,694,300 than the total of the assessed valuation in 1955. The personal property total declined \$997,700. In Wards 17, 18, 19, and 20 there is a higher total of real estate value than in 1955. In personal

property valuation, two wards, 15 and 18, have higher totals than in 1955, the other 20 being all lower, but without distinctive change.

The official recording by the Board of Assessors of the 1956 computations of the tax rate, compared with the 1955 computations follows:

The Finance Commission repeats the conclusion of its tax rate analysis report of a year ago:

"An increase in revenue by a much-needed rise in fees and charges would give a small amount of help; but new taxes, to which there is much and powerful opposition, is practically the only means by which the present property tax rate can be reduced, or kept at its recent level."

Respectfully submitted,

H. W. DWIGHT RUDD, *Chairman*,

STUDY BY PLANNING BOARD OF NEW FEDERAL BUILDING SITE.

Coun. PIEMONTE offered the following:

Whereas, The location of the proposed \$28,000,000 Federal Building in Boston would have a sweeping and permanent effect on the future economy of this city; and

Whereas, The Boston City Planning Board is a most important agency of our city government, having been created according to chapter 12 of the Revised Ordinances of 1947 as amended by chapter 4 of the Ordinances of 1952 for the purposes of guiding all major improvements in the city; and

Whereas, The nine members of the Boston City Planning Board have been selected especially for their civic interest and knowledge of community development; and

Whereas, The Boston City Planning Board has the technical assistance provided by a large staff of graduate city planners; and

Whereas, The City Planning Board has prepared a general plan of the City of Boston to insure the most efficient and economic development of our city; and

Whereas, The City Planning Board from time to time makes special studies for the development of business and residential areas and for the extension of community facilities; and

Whereas, The City Planning Board has made an over-all plan for future building in Boston; and

Whereas, It is the function of the City Planning Board to advise the Mayor on all major improvements, public or private, proposed for the city; now, therefore, be it

Resolved, That his Honor the Mayor request the City Planning Board to review their study for future building in Boston and make recommendations for particular sites for the location of the proposed \$28,000,000 Federal Building in Boston, and that their suggestions and recommendations be forwarded to the appropriate federal committee or department in charge of selecting locations for the proposed new Boston Federal Building; and, be it further

Resolved, That his Honor the Mayor follow this matter up by personal call or in any other way he may deem advisable or proper to the end that the new Boston Federal Building be located in coordination with Boston's plans and to the best interests of our city.

The resolution was adopted under suspension of the rules.

APPROACHES TO CHARLES RIVERBANK AND PLAYGROUND.

Coun. PIEMONTE offered the following:

Whereas, The people of the Back Bay of Boston, both young and old, are suffering from the lack of approaches to the Charles Riverbank and playground; now, therefore, be it

Resolved, That the Metropolitan District Commission be requested to provide a bridge for such crossing at Gloucester street and at such other points as may make the Riverbank and playground more accessible to the people of the Back Bay section of Boston; and

Further that a copy of this resolve be forwarded to the Metropolitan District Commission.

The resolution was adopted under suspension of the rules.

Such Additional Locations, If Any, in Wards 11, 18, and 20, As May Be Designated by the Commissioner of Public Works.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete sidewalks in Loring street, etc. A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Sidewalks in Loring Street, Etc., and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, SEPTEMBER 27, 1956, with a certified check for ONE THOUSAND (1,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

—and—
Such Additional Locations, If Any, in Ward 6, As May Be Designated by the Commissioner of Public Works.

The Commissioner of Public Works of the City of Boston, Room 506 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for sheet asphalt pavement in Northern avenue, etc. A performance bond and also a labor and materials or payment bond each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner and each in the sum of 100 per cent of the contract price will be required of the successful contractor. Forms of proposals may be obtained at Room 506 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Northern Avenue, Etc.," and left at Room 506 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, SEPTEMBER 27, 1956, with a certified check for SIX HUNDRED (600) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 506, City Hall Annex. There will be a charge of two dollars (\$2), NOT REFUNDABLE, for each set of plans and contract documents taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY CLERK PUBLISHES ANNUAL MUNICIPAL REGISTER SHOWING COMPLETE PATTERN OF CITY GOVERNMENT

City Clerk Walter J. Malloy has recently published the Boston Municipal Register for 1956 in compliance with an order of the City Council, as approved by Mayor John B. Hynes.

Publication of this annual document dates back to the early beginnings of the City of Boston. The first volume was published in 1821, a year before the government of Boston changed from that of a town to a city. Regarded by research specialists on city government as extremely valuable source material on Boston, the Municipal Register has been published annually without interruption from 1821 through 1956.

Each year, the Municipal Register, under the editorship of the City Clerk, gives the up-to-date listing of all the city officials starting with the Mayor and the City Council. It sets forth the duties and responsibilities of each city department, board and agency, and cites the General Laws, special statutes, City Charter, and city ordinances from which each function of city government derives its authority. The text of the City Charter, including amendments to it, is printed in full.

The city officials and their key staff assistants, including the Mayor's Office and City Council, are listed according to their departments or agencies.

A table in the Municipal Register shows the manner in which the administrative officers of the executive departments are appointed or elected, the time of appointment or election and the term of office as prescribed by statute or ordinance. This table is a bird's-eye view of the city's reorganization plan of 1953.

The Municipal Register includes a brief description of the functions of each of the twenty-one departments under the Mayor and the School Department, Housing Authority and Finance Commission not directly under the control of the Mayor.

The powers and duties of the Administrative Services Department and the board which governs its policies are described in brief as are the other city departments whose functions are, for the most part, administrative. Most department heads serve on

several boards and commissions within the framework of city government. The duties and membership of these boards are enumerated in the document.

The Library Department is given a comprehensive breakdown of its multitude of functions. The Main Library and all the branches are listed with their street addresses, and a description of the research services and special activities is outlined. Every parcel of land under the control of the Parks and Recreation Department, including playgrounds, parks, parkways, cemeteries, and special facilities, such as the Franklin Park Zoo, is listed in the Municipal Register, together with the area of the land that each embraces. The eight divisions of the Department of Public Works, and the officials in charge of each, are described and listed.

A table in the Municipal Register sets forth the manner in which public officials, other than the regular city department heads, are appointed or elected and gives the duration of their terms of office. Each school under the jurisdiction of the School Committee is listed according to its school district. Also described in the volume are the routine and special services of the School Department and the duties and functions of the Board of Commissioners of School Buildings, who act independently of the School Committee. The Municipal Register includes a brief description of the Police Department, which is headed by a state-appointed commissioner, and the Boston Licensing Board, members of which are also appointed by the Governor.

There are many special agencies, boards, and commissions in the city government, such as the Franklin Fund, the George Robert White Fund, and the Suffolk County Court House Commission, which are described briefly. Judges, clerks, and principal attaches of the various courts of Suffolk County are published; also the staff of the District Attorney, Sheriff, and Medical Examiner. The name of every elected official who has served the City of Boston government since 1909 appears in the Municipal Register.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light a' serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

SCHOOL PROBLEMS SUBJECT OF FIN. COMM. REPORT

September 14, 1956.

To the Honorable the Mayor and City Council.

At the beginning of another school year, during which the School Committee must make policy decisions which carry cost as well as educational implications, and include the subject of a revision of the Rules of the Committee, the Finance Commission wishes to submit pertinent data. In particular, attention is called to questions of personnel administration.

Expenditure Levels

The central fact in the situation surrounding the Boston School System is that of shrinking size paralleled by increasing costs.

The decline in pupil enrollment started as far back as 1935; in fact, there are approximately 50,000 fewer pupils in the schools today than in that year. During the same period costs increased approximately \$9,000,000.

Rather than analyze the long period since 1935 with respect to expenditures, it seems advisable to consider the more immediate past, the period since 1950.

During this period the pupil load has shrunk by some 3,000, the number of teachers, supervisors, and directors by approximately 200, and the number of buildings by approximately 30. On the other hand, the outlay in dollars in that period, 1950-55, for purposes controlled by the School Committee increased from \$23,452,544 to \$27,396,633. This does not include the outlay for repair and construction of buildings.

The following table shows the expenditures in several functional categories for these two years:

YEAR	Administration	Instruction	Building Operation	Auxiliary Service	Fixed Charges
1950.....	\$1,037,754	\$17,939,777	\$2,465,914	\$1,205,444	\$214,898
1955.....	967,669	20,406,297	3,108,312	788,474	565,391

It is also possible to determine how Boston's level of per capita expenditure in the various functional categories compares with that of the larger cities of the country during this period, by using the comparative data published by the Federal Office of Education which shows the per capita expenditures under the following six headings: Administration (general, educational, and business); Instruction; Operation of the Buildings;

Maintenance of the Buildings; Auxiliary Services (including Medical, Nursing, Cafeteria Services); Fixed Charges (including Pension Funds, Insurance, and Rents). Capital Outlay and Debt Service are not included in this federal document.

An examination of this intercity data for 1950 and 1955 produces the following conclusions, when Boston is compared with 14 of the largest cities of the country (New York, Philadelphia, Detroit, Chicago, Los Angeles, San Francisco, New Orleans, Washington, Milwaukee, Cleveland, St. Louis, Minneapolis, Pittsburgh, Cincinnati).

Both in 1950 and in 1955, Boston ranked highest in per pupil expenditure for Administration, although the amount declined in 1955, whereas it increased in the case of most other cities. Boston was third highest in the category of Instruction in both years. It was eighth highest in 1950 and the seventh highest in 1955 in the cost of Operation of Buildings. It shows even a better standing in this category when the comparison is limited to cities in the northeast section of the country.

In the category of Maintenance of Buildings, Boston was seventh highest in 1950, and third highest in 1955. In Auxiliary Services, it was third highest in 1950 and fifth highest in 1955.

Boston is at the bottom of the list in the category of Fixed Charges in both years; but this comparison has no validity because the figure for Boston does not include the pensions paid by the City government, whereas the figures for most of the other cities include that amount.

As the federal publication cautions, however, these figures do not

relate to the quality, efficiency, or adequacy of the educational program; they simply show the level of expenditure. However, it appears that Boston has, at least since 1950, the first year in which Boston submitted data on this functional basis, observed a relatively high level of expenditure in Administration and Instruction; and that the per capita expenditure for Maintenance of Buildings and Auxiliary Services is relatively high.

The Salary Item

The principal item of expenditure in the school system, of course, is that for salaries; for several years this has represented about 90 per cent of the cost. Expenditures for salaries rose from \$20,468,509 in 1950 to \$23,664,546 in 1955.

Increases in salary levels, rather than increases in the number of personnel are the primary reason for the increase in this item. In general, there has been a downward revision in the size of the staff as the school system has contracted. However, an examination of the staff size at the end of 1950 and 1955, including vacancies and expansions, shows areas where there has been an increase of staff, as follows:

Staff Increases

In the area of *General Administration*, there was an increase of ten clerks in the Secretary's Office. In *Educational Administration* an increase of two assistants in the Superintendent's Office, two supervisors in the Office of Supervisors of Attendance, and one supervisor in the Office of Licensed Minors.

In the area of *Instruction Educational Direction and Supervision*, there was an increase of two clerks in the Adult Education and Recreation Activities, and increase of three professionals and three clerks in the Division of Educational Investigation and Measurement, four professionals and one clerk in the Division of Juvenile Adjustment, one assistant director in the Division of Music, three supervisors in Physical Education, and one director and one clerk in the Division of Business Education.

In the area of *Special Education*, there was an increase of one teacher each in Speech Improvement and the Clerical School and in the Godwin School, and an increase of four in the Day School for Immigrants.

In the Division of Adult Education and Recreational Activities, expenditures for salaries connected with the programs moved with the change in average membership both in the Evening Schools and the Summer Review School. However, in the case of school centers, the salary expenditures went from \$60,699 in 1950 to \$130,292 in 1955, while the average membership in the centers changed little, moving from 2,702 to 2,795 in the same period.

Outside Use of Schools

As an offset to the increasing expenditure for *Outside Use of Schools* (salary expenditure rose from \$33,619 to \$37,161 in the 1950 to 1955 period) the following quote from the Finance Commission Report of February 7, 1956, on the general subject of fees is pertinent:

"Civic, fraternal, philanthropic and educational groups are permitted to use hall and gymnasias in schools without a fee except when admission is charged for the event. Some other groups are permitted to use the facilities upon payment of a fee. The fee consists of the estimated cost of the salaries paid to the custodians assigned to the school for the hours of occupancy involved in the use. The reasoning behind this custodial basis appears to be that the larger schools will produce the heavier fee since the size of the custodial staff will vary directly with the size of the school.

"However, the history of the fee levied for the use of school facilities shows that a higher fee was set up four years ago than is now charged. In 1952 the Superintendent of Schools was requested by the then School Committee to make a report on the cost of the operation of school facilities as the basis of a fee for nonschool use. He appointed a committee of school officials, including the Chief Custodian. The report recommended a fee of \$75 for high school and junior high school halls. The School Committee increased the figure to \$90. This fee was in effect for only a month.

"The Committee then appointed a subcommittee of its membership to reconsider the subject. The latter decided that the estimated custodial cost during the hours of use should constitute the fee. No provision is made for the cost of heat and light.

"A review of the paid uses of school facilities by nonschool groups during 1955 shows there were 350 uses. The following samples are indicative of the use and the fee paid:

	Fee
Use of 14 classrooms for civil service examinations for 5½ hours.....	\$45.00
Use of high school hall for talent show for 4½ hours....	50.00
Use of high school hall for lecture for 3½ hours.....	35.25

Use of cafeteria for breakfast

for 3 hours..... \$30.00

"Fee schedules should be based on all the elements of cost involved in the use of school facilities."

Auxiliary Services

The quantitative factors involved in the determination of staff requirements in Auxiliary Services would appear to be:

1) Pupil Load and 2) Number of Buildings. The following table shows the size of staff in these services in relation to those factors. School nurses are replacing medical aides, and they should be considered jointly.
